

SNOW FENCES are being erected at exposed points on the Railway between Pictou and Truro. The object is to prevent snow drifts in the deep or long cuts. One erected at the deep cutting above New Glasgow is at least 15 to 20 feet high.

**RELIEF OF POOR.**—The annual meeting of the Association for relieving the condition of the Poor was held on Thursday last. The annual report showed that the stone breaking service had been self-sustaining. During the year 4231 loads of stone had been purchased, and these when broken produced 47,819 bushels. For the work of breaking the poor people employed by the Association were paid three cents per bushel. The average earnings of the men were nearly sixty cents per day. The following gentlemen were chosen office bearers for the ensuing year:—President, John Doull, Esq.; Vice do, John Stairs, Esq.; Treasurer, W. S. Sterling, Esq.; Secretary, Charles Fletcher, Esq.

**THE ALDINE,**  
An Illustrated Monthly Journal,  
universally admitted to be the  
Handsomest Periodical  
in the World, & Re-  
presentative and  
Champion of  
American  
Taste.

Not for Sale in Book or News Stores.

THE ALDINE, while issued with the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light and graceful literature; and a collection of pictures the rarest specimens of artistic skill in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be more appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost; and then, there are the chromes, besides!

**ART DEPARTMENT, 1874.**

The illustrations of THE ALDINE have won a world-wide reputation, and in the art centres of Europe it is an admitted fact that its woodcuts are examples of the highest perfection ever attained. The common prejudice in favor of "steel plates," is rapidly yielding to a more educated and discriminating taste which recognizes the advantages of superior artistic quality with greater facility of production. The wood-cuts of THE ALDINE possess all the delicacy and elaborate finish of the most costly steel plate, while they afford a better rendering of the artist's original.

To fully realize the wonderful work which THE ALDINE is doing for the cause of art culture in America, it is only necessary to consider the cost to the publisher of any one of these representations of the productions of great masters.

In addition to designs by the members of the National Academy, and other noted American artists, THE ALDINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic and greatest general interest. Thus the subscriber to THE ALDINE will, at a trifling cost, enjoy in his own home the pleasures and refining influences of true art.

The quarterly tinted plates for 1874 will be by Thos. Moran and J. D. Woodward. The Christmas issue for 1874 will contain special designs appropriate to the season, by our best artists, and will surpass in attractions any of its predecessors.

**Premium for 1874.**

Every subscriber to THE ALDINE for the year 1874 will receive a pair chromos. The original pictures were painted in oil for the publishers of THE ALDINE, by Thomas Moran, whose great Colorado picture was purchased by Congress for ten thousand dollars. The subjects were chosen to represent "The East" and "The West." One is a view in the White Mountains, New Hampshire; the other gives The Cliffs of Green River, Wyoming Territory. The difference in the nature of the scenes themselves is a pleasing contrast, and affords a good display of the artist's scope and coloring.

The chromos are each worked from thirty distinct plates, and are in size (12 x 16) and appearance exact fac-similes of the originals. The presentation of a worthy example of America's greatest landscape painter to the subscribers of THE ALDINE was a bold but peculiarly happy idea, and its successful realization is attested by the full wing testimonial, over the signature of Mr. Moran himself.

NEWARK, N. J., Sept. 25th, 1873.  
Messrs. JAMES SUTTON & Co.  
Gentlemen.—I am delighted with the proof in color of your chromos. They are wonderfully successful representations by mechanical process of the original paintings.

Very respectfully,  
THOS. MORAN.  
(Signed.)

These chromos are in every sense American. They are by an original American process, with material of American manufacture, from designs of American scenery by an American painter, and presented to subscribers to the first successful American Art Journal. If no better because of all this, they will certainly possess an interest no foreign production can inspire, and neither are they any the worse if by reason of peculiar facilities of production they cost the publishers only a trifle, while equal in every respect to other chromos that are sold singly for double the subscription price of THE ALDINE. Persons of taste will prize these pictures for themselves—not for the price they did or did not cost, and will appreciate the enterprise that renders their distribution possible.

If any subscriber should indicate a preference for a figure subject, the publishers will send "Thoughts of Home," a new and beautiful chromo 14 x 20 inches, representing a little Italian exile whose speaking eyes betray the longings of his heart.

**TERMS.**

\$5 per annum, in advance, with Oil Chromos free.

For 50 CENTS EXTRA, the Chromos will be sent, mounted, varnished, and prepaid by mail.

THE ALDINE will, hereafter, be obtainable only by subscription. There will be no reduced or club rate; cash orders direct, or handed to the local canvasser, without responsibility to the publishers, except in cases where the certificate is given, bearing the facsimile signature of JAMES SUTTON & Co.

**Horses and Cattle.**

The best and most economical Food for Horses and Cattle in existence.

It will coax the most impaired appetite.

It renders coarse provender rich and palatable.

Its regular use is beneficial and not injurious, as is the case with worthless preparations palmed off on the public at high prices, and designated Cattle Spices, &c.

By using it, a saving of twenty per cent. is effected in the cost of feed, and the animals are in better condition.

"I DO hereby certify to the beneficial effects of the Nutritious Condiment in my stables."

HASTINGS DOYLE,  
Lieut. General.
