required. The following certificates describe a few of the astonishing cures which have been made by the use of these remedies :

CALEB GATES & Co. Gentlemen: - I take this opportunity of testifying to the value of your Invigorating Syrup. My daughter a girl of twelve years of age was afflicted during the past winter with loss of appetite, followed by general debility and weakness of the Stomach to the extent that she could not retain food upon the stomach the consequence of which was that the became a mere skeleton and was fast wasting away while the

Doctors could do nothing for her. Mr. John N. Boleman happened to call at my house and seeing the pitiful condition of the child recommended the Eyrup we gladly took his advice and immediately precured a bottle which gave great relief, and a second one made an entire cure.

DR. JOSEPH D. DAVIS XXTOULD inform the public that after

V thirty years of study, investigation and practical experimenting concerning that terrible disease CONSUMPTION.

And the diseases of the anterior and posterior naries, throat, bronchia, lungs, heart, liver, kidneys, and uterus, and twenty years spent in investigating, experimenting and proving, with the medicinal and therapeutic properties of the roots, barks, plants and shrubs, indigenous to Massachusetts, Maine, New Brunswick and Nova Scotia,—he has discovered new remedies, and new modes of treatment, for Consumption, not previously known to Medical Science; and with the large number of cases treated, relieved and cured during the past ten years, in Maine, Massachusetts, and in different sections of Nova Scotia, has proved, beyond the shadow of a foubt, that Consumption, very often in its advanced stages, with his medicines and mode of treatment, can be cured.

He has, at great expense, procured from London, Paris, Vienna and the United States, the finest and most delicate instruments to enable him to thoroughly diagnosis diseases.

CAPE SABLE ISLAND. N. S, ? July 15th, 1870.

DR DAVIS-Dear Sir-The wisset of men has said that in a multitude of counsellors there is safety.' Having been benefitted by your medicines, I wish to say it to others who may be suffering from lung diseases. Early in 1869 my health began to give way, until such a lack of vital tene was experienced that I concluded it was time to try to avert the impending danger or doom; and arranged last autumn for a rest and a visit to my native Province; but on returning found myself no better; I became discouraged, feari g if no help could be obtained that I should have to abandon my work in the ministry. Happily for me, as the sequal proved, you were di-rected this way last winter; and, upon examication, you said my langs were in a tubercular condition, and advised me to take medicine; to which I consented, with many misgivings, which, however, were dissipated in the course of four or five months. For the first three menths I could not discern much change; but after that began to feel a new vitality permeating my whole system; my work, which for months had been burdensome, became lighter and more agreeable; and now I enjoy a vigorous state of health. If this testimony should induce any who are suffering from lung disease to employ you, with the same success. I do not doubt but they will feel that, under the Divine blessing by which you have been enabled to gather such valuable knowledge from nature's store house, they are your debtor. With earnest prayer that you may succeed in business and become a blessing to many of the afflicted, I remain, with kindest regards,
