A SUGGESTION -The Colonest suggests that " Some of our Fish Merchants might with advantage enter into the manufacture of " Dessicated fish " which is now largely produced at Gloucester, and is becoming quite an article of commerce, as it is more easily handled and more suited to household wants than the traditional dried cod. There is no place in America so well adapted for the carrying on of this branch of industry, and we hope soon to hear of its being actively prosecuted."

STEAMERS AT HALIFAX - There were seventeen Ocean Steamers lying in our harbor on Monday morning.

P. E. ISLAND.—The elections for the Legislative Council took place on Thursday last, and resulted in the return of Messis R. B. Reid and Alexander Laird, for Prince County; Mr. Bulger for King's, and Mr. Munn for Queen's County.

AT YARMOUTH last week Mr Burwell McDormand was duck-shooting. While standing with the muzzle of the gun under his left armpit, the weapon exploded, the charge of h t-entering the head bon of the arm, and lodging in the shoulder. There is a prospect of his recovery.

A distressing affair happened near the county line between Yarmouth and Shelburne on Saturday night, 24th ult. Edw. Crowell, of Kempt, shot an Indian named Germany, belonging to Queen's County, mistaking him for a moose. The Government surveyors, who were running out the county line, had requested Crowell to procare a moose if possible, as they were short of provisions.

HANTS COUNTY .- Under directions of the Local Legislature the survey of a branch line of railway-some thirty miles -from Elmsdale to Noel, was brought to conclusion on Saturday.

THE NICTAUX AND ATLANTIC RAILROAD -We are informed by one concerned that with the aid of a subsidy like that given to the Yarmouth road-\$6,000 per mile, the prospect is excellent. It would be the best road in the province as a feeder to the Wind or and Annapolis, and would do much towards making that a paying concern. Why should not Queens County have a railroad?

EVERY reader of the Christian Messenger will receive free a copy of the best Agricultural and family Newspaper in this Country by addressing Moore's Rural New Yorker, 78 Duane Street, New York.

DARTHOUTH .- The Town Council have begun to move in the matter of street lamps. At a meeting on Friday last notice was given of a motion to devote the unexpended portion of money devoted to street purposes for the procuring of oil lamps for the principal streets. This matter is to come up at the next meeting of Council.

CAPE BRETON .- James Forest, of Point Aconi, committed suicide on the 23rd inst., by shooting himself in the breast while laboring under a fit of temporary insanity.

OUR SHIPPING -THE NEW SHIP " W. D. LAWRENCE" it appears stands fifth on the list of big sailing vessels Those above her are the "Adriatic," of Liverpool, G. B., 3.389 tons; "Three Brothers," of Sin Francisco, 2 972 tons; "Parana," of London. 2,730 tons ; " Baltic," of New York. 2 552 tons; and the "Donald McKay," of Liverpool, G. B., 2.500.

NATURE'S DIADEM .- Is your hair falling out? Is your hair growing dry and lifeless? Is your hair less pliable and glossy than of yore? It wants a good healthful hair dressing to help exhausted nature to

NARROW ESCAPE .- On Thursday last, as NEW ADVERTISEMENTS. William McDean and Joseph Vance, of Londonderry, were returning in an open boat from Maitland, the boat owing to want of ballast, was caps zed. They succeeded in clinging to the rail for half an hour, when they were rescued by Mr. Stewart, ferry-

The Colonist intimates "That Nova Scotia is par excellence the ship, building province of the Dominion, and, indeed, of America, has been abundantly proved the past week, by the large number of launches all over the Province east and west. Day after day the blue bosom of the Atlantic particularly from some of our most respectports, and the turbid waters of the Basin | able and trustworthy families. of Minas have been cleft by the keels of noble ships. It reads like the descriptions of the Clyde shipyards during the building and hastily built steamers, whose sole qualities were a fleet pair of heels.

Though Yarmouth Sherbrooke, Cornwallis, and even Halifax, have contributed to the quota, yet, Maitland and vicinity, have now the leading shipyards, and the long list of ships, barques and smaller is quite bewildering."

To the Electors of Queens County.

GENTLEMEN, -There is none of the public works in the Province that add so much to the comfort and convenience of a majority of the people, as Good Roads, and yet none receive so little attention from the powers

The Government give the members of the House the whole control of the Road Service. road making. It is very natural that we should do so, because the most of people know that the roads are rough but they donot know the cause.

I have given the subject a careful study from my earliest youth, and have no doubt but that I could make myself quite useful in that line if I had a seat in the House of Assembly. Therefore if you will elect meat the next general election, I will promise to have all the roads in the County put in good order, and some others repaired, that are not in the county, but very useful to people in the county, such for instance, as the road from Caledonia to Bridgewaterfrom Bridgewater to Liverpool, and from Liverpool to Annapolis.

Last winter our eldest son had a sore throat that commenced about five o'clock, and at six blisters were plainly seen, and he could hardly swallow. I commenced doctoring according to your directions. At seven, the blisters were gone. He said his throat was not sore; still I left the tannel of Liniment on his throat until meraing, when his throat looked and fet as well as ever. He had no more sore throat all winter. I would not be without it in the house under any consideration, if I could possible help it; and, sirs, I believe your medicines are the best ever sold
