

Religious Intelligence.

YARMOUTH, Nov. 15, 1872.

Dear Brother,— We had the privilege of receiving one into the Temple Church by baptism last Sabbath. She had been brought up in the Roman Catholic Church, and never attended a Protestant meeting until with us last winter. Our meetings are good, and the prospect looks somewhat encouraging. As Dr. Sawyer suggests: It may be encouraging to the friends of the College, to know that the Temple Church has contributed \$2314 toward the Endowment Fund. We hope that this amount will be yet increased. It may be interesting to know that of the above named amount, four brothers contributed \$1700. "The liberal soul deviseth liberal things, and by liberal things shall he stand." W. H. P.

REVIVAL IN NEW HAMPSHIRE.—An extensive revival has been progressing in Fisherville for several weeks. Beginning with the Methodists it soon proved that the "Word of God is not bound." The entire village has been aroused. God has wrought wondrously. One singular feature—among several—is the unmasking of back-sliding Christians. It is surprising how large is the number of those who have either been reclaimed or have simply become known as once professing faith. Children have come to Jesus, and strong men have fled impending wrath. A very touching scene has been an incident of nearly every meeting. A man of seventy years became so anxious for himself that he put himself among the inquirers; whenever the invitation for prayer was extended his white head and curly figure was the first to rise and walk down the aisle; eager was his seeking. The names of more than 250 are known to have inquired, "What shall we do?" It is estimated that full 300 have shown publicly a desire for prayer. The meetings have been thronged. In a single evening more than 250 gave witness to Christ; while at other times the entreaties and the utterance of Christian faith have been soul-stirring. Many have united with various churches. Pastor Harriman, of the Baptist church, has baptized 19. A still larger number will soon thus "put on Christ." Union meetings are still held. Pastors from the neighboring towns give their aid. The work reaches all classes of people and every age. Nothing like it for extent and thoroughness was ever known in the vicinity before.—W. & R.

Dominion & Foreign News.

HALIFAX, N. S., NOV. 20, 1872.

The Provinces of Ontario and Quebec were visited with snow storms last week. The statement of the Auditor General, issued on the 9th inst., shows that there is in circulation Dominion and Provincial notes to the amount of \$1,112,355.39, against which specie is held to the amount of \$2,512,830.30; debentures, \$720,000; certificates of deposit, \$1,410,525.09. SUICIDE AT OTTAWA.—On Friday last, a young law student, named Heskith, said to be a son of Sir John Heskith, of England committed suicide, by poisoning himself. The deceased was formerly an officer in the 13th Hussars, but sold out some years ago on his marrying at Hamilton. He went to Ottawa to study law. He had separated from his wife and family, owing it is said, to temporary fits of insanity. A special despatch to the Morning Chronicle on Monday says—Mr. Howe is to be made Governor of Nova Scotia and Mr. Archibald is to fill his place in the cabinet. A brutal murder was committed on Saturday last, near Peterboro, of a Mrs. Payne and her servant boy. The murderer has been arrested. REVENUE RETURNS.—The following is the statement of the Auditor-General, of the revenue and expenditure of the Dominion, for the month ended 31st October last:—

NEW BRUNSWICK. SHELIAC.—The Railway Machine Shop, and Round House, at Sheliac, were burned on Sunday the 10th. The engines, cars, and a load of tools were saved. Part of the tools saved were loaded ready to take to Moncton. The Engine Shed, and the coal were saved. The fire originated in the carpenters' shop. The buildings were insured in the "Queens" for \$4000. The stock was not insured, and the loss will be considerable. A young woman is under arrest at Caracquet, Gloucester Co., upon a charge of murdering her three illegitimate children. Soon after being arrested the wretched young woman confessed her guilt.

UNITED STATES.

Sympathy for Boston is manifested all over the country by public meetings and liberal contributions are coming forward for the sufferers. A meeting of citizens was held in Tremont Temple, Boston, on Wednesday, presided over by the Mayor, and attended by leading business men. The situation was discussed, and determination evinced, to not commence rebuilding over the burnt district; and requesting a special session of the State Legislature, to issue bonds for that purpose. Boston merchants are in no degree despondent. A military patrol will be kept until the buried safes are recovered. Over thirty thousand dollars worth of stolen goods has been recovered from thieves. The Boston Insurance Companies will pay 50 per cent, and those abroad in full. Merchants of Boston exhibit no despondency, but express determination to meet their reverses and conquer them. Chicago has appropriated \$400,000 for relief of Boston. 250,000 sides of leather were destroyed in Boston by the fire, and prices in New York have advanced considerably. Unfinished leather has advanced 10 per cent; sole leather 3 to 6 per cent; and further advances are anticipated. Thousands of laborers are clearing the debris, and opening streets on the burnt district at Boston. Dublin is being used in blowing up the heavy granite walls. There are no evidences of despondency among business men. The poor, who lost their homes, are well cared for. Liberal contributions are offered all over the country. It is proposed by the Boston City Government to buy out all the burnt district with straight and wide streets. Snow fell in New York last week it is said to the depth of twenty inches. NEW YORK, Nov. 18.—Gold 134. Foreign exchange steady.

LATEST FROM EUROPE.

ENGLAND.—Several of the English Insurance Companies will be heavy losers by the Boston fire. The amount has been estimated variously from two and a half to ten millions of dollars. A commission is to be sent to Boston by London companies to make investigation of the facts in relation to the origin and progress of the conflagration, as a matter of general importance to insurance interests. England and Portugal have agreed to settle their differences by arbitration, with President Thiers as Arbitrator. The London Mills, in London, were burned on Saturday morning; loss £100,000. Several lives were lost. The "Mauritius" was lost in the British Channel, and 23 persons drowned. The late heavy gales on the British coast were very destructive to life and shipping. Fifty lives are known to be lost, and it is feared that this number will be increased by additional disasters. The gale was also severe on the Prussian coast. At Straßburg seven vessels were sunk. The town was inundated, and in the height of the storm a fire broke out among the warehouses, which spread rapidly, and was burning at last accounts. Several lives reported lost, and many persons injured. A coal mine in Staffordshire, in which thirty-three men were at work, was inundated on Wednesday last, and eleven only were saved. Lord Northbrook, Viceroy of India, is visiting Bombay for the first time. His reception was most brilliant. A dreadful famine is reported among the Corcans. The Norwegian ship "Sesostriis" was wrecked in the Black Sea in a gale on Wednesday. Thirteen lives were lost. FRANCE.—The French Assembly opened on Sunday the 10th. The republican members resolve to oppose all constitutional reforms. The message of Thiers was received by the Assembly on Wednesday. He speaks hopefully of the financial condition and prospects, though the deficit the present year is 132,000,000 francs. The estimates show that the surplus will be restored during 1873. He appeals to the theoretical Republicans not to spare even excessive sacrifices for order in their own interest. Events have given them the Republic. The Republic exists as legal Government. An attempt at any different form of Government would lead to a most terrible revolution. The President deprecates the formal proclamation of the Republic by the Assembly. The better policy would be to impress on the institutions of the country the features of Conservative Republicanism, as the Republic must be Conservative, otherwise it cannot exist. The absolute need of France is repose. The message was well received by the "left," to whom it gives great satisfaction. M. DeKerdrel, Conservative, moved the appointment of a Committee to draw up a reply. The motion was agreed to by a small majority. It is thought that the President's message will lead to an early dissolution of the Assembly. The French Assembly have adopted a Bill for the reform of the French Jury System by a large majority. The transports which carried the first lot of Communists to the penal colony arrived safe. Thiers has contributed 1000 francs for the relief of the sufferers by the fire in Boston. SPAIN.—Troubles continue. The King is ill. Another revolt of Government troops is threatened, and the scattered Carlists are doing more or less mischief. Engagements, more or less severe in character, are reported in the department of Genoa. ITALY.—The plains near Lietzen were again flooded September 10th, and the water was rising rapidly. PORTUGAL.—The Government of Portugal has signed a concession to the Fal-mouth and Malta Telegraph Maintenance and Construction Company, empowering them to lay a cable from Portugal to Brazil. SWITZERLAND.—The Tyroloese Diet has been closed by the Governor because of the refusal of the members to perform their duties. DENMARK.—The steamship "Anglo-Dane" left Copenhagen on the 11th, for Pillau, and is believed to have foundered on Wednesday, during a gale, with all on board. CHINA.—There was an earthquake on the 21st September at Shanghai. WEST INDIES.—A Cuban letter states that there are 18,000 insurgents under arms, but there is a scarcity of clothing and medicines.
