

We have just learned that letters have been received from Miss Norris at Rangoon. She arrived there Jan. 8th, and was staying with Dr. Stevens when she wrote.

EPISCOPACY.—At a recent sitting of Convocation, Dean Stanley protested against a passage in the report on "The appointments to Bishops," which said—"It is evident from Holy Scripture that the authority and founder of the Episcopate was Christ." The Dean observed—"To say that the Episcopate, as it now exists, was founded and instituted as one of the universal and essential parts of the Christian religion by our Divine Redeemer, appears to me little short of profanity."

ACKNOWLEDGMENT.

N. E. MARGERER, March 6th, 1871.—Dear Brother,—I have no word to express my gratitude, as well as that of other friends here. May the author of every good and perfect gift reward you and the donors.

Your letter of the 15th Feb., I received with \$18 enclosed; again your favor of the 22nd February, I received \$20 enclosed.

Yours as always, very respectfully,
LAUCHLIN MACDONALD.

[Our brother should have mentioned the names of the contributors of the above sums as we gave them to him. We omitted acknowledging them all as we thought it would be better to have the list published when the amount had arrived at its proper destination.—Ed. C. M.]

News of the Week.

HALIFAX CHAMBER OF COMMERCE.—At a meeting held on Wednesday last, it was unanimously resolved that a Union with the Dominion Board of Trade is desirable. The following resolution relative to the currency was passed:

Resolved, That this Chamber views with some anxiety the change in the currency of Nova Scotia, now proposed in the Dominion Parliament. The Chamber, appreciating the necessity existing for an uniform currency, would respectfully submit for the consideration of the General Government the superiority of the Nova Scotia system, and would recommend, if any change be made, that the currency known as "Halifax currency" be adopted. The Chamber would also beg to state that in event of the currency of the Dominion being assimilated to that of Ontario, Quebec and New Brunswick, that the change should not come into operation until January 1, 1872.

It was resolved that the Chamber meet quarterly instead of annually. The following Executive Committee for the ensuing year was elected:—J. T. Wyld, R. Bonk, Jr., J. S. Maclean, Catbort Thomson, G. P. Mitchell, Joseph Wier, William Esson, W. H. Hart, John Doull, William Fryer, George J. Troop, William C. Silver, A. H. Crowe, John Starr and J. Taylor Wood.

THE FIRST CARGO OF FRUIT for this season on board the Brig "Model" arrived at this port from Malaga on Friday last. Her cargo consisted of the following:—4020 boxes, 2540 half do., 2080 qtr. do., 100 kegs and 100 trials of Raisins, 50 boxes and 100 frails Almonds, 40 boxes Lemons, 100 bags Filberts, 10 do. Hemp seed, 25 bbls. Canary seed, 2 kegs Wine, 1 do. Lemon Juice, 6 kegs Olives.

A TEMPERANCE MEETING was held on Monday evening in Temperance Hall. Mr. Boak, Sen. occupied the chair: The speakers on the occasion were all veterans in the cause, and in years—Rev. Dr. Cramp, Rev. Canon Cochran, Messrs A. M. Gidney, and W. M. Brown. The ages of these five men probably would average upwards of three score and ten years. It was instructive to the younger members to hear from these aged brethren their testimony to the value of the principles of total abstinence from intoxicating drinks.

The night was unfavorable, as it rained, and there were other popular meetings the same evening. There was however, considering these circumstances, a fair audience.

The statistical information and a number of comparisons drawn between the importation of spirits and other articles in 1828 and 1868 showed that temperance principles and civilizing influences had made advances far beyond the increase of population. Dr. Cramp's address was received with marks of warm approval.

A VALUABLE PRIZE.—The steamer "Californian," arrived at this port on Saturday morning, having in tow the American brigantine "Sarah." The "Californian" belongs to the West India and Pacific Steamship Company, of Liverpool, and is one of a line trading between that port and the principal ports of the West Indies. She is bound home with a very valuable cargo of cotton, coffee, dye-woods, spices, &c., gathered at eight West India ports, the last of which, Port au Prince, Hayti, she left on the evening of the 27th ult.—Tuesday, 7th inst., when about six hundred miles south of Halifax she fell in with a large direct brigantine which proved to be the "Sarah," of Boston, which sailed from Galveston on the 17th of January for Bremen, with a cargo of cotton. On a house on deck was chalked the names of the crew with the date March 3rd, from which it is judged that she was abandoned on or after that day. It is supposed that the captain had his family on board as several articles of children's clothing were found. The "Sarah" is a large vessel, of about five hundred tons, American register, and has a full cargo of cotton which is not at all damaged.

MINING ACCIDENTS.—According to the report of the Commissioner of Mines, the number of accidents to operatives in the mines during 1870 was ten, of which four were fatal. Two persons were crushed by the cage in the shaft, one by a fall of timber, two were run over by engines and waggons, two were hurt by explosion of powder, and by explosion of gas, one by falling down a shaft, and one by a fall of coal. Of the ten accidents six occurred in the coal districts, and four in the gold mining localities.

YARMOUTH.—H. C. Creed, Esq., Principal of Yarmouth Seminary sends to the Herald some notes of the temperature of that place during the months of January and February:—
The warmest day in January was the 16th, when the mean temperature was 47.4°, and the highest observed temperature for the month—52.3°—occurred on the same day. The coldest day was the 23rd, the average temp. of which was only three-fourths of a degree above zero. The lowest temp. occurred on the morning of the 26th, when the thermometer showed 6.8° below zero. On the mornings of the 23rd, 24th and 25th the thermometer was at or below zero. The average temp. of the month was a trifle over 24°. The mean amount of cloud, expressed in tenths of the sky obscured, was a little over 8. Rain fell on eight days, and the total depth was 2.75 (2 3/4) inches. Snow fell on nine days.

During the month of February the mean temperature was 24.3°; the highest, 41°, at noon on the 25th and 26th; and the lowest, 4.2° below zero, on the morning of the 5th. The 5th was also the coldest day, the mean of the day being 3°; and the 1st was the warmest, the mean being 38°. The barometer stood highest on the 23rd, and lowest on the 4th. The mean clouding was 6.9. Rain fell on 6 days, to the depth of 1.04 in. (total.) Snow fell on 12 days; total depth 14 or 15 inches. The prevailing direction of wind was North-West.

BEAR KILLED.—One day last week, Mr. Alfred Mitchell, of Mill Village, while on his way to his camp, ten miles from the Village, discovered a bear with two cubs in a den. He succeeded in killing the old bear, and securing the cubs.—Liverpool Advertiser.

It is a rare thing that Physicians give any countenance to a medicine, the manufacture of which is a secret. About the only exception we know of is Johnson's Anodyne Linctum. This, we believe, all endorse, and many of them use it in their practice with great success.

AMHERST.—Among the indications of a nearly approaching Spring is that of flocks of wild geese passing over on their northward flight.—Gazette.

Persons requiring purgatives or pills should be careful what they buy. Some pills not only cause griping pains, but leave the bowels in a torpid, costive state. Parsons' Purgative Pills will relieve the bowels and cleanse the blood without injury to the system.

DR. JOSEPH D. DAVIS

WOULD inform the public that after thirty years of study, investigation and practical experimenting concerning that terrible disease

CONSUMPTION,

And the diseases of the anterior and posterior nares, throat, bronchia, lungs, heart, liver, kidneys, and uterus, and twenty years spent in investigating, experimenting and proving, with the medicinal and therapeutic properties of the roots, barks, plants and shrubs, indigenous to Massachusetts, Maine, New Brunswick and Nova Scotia,—he has discovered new remedies, and new modes of treatment, for Consumption, not previously known to Medical Science; and with the large number of cases treated, relieved and cured during the past ten years, in Maine, Massachusetts, and in different sections of Nova Scotia, has proved, beyond the shadow of a doubt, that Consumption, very often in its advanced stages, with his medicines and mode of treatment, can be cured.

He has, at great expense, procured from London, Paris, Vienna and the United States, the finest and most delicate instruments to enable him to thoroughly diagnose diseases.

CAPE SABLE ISLAND, N. S.,
July 15th, 1870.

DR. DAVIS—
Dear Sir—The wisest of men has said that in a multitude of counsellors there is safety. I have been benefited by your medicines, I wish to say it to others who may be suffering from lung diseases. Early in 1869 my health began to give way, until such a lack of vital tone was experienced that I concluded it was time to try to avert the impending danger or doom; and arranged last autumn for a rest and a visit to my native Province; but on returning found myself no better; I became discouraged, fearing if no help could be obtained that I should have to abandon my work in the ministry. Happily for me, as the sequel proved, you were directed this way last winter; and, upon examination, you said my lungs were in a tubercular condition, and advised me to take medicine; to which I consented, with many misgivings, which, however, were dissipated in the course of four or five months. For the first three months I could not discern much change; but after that began to feel a new vitality permeating my whole system; my work, which for months had been burdensome, became lighter and more agreeable; and now I enjoy a vigorous state of health. If this testimony should induce any who are suffering from lung disease to employ you with the same success, I do not doubt but they will feel that, under the Divine blessing by which you have been enabled to gather such valuable knowledge from nature's store house, they are your debtor. With earnest prayer that you may succeed in business and become a blessing to many of the afflicted, I remain, with kindest regards,
