A short time since a Juvenile Missionary Society was organized in our Sabbath School, many of the scholars became members. On the evening of the 13th, a missionary Concert was given under the special direction of Mr. J. P. Nowlan, the Superintendent of the School. Addresses were given by the Pastor and others. Readings, Recitations and Singing by the Teachers and Scholars, all of which made a pleasant and profitable evening. At the close a collection was taken amounting to four dollars, which was by resolution of the Society given to the Woman's Missionary Aid Society to be appropriated by them in any way they may think best. This sum I now take pleasure in forwarding.

News of the Week.

THE PROVINCIAL AGRICUATURAL EXHIBI-TION is now in full operation. As we had to go to press before the ceremonials of opening had been completed, we must defer any thing further than a brief reference to the preparations. These were going on in full force on Monday and yesterday morning and would not be completed till to-day. The fruit-growers were busy unpacking their splendid specimens, and the members of committee doing their best to help and direct exhibitors. The visitors to-day and to morrow will have a better chance of seeing the whole than the 50 cent people of yesterday.

The large room of the Drill Shed is appropriated to fruit and vegetables arranged on four or five wide tables running the full length. A smaller room beyond has woolen goods-rugs, carpets, cloth, &c., &c. In the further room are Agricultural implements and harness. In the yard is the Poultry, conveniently arranged to be seen. In the General's Field and the Governor's Field are the oxen, cows, and horses.

The Recorder is responsible for the following : - A few days since, while the 66th Battation was performing its annual firing at Sackville Range, Bedford, a lady was sitting on a grassy bank near by looking at them, and holding a small parasol or sunshade over her head. Suddenly an eagle or large hawk, doubtless fancying the parasol to be edible, swooped down, seized the parachute, and soared off with it. The bird soon discovered that its prize was not suitable for food, and dropped it. It fell only a few hundred yards from where its owner was sitting, and was recovered, but the bird's claws had irreparably torn it. The eagle's performance was witnessed by many persons in the vicinity.

LIEBIG'S LIQUID EXTRACT OF BEEF.

Besides the Condensed Beef prepared from the best parts of the animal, the preparation contains Quinine, Peruvian Bark, and numerous herbs and roots grown for their tonic and health-giving properties.

THIS IS THE ONLY CONDENSED BEEF THAT DOES NOT REQUIRE COOKING OR WARMING. It was especially manufactured under the direction of BARON VON LIEBIG, before the late FRANCO-PRUS-SIAN WAR, for the German soldiers. Its tonic qualities are much greater than those found in any ordinary Specific or Appetiser, and its nutritive properties are sufficient to sustain the body without the addition of solid lood. It is now recommended by the Faculty in preference to anything else as the best
