Subject : A continuation of Scotland some of its chief citi s and historic places. Chair to be taken at eight o'clock.

OUR HARB R has had ice over a large part of its suiface several days of the past week. The evaporation that has been going on during the severe co d of the previous part of the winter, together with the snow that has fallen on the surface, has brought the water nearly down to the freezing point, so that a cold night or two now makes considerable of ice. Several men and boys were out on the ice on Sanday, as far as a vessel ying in the stream, and nearly to George's Island. Quite a number have crossed from Richmond A wide path for the two Dartmouth steamers was kept open, so that the regular trips have been un e without interruption Yesterday morning all the ice below the track made by the Dartmouth steamers, was carried out to sea, by a northerly

bro ze, I av ng the ice firm above albacross. THE COAL TRADE - The following is a statement of the Coal Trade of Nova Scotia for 1872 compared with 1871:

Coal sold in 1872, round 716.329 tons 91ack 69.585 " Consumed at the colleries..... 95,036

Increase in 1872 207,708 ions. The sales in 1872 exceeded those of 187t by

No doubt the increase in 1873 will be very much greater, coal being now in Great Britain upwards of 40 shillings per ton! At this rate there will be but the least possible quantities shipped to American markets, and steamers will use our coal whenever they can procure it. A recent despatch puts the price of English coal at 53 shillings a ton! This is from four to five times the old rate. - Witness

THE SERVICE OF SONG.

This work, it is claimed, contains the best, the sweetest, most elevated Scriptural Collection of HYMNS extant, It has the best and every way most available MUSIC for CONGREGATIONAL SINGING, the adaptation of the Hymns and Music is the most perfect, the whole arrangement is the most thoroughly systematic; the numbering of the HYMNS of the different editions (unlike other similar works,) ALL COR-RESPOND; the several Indexes are the fullest and most complete; the size and weight of the book the most convenient for use; the type the neutest and most distinct. All these excellencies, combined, with the superior paper and binding, make it in every respect, the most perfect and attractive book for public worship in the market; while the PRICE is lower than most, and is as low as the lowest.

It has been in reduced into a large number of our best churches in different parts of the country, and has received the most unqualified commendation of the press, of musical men, of ministers and churches, etc. With no effort to detract from other recent works, by attempting to point out their defects, the Publishers simply desire, and would respectfully urge, a thorough, eandid examination of the "Service of Song," conadent that such an examination cannot full to convince every fair unprejudiced mind, of its superior merits.
