

Whether there is any necessity for this, as we regard its spoliation and change, and whether any compensating advantages are likely to accrue to education, may be discussed hereafter. We understand it is not intended to take any action on the measure during the present session. We commend the matter to the serious consideration of all concerned.

We are glad to learn from the Amherst Gazette that our brethren in Cumberland County are at work in the cause of Missions. The following is the notice:—

Missionary meeting, to be addressed by Rev. Messrs. Steele, Corey, and Miles, are appointed as follows:—Goose River, 9th inst.; Pugwash, 10th; Hillsboro', Wallace, 11th—at 7, p. m. Collection at each meeting.

Our brethren in Yarmouth County some time since had a series of similar meetings. Why not two or three neighbouring ministers in other places do the same? Home, Foreign, and French Missions might be taken up alternately. We doubt not that ministers and people would be blessed in the work.

One of our Canadian brethren's Associations appointed a Committee to devise a more eligible scheme for paying for and distributing the Minutes. The recommendation is that:—

Each church is asked to send three cents for every member they have upon the roll, and they will receive in return a copy of the minutes for every three members.

CONGREGATIONALIST.—We learn from the Congregational Record that three or four students from the College at Montreal are coming to these provinces to spend their vacation.

LABRADOR.—Mr. Zenas Crowell, one of the students of the Congregational College and McGill University, has been appointed to spend his vacation in Mission work at Esquimaux River, on the coast of the Labrador. This mission is now sustained by the ladies of Zion Church, Montreal.—lb.

A brief note from the Hon. Dr. Parker informs us that he had returned from the Continent of Europe—France and Italy. We are pleased to learn from him that the Rev. Mr. Coté, Baptist Minister in Rome will write an occasional letter for our columns if we send him the Christian Messenger, which of course we shall be most happy to do.

We regret to learn that Dr. P.'s eldest son who is suffering from a severe attack of illness is causing the family great anxiety. Although surrounded with much that we might suppose would absorb his attention, Dr. P. is not indifferent to matters affecting the welfare of his native province. He says, "I pray God that both Legislatures may take practical action on the all-important matter of an Inebriate Asylum."

We have heard a very general feeling of sympathy expressed for the doctor and his family in their affliction.

ST. PAUL'S CHURCH is to have a Chancel. Edw. Binney, Esq., has engaged to defray the expense of its construction. A correspondent of the Church Chronicle pronounces this "Ritualism Rampant" and predicts that "a raised altar, a surpliced choir and processions and the like," will follow.

"Information for Emigrants," an eight page sheet with a map of Europe and North America is published by the Government of Canada, and will doubtless be of much service to intending emigrants in Great Britain and other European countries. The information we believe to be perfectly reliable.

A letter received from Rev. A. R. R. Crawley in Burmah will appear in our next.

Notices, &c.

News of the Week.

DEAN BULLOCK completed the fiftieth year of his ministerial labors on Thursday last on which occasion a large assemblage of the St. Luke's parishioners attended at the Cathedral and presented him with an address of congratulation.

APPOINTMENTS.—Annapolis, Co.—To be a Coroner—Samuel Primrose, Esq. M. D. in place of Lawrence Phinney, deceased. Guysboro Co.—To be a Coroner—Alfred W. Hart.

The H. Y. M. C. Association were last evening to enjoy a novel entertainment—a sociable with experimental lectures interspersed with vocal and instrumental music. As we go to press too early to give any report of the affair we can only say that from the programme we presume it was an occasion of no ordinary interest.

KEEP THEM MOVING.—Two young men were each fined \$4 in the Police Court on Saturday last, for loitering on the street and refusing to leave when ordered.

SOME LUMBER.—A correspondent of the Truro Sun, writing from Stewiacke, reports that eleven million feet of logs have been put into one of the "Sheet Harbor" streams, and about 3,000,000 feet in the Musquodoboit River.

At a meeting of the shareholders of the Truro Hat Manufacturing Company, held at Truro on Thursday, the following Board of Directors were appointed: President, R. Upham, Truro, P. B. Curtin, Truro; and Robert Taylor, Halifax. Mr. Silas Eaton of Truro, was chosen Secretary and Treasurer.

At a meeting of the farmers of Stewiacke, held a few days ago, it was decided to establish a Cheese Factory at that place.

FATAL ACCIDENT.—The Cape Breton News reports that a man named Norman Melvor, one of the employes of the Victoria Coal Co., at Low Point, was accidentally killed at that place on Tuesday 26th inst., by the falling of a portion of the pit roofing.

HIGH RECOMMENDATION.—The testimonials of parties who have given the North British Company's NUTRITIOUS CONDIMENT a fair trial, and which appear in the advertisement on another page of this paper.

SUICIDE AT WALLACE BAY.—A melancholy account reaches us of the self-destruction, on Sunday last, of George W. Ross, a lad of 16, living with John Peers, Esq., Wallace Bay.

He had been watering and feeding the cattle, and not returning to the house, search was made, when he was found, about six o'clock, p. m., suspended in the barn. Life was not quite extinct, and Dr. Creed, who happened to be in the vicinity, was called in, but too late to be of service.

It seems that the unfortunate boy was most persistent in accomplishing his purpose. Marks about the well and the fact that his clothing was wet indicated that he had tried drowning; and it was also found that another effort had been unsuccessful from the breaking of the rope, after which one was taken from a horse in the stable.

He was a son of Widow Ross, of Victoria Settlement, but had lived with Mr. Peers for eight years. He was of steady habits and apparently contented, and no reason is assigned for the act.—Amherst Gazette.

NEW BRUNSWICK.

Reports from St. Stephens say that the small-pox is rapidly spreading in that town and vicinity. The authorities are using vigorous measures, and it is hoped it may be confined within its present limits. St. John, Fredericton, and Woodstock, and other places having communications with St. Stephen, cannot be too vigilant.

Chief Justice Ritchie was bitten by a dog on Saturday. The dog cut a deep gash in the Judge's cheek.—Intelligencer.

PERSHED IN A SNOW STORM.—An insane woman named Diana Condran, 50 years old, wandered from her home at Belvedere, Gloucester County, during a snowstorm recently, and perished. Her body was found the next day.

P. E. ISLAND.

The Charlottetown "Islander" of the 29th ult., says: "On Sunday last we had a regular Northeast snow storm, accompanied with high winds. The streets and roads, had enough before, were drifted up in all directions on Monday, and travelling was almost entirely suspended until Tuesday morning. Since then the weather has turned quite mild, and we have now every indication of spring. The snow is fast disappearing, and the streets and roads are in a fearful mess. The ice in the Bays is beginning to break up, but in the harbors it is quite firm."

The general election on Thursday resulted in the return of nineteen Opposition members and eleven supporters of the Government.

Butler urged an amendment providing that this should be made the subject of negotiation at Geneva Conference. Disraeli addressed an immense Conservative meeting in Manchester on Wednesday evening, at which he earnestly defended the Monarchy. To the Throne, he said, must be ascribed the blessings which Englishmen enjoy. The Sovereign does exercise a real influence. The Monarchy is an institution around which, in peril and adversity, the people could rally. The English Monarchy costs less than that of any other nation. The expenses of the Sovereign Powers of the United States, which embraces the Congress and the State Legislatures as well as the Executive cost between seven and eight hundred thousand pounds sterling, double the total of the English Civil List; and he closed with a vindication of the Aristocracy, and defended the House of Lords as an essential element of the Government.

The rate of discount in the Bank of England has advanced 1 1/2 per cent; it is now 3 1/2.
