After being led by him into such a mortifying error in the misuse of a word, (?) I shall not so highly prize him; but as I pass into the shade I have the satisfaction of knowing that he is eclipsed. OUR HOME MISSIONS.

For all the work accomplished by our eastern brethren I am truly thankful. In all their successes I have ever rejoiced. In all their toils and trials they have my warmest sympathy .--They live in my confidence. Many of my brethren know that at the Convention at Berwick I moved a resolution and did what I could to carry it, to locate the Board of the Union in Halifax. Mine was not however the will of the body and I, in common with my brethren in this County am willing to aid in perfecting an arrangement of our Home Missionary work which will doubtless greatly increase the power of our denomination for good.

For fifteen years I have been of the opinion that we should have a union of our Mission Boards in this province.

Our reasons for this offer are-1. We believe there are hundreds of families in every part of the province who would be greatly blessed and benefitted by having a good chris-

"THE WANT OF THE AGE."

A pamphlet has been forwarded to us, bearing this title and written by a member of the Established Church. The author defines the want to be a Church of the Apostolic type. He objects that at present the Clergy have too much power, and consequently if a layman of talent wishes to be useful in the service of Truth, his activity is repressed, to the great detriment of society and the delay of God's Kingdom. No essential improvement can be expected until this restriction is removed. Also, according to this writer, too much deference is paid to wealth, the poor are pushed on one side or made the subjects of ostentatious benefactions with no manifestations of genuine sympathy; and consequently the laboring classes are more and more ter says that flowers have a language, and social and pecuniary benefits that would prove their condition, they would erowd to the gates of Zion, "like doves to their windows."

We think the writer has misapprehended the facts in the history of the first churches. The community of goods," was on account of temporary and local reasons, and therefore is not a formal precedent, though the spirit that was then exhibited should be found in the church in every age. Spiritual causes had more to do with the increase of disciples in the days of the Apostles than prudential considerations. It is at the present a favorable study with some minds to devise a method by which all christians may be clothed in purple and fine linen aud fare sumptuously every day of their earthly lives, and at the close have an abundant entrance into the heavenly glory. But the problem is too much for human wisdom to compass. The pamphlet, however, is of use as it shows that men are considering one of the most important subjects before the church,-the responsibilities of christians entrusted with large wealth.

If the author would place himself in fellowship with a church that admits us members on evidence of regeneration, many of his difficulties would vanish; and he would find that "liberty of prophesying." of which he feels himself to be deprived in his present relations,

Send on early the names of New Subscribers for 1873, so that they may have the benefit of the remainder of 1872 for nothing.

We have not heard of any appointment of a chairman for the City Board of School Commissioners. It is doubtless a difficult task to find a suitable man who would be acceptable to all difficulties in making the appointment Every dollar given to our Treasury arises from the members of the existing Board. The fact that two churches are represented by clergymen whilst all the other religious bodies are without any such representation is, believe, very unsatisfactory to the citizens, and some of the Commissioners. It would be a favorable opportunity to make a change in the composition of the Board now that a new chairman is to be appointed.

NEW W. M. A. SOCIETY AT RAGGED ISLAND.

Osborne, Shelburne Co., Nov. 4th, '72. Dear Mrs. Selden,-

Through the influence and praiseworthy effort of Miss M. J. Cunningham, a native of Canso, and intimate acquaintance of our beloved Miss Norris, a Woman's Mission Aid Society was organized at this place,

April 8th, 1872.

Although when first organized the Society was somewhat small, only eleven members, yet " the day of small things " being not despised, a rapid growth of interest, and small increase of members, the present membership numbering only sixteen, the sum of sixteen dollar and fifty cents has been collected, and is herewith forwarded. It is much to be regretted that there are Baptist churches, and branches of churches, in which sufficient interest in this great work has not yet been awakened, to induce the formation of a W. M. A society. Not only are such churches depriving themselves of a glorious privilegethe privilege of assisting in a great work, but they are sustaining an irreparable loss, they lose that happy influence which deeds done for Christ's sake always exert upon the actors. News of the Week.

THE STORM OF THURSDAY NIGHT .- A strong southerly gale, accompanied with torrents of rain, commenced on Thursday afternoon, the wind shifting round to the southwest in the evening, and continued all night. The damage was not very extensive, owing to a shift of the wind. The American schooner We are here, belonging to Gloucester, anchored near George's Island, dragged her anchors, and got foul of the brigt. Ben Nevis, of Arichat, lying off the Market wharf, carrying away the brigantine's jibboom, cut water and head gear. The schooners rail was cut down on both sides, two planks on the starboard side cut through, and she sustained other damage. It will take a considerable sum to repair her, The brigt, B. L. George. owned by Mr. W. S. Salter, of Halifax, anchored off the Marine Railway, Dartmouth, dragged her anchors, and drifted high and dry ashore little north of the Marine Railway, Her rudder is gone, bottom considerably chafed and a portion of the rail carried away. The Bgt. Abstainer, of Parrsboor, from New York for Liverpool, which put in here on Thursday in distress, and was anchored in the stream, dragged her anchors a short distance but brought up without damage. At Richmond the large derrick on the wharf was blown down .- Cit.

THE INTERCOLONIAL - The first train from Halitax left the Depot on Monday morning. It consisted of one second and three first class cars, baggage car, and smoking and postal car, with engine and tender. It was one of the best trains ever sent from Richmond, all the cars being quite new, and one of them used for the first time. Mr. Carvell, (who arrived by special train from Truro on Saturday night) and Mr. Taylor started to go over the line All the cars were crowded with passengers, and a goodly number of persons assembled at the station to witness the departure of this first regular train from Halitax over the Interrolonial. The train which left St. John on Monday morning, was some hours behind time in arriving at Amherst.

THE HORSE DISEASE IN TRURO .- The Truro Sun says; "We learned yesterday that H. Hyde, Esq. has five horses laid up with the sickness, some of which have in one stage or another of the disease, exhibited all the known symptoms appertaining to it. And we understand that a horse of George Archibald, Esq., took ill on a return journey from Wallace, a day or two ago, and became as difficult to move as a locomotive without steam. We have also heard of several instances of horses being troubled with coughs and influenza, which forces us to the painful conclusion, that there is no question about the horse disease being in Truro."

The Horse disease is said ta how appear, ed at Yarmouth and Amherest. No cases ate known as yet in Halifax.

ON FRIDAY LAST a lad named John Curren, a frequent offender, was sentenced to the Reformatory, for stealing a wallet containing \$20 from the counter of a shop.

Sable Island .- The new lighthouse and log whistle on the east end of the Island is now in full operation. Another lighthouse, which is being constructed at the west end of the is land, will be completed next Vebruary. It will be 70 feet high, and the most powerful light on the const

The Steamer Neptune plying on the Bras d'Or Lake, has been quarantined at North Syndey, with small-pox on board.

THANKSGIVING DAY .- The Provincial Government have appointed Thursday, 21st inst, a day of Thanksgiving.

Truno - Much damage was done here by the gale on Thursday last. Three houses and a new store, 65 feet long, in course of crection, and nearly finished, were blown down. The Old Railway Depot which was being removed was brought down by the force of the wind, strewing the track with debris, which had to be removed before the morning train could leave. Rocfs of houses, fences; etc., also suffered considerably.

Efforts are being made to bring the water in the town. A meeting was held to consider the matter on Saturday week, and a committee of four appointed to canvass the town for subscriptions to the project. The estimated cost is \$20,000,

On Tuesday afternoon last, as Mr. H. A. Gray, the Resident Engineer on the Intercolonial Railway at Truro, was stepping into one of the ballast train engines at the Mines Station, he missed his footing and fell. His man, who was frightened at seeing Mr. Gray slip, dropped the axe which he had in his band, and in falling it cut a severe flesh wound into Mr. Gray's leg, a little above the knee-cap.
