CHALONER'S ANILINE DYES.
 THE proprietor of the celebrated Aniline Dyes in packets wishing to prevent the public from imposition begs to call attention to Messrs Avery & Brown's imitation of Roseine containing only ONE FOURTH THE PROPER QUANTITY to retail at the same price as his, viz., 10 cents. The proprietor has some one else in this province in view, but not having our demonstration, will only refer the imitator to the above with the caution that wherever there is not a shadow of a doubt in his favor he will be advertised also. The only genuine one to be had in St. John, of Messrs. T. B. Barker & Sons, Hamilton Bros., and H. L. Spencer, all of whom buy largely.
 These Dyes give better satisfaction than any other class, they are in almost all colors, Magenta, Pink, Ponceau, Yellow, Mauve, Violet, Purple, &c., (no black), with directions. The original have the directions printed on colored labels corresponding with the shade of the dye, they are soluble in water. For any further information on the subject, ADDRESS—J. CHALONER, Inventor and Proprietor of the Aniline Dyes in packets, Corner King and Germain Street, St. John, N. B.

Registration of Letters, containing Money, Cheques, or Articles of Value.

Notice to the Public.
 The Post Office Department having gone to a great deal of trouble and expense to ensure, as far as possible, the safe transmission of money by Mail, it is much to be regretted that the public will still continue to send through the Post Office letters containing money, cheques, or valuable papers without availing themselves of the money order system, or having their letters registered, *tho' charge for which is now only two cents.* The safest mode of remitting is by money orders, but in places where there are no money order offices, the *Registration system* should be taken advantage of.
 When an unregistered letter, stated to contain money, goes as ray, suspicion rests not only upon the Post Office Employees by whom the letter has been handled, but upon the sender, and receiver also, for it has been known that parties owing money, when pressed for payment in the hope of either evading the debt altogether, or gaining more time in which to pay it, have stated that their remittance had been duly forwarded through the Post Office, when on investigation it was found that no remittance had ever been made at all.
 A careless or dishonest man may receive an unregistered letter containing money, and forget, or intentionally omit to acknowledge its contents; in either case, however, the Post Office is blamed, when, in reality, in many instances, no blame should have been attached to it.
 In connection with the foregoing remarks, I annex an extract from a report of the Post Master General at Canada:
 "If the consequence of this procedure were limited to the mere risk of the loss of the money sent, the senders of money in unregistered letters might reasonably urge that if they chose to encounter the risk, they should be free to do so; but higher considerations are involved in the question, and the chance of loss to the careless remitter is really but the smallest part of the evil associated with the practice.
 "The point of most importance to this country is the cruel temptation which the enclosure of money in unregistered letters throws in the way of the numerous body of persons employed in this branch of the public service.
 "Against actual dishonesty on the part of Post Office employees, a registered letter is incomparably more secure than an unregistered one, for an unregistered letter leaves no trace behind it whilst passing in the great stream of ordinary correspondence, though its presence as a money letter, and the nature of its contents are, to any person accustomed to handle letters, as manifest as though the letter had been singled out and marked by the registered stamp.
 "Moreover, the safety of an unregistered letter is dependent on the integrity of a Post Office clerk, during the whole time it remains in his custody, frequently for hours and even days, whilst a registered letter will, almost invariably have to be acknowledged at the moment of its passing into an officer's hands, and cannot therefore be suppressed without leaving him individually accountable for its disposal.
 "These remarks are so true and forcible, that I would earnestly recommend their attentive perusal, especially by those who are in the habit of sending money, &c., by mail, in unregistered letters; and I would further suggest that letters containing money should invariably, be sealed with *letter sealing wax.*
A. WOODGATE,
 Post Office Inspector's Office,

 May 3.

GATES' LIFE OF MAN BITTERS,
 FROM THE
Roots and Plants of Nova Scotia, FORMERLY MANUFACTURED BY

MRS. GATES, OF WILMOT,
 Throw aside prejudice. Buy and use the best Medicines ever offered to the public, as multitudes that have proved them to be, are daily declaring. We now ask who dare question the truthfulness of this assertion? Can there be found a man so devoid of principle that could be induced to deny one statement that has ever been made relative to what our Medicines have done, are doing, and will ever continue to do, when taken, and used according to the prescribed instructions? Such an one cannot be found; and why? Simply because in this advanced stage of the 19th century, with all its giant intellects at work doing their utmost to educate man and infuse right principles throughout the entire universe, no species of humanity would willingly betray such unparalleled depravity as to withhold by falsehood from their poor suffering fellow beings that which every physician aims at, viz, to restore nature to its own state—which is all we claim to do.

Our medicines are extracted entirely from the roots and plants of the vegetable kingdom, such as Life of Man roots, Sarsaparilla, Comsumption roots Male and Female Nerve roots, &c., which make up our compound of different remedies, that has been thoroughly tested for 25 years, in some of the most severe and apparently hopeless cases, which a few of the numerous certificates we possess and here subjoin loudly testify. No calomel. No mineral of any kind. These medicines being made in a liquid, are easily taken even by children, and will operate as a mild and gentle physic, without gripping or pain, and will not, like other medicines, leave the stomach and bowels in a worse state than it found them, but will impart to them a healthy tone, and vigor before unknown. There is no doubt about it, if you are sick and feeble and your digestive functions are impaired, your blood impure, stomach unable to digest your food, and nervous system generally prostrated, this is the medicine you want to stimulate your stomach and liver to healthy action, create a desire for food that will digest, strengthen and build you up. These medicines are confidently recommended for all kinds of humors, bilious diseases, sour stomach, headache, dizziness, heartburn, and all impurities of the blood. All admit so effectual a remedy for dropsy never was known. If your liver is torpid and inactive, if you are troubled with jaundice, only try our medicines, be cured and believe. Ladies in the turn of life will find in them just what they want. Young ladies, in particular, just budding into womanhood, above all others should never be without them; they are what you want at this critical period. Mothers should see to this and provide their daughters with them. Children, crying their little lives away while worms eat up their vitality, may be cured, tho' tormentors killed and driven away by the timely use of our effectual remedies.

We do not pretend to offer them to the public as a perfect cure-all of every disease, which every intelligent mind knows is out of the question; we only wish to make known what they positively will do and no more; therefore we submit this Circular to those who are willing at least to make a trial; their judgment we anxiously await, knowing it must be the same as thousands already have given. We offer medicines that may be used with perfect safety. We do not claim they will always effect a cure, for man is born to die. We wish to inform all that our medicines are prepared with great care, expressly for family use, and all so admirable calculated to preserve health, remove disease, and restore nature to its own state. These medicines are carefully compounded upon scientific principles by those thoroughly acquainted with the medicinal properties of each article used, as well as the effect the combination will have on the system. Consequently we feel safe in recommending our preparations with the greatest confidence. It has become an undeniable fact that when the system becomes infected with malignant diseases, either local or general, seated in either the nervous, glandular, or muscular parts of the body, it can only be made healthy by cleansing the blood, and this done the disorder lets go its hold, and nature resumes her original standing; no medicine, therefore, that does not strike at this the root of all disease—the impurity of the blood—cannot, nor should not have any claim to public attention. The blood is the grand consideration then; and it becomes the duty of the strong, as well as the weak and unhealthy, to guard well this part on which so much of our comfort depends.
