Our distribution of English Scriptures during the past year, exceeds that of previous years. The gratuitous appropriations amount to 20,744 copies.

Our receipts during the year have fully equalled those of preceding years.

In one respect, the prospects of the Union, in a financial point of view, have decidedly improved. We have never known a year, in which so many friends have informed us, that they have remembered the Bible Union in their wills.

In conclusion we recall attention to the sentiments with which this Report was introduced :

GREAT INDUCEMENTS.

We are desirous that every Baptist family in the country should have the Christian Messenger as a part of its regular household arrangements, to supply them with information of what is passing from week to week in the churches of their own denomination, in the christian church generally, and

in the world. Baptists should be the Spinney, \$10. best informed people in the world.

In our aiming at this object we believe that we have the sympathy and best wishes of a very large number of the most intelligent men and women in the churches and congregations throughout the country.

We shall be happy to enlist as many as possible in endeavouring to accomplish this object during the remaining portion of the present year, as we believe that we and they will thus be by any other means we could together employ.

We propose to send the paper to any NEW SUBCRIBERS, from the time they send on their address and the amount of one year's subscription, up to December 31st 1873. By that means giving them the paper free for the remainder of 1872. Will our friends have the kindness to make this known to their neighbors and add a word of encouragement, and so give us their help in this endeavour.

THIS is a very practical age. The. ories of government, of commerce, and of Christian work, have to be carefully examined to ascertain whether they We have an interesting letter from of Jesus-away from the huge liquid have the quality of practicability in them, before they can be accepted as worthy to take the place of what may be less pretentious, and yet, perhaps, more adapted to the work required to be done by them.

At the meeting of the City Council before the election of the new Mayor and Aldermon, Mr. Martin Murphy, the engineer employed on the Lockman Street extension, was elected by ten votes out of thirteen, but a notice of reconsideration was given. He was informed of the vote, together with the notice of reconsideration. At a meeting subsequent to the election, on the reconsideration, the vote was carried, and Mr. E. H. There is more in this affair than appears on the surface. It has already called forth the animadversions of portions of the press, and will probably do so again for some time to come.

The City Engineer will be required to give his whole time to the City service, will receive a salary of \$2,000 per annum, and hold office until he is removed by a two-third vote of the Council.

lated by them. The errors of that version, received by them as truths, will be phototyped in their character and conduct. As a man believes in his heart, so is he. Faith is the root of affection and of action. Christian faith, the belief of what God has really revealed, always works by love. The holding of error as the word of God works evil, and only evil, and that continually. In the view of these simple truths and principles, it seems superfluous to resort to argumentation to convince a Christian of the greatness and majesty, the importance and necessity of the object contemplated by the Bible Union. In proportion as they are appreciated, sympathy will be awakened, the soul will be quickened; co-operation contribution, enrnest and constant supplication, and greatly enlarged usefulness will follow as naturally at the harvest springs from the seed; first the blade, and then the ear, and then the full grain in the ear.

ACADIA COLLEGE AGENCY.

Dear Brother,-

You will be pleased to learn that the good people of Queens County and that little corner of Shelburne to which I was sent on an agency for thit College, have proved their interest in the Institution by contributing-in eash and notes of hand-bearing interest,

payable annually, to the amount of three thousand seven hundred dollars,

(3,700.)Considerable now can yet be obtained in the county of Queens, as I was compelled to leave before completing the canvass of all the churches in the county. I hope to finish up the work there before the year closes.

If the other counties do, in proportion to their numbers and wealth, what Queens has done and will do, the College will live and be able to do noble

The Church of Christ is no mere human organization, nor is it a corporation formed for the purpose of securing some personal or worldly benefit. The wealth with which it is entrusted is from heaven, and it is at the peril of its members that they allow the gold to become dim. Their circulating medium is heavenly truth, and as they dispense it abroad they may hope for the increase of their true riches. It is by giving that they receive, and by scattering abroad they become enriched.

Additions of names may be made to their numbers, but unless such increase be of individuals who have the impress of the Master made upon them, they are but as the addition of counterfeit coin to coffers intended for genuine specie-an incumbrance depreciating the whole.

AN ENQUIRY --- What is a church to do when she calls a minister for a term, and he accepts the call, and removes his family. and is ready to commence his labors with them ; another man steps into the pulpit, and assumes the power of the church, appointing meetings without consulting the church, and calling on the women in and out of the church, and all his friends, to meet him, stating that all those who were not for him were peace-breakers, and had denied the truth, and were heretics, &c.? Will some lover of order and peace tell us what steps to take in this case? K. C.

We were hoping that the above case was so plain that the people and the writer had settled the matter without publication. It appears otherwise. We would say in reference thereto, it is for them to take appropriate action. If the facts are as represented, they should do justly by the " minister," and express their disapprobation of the acts of " another man."

WATERVILLE, AYLESFORD, Sept. 5, 1872. Dear Brother Selden.

> A CURIOSITY .- The Kentville Star says -"A few days ago we were shown by Mr. George Anderson a full grown apple and a full blown blossom on the same stem. They were picked from a tree in the orchard of Mr. Thomas Coffin at Lower Pero, Cornwallis, on the 13th ult."

He says : "I may add that most of our purchases were made before the prizes were awarded, and that our animals have taken about a dozen prizes.

"We had very great difficulty in making arrangements for convoyance of the animals. No company sailing steamers to Halifax or St. John would undertake to carry them on any terms. They have therefore to go all the way by rail to St. John. Mr. Chase of Cornwallis and Mr. William Beattie, who brought down a for-

Hon. E. Churchill and sons are grading for a railway to the three Plaster Mountains, viz. : Grahams, South and North Mountains. The plaster is to be shipped at the entrance of the Walton Harbor, where vessels of any tonnage can take in cargoes and proceed to sea in perfect eafety.

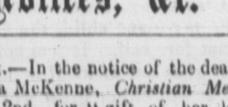

WOLFVILLE FRUIT EXHIBITION. --- The Annual Exhibition of the Fruit Growers' Association, of Nova Scotia, will take place on the 16th and 17th inst. Among the prizes Col. Laurie, who is anxious to encourage fruit growing in all the Counties of Nova Scotia, has offered a prize of \$10 for the best 8 doz. apples, 12 of each sort, grown in any county in the Province outside of Hants, Kings and Annapolis.

BOGUS GREENBANKS. - Counterfeit American Bills to a large amount have been put in circulation in this place. They are so well executed as to be very difficult of detection. We have already heard of several persons who have been seriously victimized by this bogus money, and it is to be feared that it has been operated on very extensively. We have been shown several hundred dollars of these Bills, all of which have the appearance of being much worn. The public cannot be too much on their guard against this fradulent money .- Yarmouth Herald. MARINE EXAMINATION .- At the Marine Board examinations held under the chairmanship of Cart. P. A. I fully believe the Baptists of these provinces will not allow the only College they possess to suffer or die for want of funds. I never knew, till now that it has so deep a hold on the hearts of our people. There is not a whole-hearted Baptist in these provinces but would make a sacrifice rather than see the doors of Acadia College closed against our young men who desire a Collegiate education

P. S .- Many thanks to those persons who took so deep an interest in my agency and aided me so much in my work in each of the different localities I visited. Names may be given at another time, perhaps. J. F. K.

THE RIGHT IDEA.-How readily one gets an idea of the manner of Christ's baptism when upon the spot where it occurred. A writer in a recent Presbyterian periodical aays: "As the sun was sinking beneath the horizon we came in sight of the the Baptist family."

A LATE telegram stated that Mr. Spurgeon was sick. It appears that while attending the Annual Meeting of the subscribers and friends of the Orphanage Home, he was suddenly taken ill, and had to retire. We do not apprehend that it was more than temporary illness.

ADMISSIONS FROM PEDOBAPTISTS. -It is not often that we get a more clear admission of the facts of Baptist history and the value of Baptist principles than is given in a late number of the N. Y. Independent. The editor 88Y8 :

"The piopeer championship of entire religious liberty we believe to be the indeleasible distinction of the Baptists. We are too often insensible of the debt we owe to the Baptists for this boon. The idea seems to have been the glorious heirloom of
