### WEEK OF PRAYER OFFERING.

Dear Brother Selden,-

Thankful to the "Author of all good," for the blessings of the past year, I would humbly present the first week's earnings of the New Year 1873-or a 52nd part of annual income, so far as can be ascertained,

100 Meeting House in Rome. 4.00 Home Mission. 1.00 Temp. Tracts for distribution.

1.60 Cheapest Bibles. 1 00 Grand Division Agency.

Have appropriated the above independent of ordinary subscriptions of the year.

Could not our christian people, who profess so much love for Jesus and interest in H s cause at our social prayer meetings do more than many of them do to prove their words true. God loves the cheerful giver and desires to accept the offerings of His people when presented in faith.

Many of our rich farmers, mercharts and others, are surely not doing what il ey might. Gain! gain!-gold! gold!-fine farms-rich apparel-dress-fine appearance pleasure-and all worldly wants supplied as fast as possible, but in too many instances the language is: "I wish the cause well, would like to give, but other pressing claims prevent," and the dear Saviour and the urgent claims of His cause are allowed to pass by unattended to .-Such no-souled christians mourn over the waste places of Zion, and are puzzled to know why the cause in their midst don't prosper.

Brother, prove God. With your wholesouled prayers, well mingled with freeofferings, of at least a small portion of your worldly possessions, and see if God will not open heaven's windows, and open your hearts as well, to enjoy much of his divine

> Yours &c. WEEK OF PRAYER OFFERING.

The Obituary Notice of Spinney Whitman, E-q., which appeared two weeks since being from a member of the family, we did not insert the following last week, but as we have received a second request from Bro. B. we readily do so :-

THE LATE SPINNEY WHITMAN, Esq .-- I have known him from my childhood, his word was always considered as good as a bond, his morals were unimpeachable. Hissentiments were from my earliest recollection strictly Baptist, and nothing e'se. I saw him when he was buried with Christ in Baptism. For the most of his life he robbed himself of harpiness by thinking himself unworthy of being a christian, but for the past four years it has been my priveledge to be his pastor, and observed that he gradually came to look less at himself and more to the finished work of Christ In his death the church in Canso has lost another of its strong st pillars. Thus the faithful fail from among the children of A. W. Bass. Moncton, N. B., Jan. 8, 1873.

held its annual session at Ottawa last week. The first subject brought forward for consideration was the Tariff. But little change was suggested. Thursday was occupied in considering what should be done in the way of canal and harbor improvements. On Friday matters of importance were before the Board as the following telegram to the Chronicle will indicate: A resolution was carried setting forth that in the opinion of the Board a change should at once be made in the registration of vessels navigating the waters of the Dominion, having our Act framed on the basis of the laws of the United States and Imperial Shipping Act, with such modifications as may be necessary.

It was also resolved that the crimping system, as it now exists in Canada, is a scandal and disgrace to the whole Dominion, and that the Government should be memorial zed and take stringent measures

for its suppression. A resolution in favor of continuing the present insolvency Act was carried; also,. that an Admiralty Court is needed at Montreal; also, that the Government be petitioned to repeal the Bill and Note Stamp duty; also, for a Government enquiry, with a view to bringing about a uniformity

in conditions of insurance policies. A resolution to compel mercantile agencies to give security to the Government. was withdrawn.

A discursion took place on the subject of general collection tax, during which it was stated that the fish trade was abolished through its bad quality, and the price had

fallen from four to three dollars. As to butter it was so bad that the loss was calculated at a million dollars a year, Canada butter in England being now sold only as grease. Finally the subject was referred to Local Boards to report upon to

the Secretary. The Board determined that Government be again petitioned in favor of Postal delivery in cities and towns without additional
