

what beautiful singing, what beautiful singing, and repeated two lines of what she had heard. She seemed to have heard what others did not hear, and to know that the time of her departure was at hand. She possessed a Missionary spirit and felt deeply interested in the cause of Christ, leaving as a bequest twelve pounds to the Foreign Mission. She lived from Lord's day apparently separate from the world till Wednesday evening, when she had an easy dismission from the flesh. She had previously given directions as to her funeral, and selected the Text Job xix. 25. "I know that my Redeemer liveth."

The bereaved family were again called to mourn on the third of Sept., by the death of a dear child, Roland DeBlais, infant son of Daniel and Adelia Parker, aged 4 months.

The Lord sustain brother and sister Dimock in the loss of their eldest daughter and only grand child, and may they realize that their Heavenly Father has taken but what he gave.—*Com. by Rev. J. Bancroft.*

LATEST FROM EUROPE.

LATEST WAR NEWS.

France still refuses to cede any territory to Prussia; and Prussia will listen to no terms which do not include this in the provisions. In the operations of the two opposing armies, France has met with some success during the past week.

An official despatch from Tours on Friday last, states that a telegram from Basle announces that the Prussians suffered a defeat between Mont Belliard and Besancon. They fled in disorder, taking with them 53 waggons filled with wounded and leaving 1200 killed on the field. Three hundred of the fugitives crossed the frontier into Swiss territory. They were disarmed, and directed to proceed to Posenbray.

On Saturday it was stated that a frightful storm had raged for several days all over the North of France. The entire country was under water and everything was entirely drowned out. The telegraph lines were prostrated in all directions. It is reported on the continent that Queen Victoria has written to the King of Prussia, urging him to moderate his demands.

The delay in the bombardment of Paris is said to be due to the imperfect state of preparations, not to political considerations. It was to commence on the 1st of November.

The King of Prussia telegraphed to Berlin on Thursday:—"This morning Bazaine and Metz capitulated. There are 150,000 prisoners, including 20,000 sick and wounded. The army and garrison laid down their arms this afternoon. It is one of the most important events of the war. Providence be thanked."

The Prussians army under Prince Frederick Charles marched into Metz on Friday, and occupied all the forts and the city.

Greece has recognized the French Republic. The English at Paris are under the protection of United States Minister Washburne, as the British Charge d' Affaires is not recognized by the Republican Government, and has no authority to act.

The garrison of Toulon has been sent into the field, and the National Guard has taken its place.

Nothing had been learned from Paris since the 20th. At that date all was said to be going on well—no signs of discontent nor pressure for the necessities of life.

It was stated in some of the London papers last week that negotiations are actually going on between King William and Eugenie, with a view to the return of the Empress to France, to resume the Regency, and negotiate peace. The departure of the Empress, might be expected at any moment.

The "Times" of Tuesday had a special despatch from Berlin, stating that the latest negotiations have come to naught, owing to the persistence of Prussia in her demands for the cession of French territory. It advised the British Government to make no further efforts to put a stop to the war, and says if England persists in negotiating for peace, she must be ready to stake something on it.

The London press abandons the hopes of peace, but the British Cabinet were confident of success.

Garibaldi is reported to have defeated the Germans in the Vosges.

Masinni has left Italy, and is now on his way to Tours.

The German Garrison at Sedan are now menaced by French troops.

Schlesstadt capitulated after a severe bombardment. The surrender includes 2,400 prisoners, and 120 cannon.

The Northern and Southern States of Germany are said to have agreed to name King William Emperor.

The spoil captured at Metz included 30,000 guns, and 40,000,000 francs of the French civil Government department funds.

Tours, Oct. 30.—A Government Council was held last night and a proclamation signed by Oremieux Glalz-Blaissin, and Gambetta, was issued this morning, denouncing Bazaine as a traitor, and exhorting the nation never to surrender.

Oct. 31st.—The capitulation of Metz and Bazaine is strongly denounced by the French leaders.

Another proclamation is issued signed by all the members of the Provisional Government, in which they say:—"Marshal Bazaine has be-

trayed us; he has made himself an agent of the man of Sedan; and the accomplice of the invader, and regardless of the honor of the army of which he had charge, he has surrendered without even making a last effort." The proclamation appeals to the people of France to maintain their honor, dependence and integrity.

ENGLAND.—The new French Loan is quoted at a premium in London.

It is stated that the movement of England for an armistice between the belligerents is induced by apprehensions of ulterior designs on the part of Russia and Prussia to form a close alliance. The fact that Russia is greatly and effectively arming, is well known, despite her official denials.

England begins to see that the utter prostration of France would deprive her of the only strong ally that can be depended on for the frustration of Russia's political schemes in the East.

An uneasy feeling prevails in financial circles and it is anticipated that should the efforts of England fail she will adopt other and stronger means to secure the cessation of the war.

The four boats of the Cambria were found empty at the Giants Causeway, but no trace of the passengers or crew were discovered.

The Prince and Princess of Wales are visiting Eugenie at Chiselhurst.

The "Times" doubts if England should not like America, abandon her scrupulous neutrality, and afford supplies to both belligerents.

The agitation in behalf of the release of Irish political prisoners has become general and systematic in England.

A soldier at Spartan grossly insulted Lord Loftus, the British Minister to Prussia, and was severely punished.

The Corporation of Limerick have united in a protest against the Italian incorporation of the Papal States.

A large quantity of arms have been seized by the Police at Castelbar, Ireland.

The ship "Queen," from London for Halifax, has put into Queenstown leaking, with her boats stove, and other damage.

POLITICAL.—P. C. HILL, Esq., has been nominated one of the Candidates for the representation of Halifax in place of J. Northup, Esq., in the Local Parliament. Mr. Hill's published card states that the requisition was signed by nearly one thousand Electors.

The writ has been issued, fixing Nomination Day, for Thursday the 10th; and election day on the 17th. This is the first election under the new Ballot Law. Electors should be well posted up in their duty, so as to vote without any restraint or intimidation, for the man they conceive best able to represent their views in the Legislature. Efforts will doubtless be made by some parties to prevent the loss informed from using their ballot freely. We hope that the evils often attending the ballot in the U. States will not be imported into our province.

The Colchester Election of a representative to the Dominion House of Commons will shortly be held too to fill the vacancy occasioned by the appointment of their late member, governor of Manitoba. [Some of the papers are containing elaborate political articles on these matters and endeavouring to write up their representative men above those of their opponents. Persons who read but one side might suppose that only their man was fit to appear in public or in print. Such however is not the case. The man on the other side has some virtues as well as the one on that.

Another item in our provincial politics, is the death of J. J. Marshall, Esq., the Speaker of the House of Assembly. This makes another vacancy to be filled in the House and in the office of Speaker.

The 24th of November is Thanksgiving Day in the United States.

A VOLUNTEER REVIVAL AND SHAM FIGHT was held on the Common on Wednesday last under command of Col. Laurie. The Reporter gave a thrilling account of the glorious achievements of the day, and the brilliant victories of our local forces.

THE SUPREME COURT IN HALIFAX was opened on Tuesday of last week.

In consequence of the absence of Attorney General and the criminal docket not being ready, the Grand Jury was dismissed till Thursday.

On the opening of the civil side of the court, H. Blanchard, Esq., Q. C., stated that the members of the bar present, having unexpectedly learned that His Lordship Justice Ritchie, was to preside at this session of the Supreme Court, they had resolved to tender their congratulations, and to express their gratification at his elevation to the bench.

Judge Ritchie replied expressing his thank in a brief and appropriate manner.

The prisoners were then brought up and arraigned. They all pleaded "not guilty" except James Riley and Charles Medley.

The prisoners were remanded to jail, the latter two to await sentence, and the others for trial. Riley, having pleaded guilty, will be admitted as Queen's evidence at the trial of Kennedy and Brigley.

The New Brunswick Government has appointed the 10th of November to be observed as a Day of Thanksgiving for the abundant harvest.

REAL ESTATE SALES.—The selling of real estate lots appears to have become quite a scientific operation of late in Halifax. The farm lately owned by R. H. Skimmings, Esq., was sold on Saturday last in 200 lots, at prizes varying from \$125 to \$290, amounting in all to \$36,138. When the ground recently sold on the western part of the peninsula of Halifax is built upon there will be as large a portion of the city on that side as on the present eastern side.
