UPPER PORT LATOUR, Sep'. 22, 1889.

Dear Sir .-- 1 take great pleasure in informing you that under your treatment I have received much benefit. In the winter of 1867, when I commenced taking your medicine, I had a bad congh, severe pain in my shoulders, and feared that consumption. had claimed me for its victim. I took your medicine for about a year regularly, and since occasionally, and do not hesitate to say that my health is better now than it has been for the last ten years and consider it is owing to your treatment and the blessing of God alone that I am alive to-diy, and able to look after my family as usual. Hoping that all who are suffering from lung affections will not fail to try your medicine.

I remain, Dear Sir, Yours Respectfully, ELEANOR J. PATTERSON. Oct. 14, 1869.

GORDON & KEITH.

Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were ag-gravated by the scroftlous contamination until

they were painfully afflicting, have been radically cured in such great numbers in almost every sec-tion of the country, that the public scarcely need to

cured in such great numbers in almost every sec-tion of the country, that the public scarcely need to be informed of its virtues or uses. Scrofulous poison is one of the most destructive enemies of our race. Often, this unscen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tuber-cles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcer-ations on some part of the body. Hence the occa-sional use of a bottle of this Sarsaparilia is ad-visable, even when no active symptoms of disease appear. Persons afflicted with the following com-plaints generally find immediate relief, and, at length, cure, by the use of this SARSAPARIL-LA: St. Anthomy's Fire, Rose or Erystpelas, *Tetter*, Sait Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Serorutous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, and the various Uteerous affections of the muscu-iar and nervous systems.

and the various Uteerous affections of the muscu-lar and nervous systems. Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhad or Whites, Uterine Uteerations, and Female Diseases, are com-monly soon relieved and ultimately eured by its multiping and invigorating effect. Minute Direc-
