IMPORTANT FACT !!!

THE CHRISTIAN MESSENGER.

(From the London " Field " dated 15th July, 186 .)

"At the last meeting held in London uy the delegat s from the different Commers of Agriculture, throughout the Kingdom, it was shown by the Statistics of each Coanty, that in the Counties where the North British Cattle Food Co's food had been used no fatal cases of plague had occurred ; on the other hand where this food had not been used the Castle mostly succumbed to the disease."

WE all know that prevention is better than cure. The Nutritions Condiment was the preventative. The Ca the using it were in better health and more at le to s and the rava at all Bo king Stations and also at ges of disease, when contracted, and also by its use they were less liable to be afflicted with the disease.

VETERINARY SURGEONS APPROVE OF ITS USE.

Veterinary Surgeons, together with Physicians, Professors of Chemistry and men of science testify to the use of the Condiment both for its fattening and hea thgiving properties.

Dear Sir - I have much pleasu e in testity ing to the many excellent qualities of the Nutritous Condin.ent for which you are agent. I have given it a fair trial, and find it very good for all kinds of cattle and borses You re at perf et liber; y to us my name in strongly recommending it as one of the most beneficial things of the kind ever introduced into JOHN NORTHUP.
