PARTIAL DEAFNESS.—Medford, N. S., July 16, 1873.—MESSRS. T. GRAHAM & SON.—I had long been troubled with partial deafness, from having taken cold in my head, causing complete deafness in one ear, there seemed to be a constant sound or noise in my head until I used GRAHAM'S PAIN ERADICATOR, three applications of which cured me, and I have not been troubled since using the medicine, over nine years ago.

CHARLES R. WERNER.

S. E. Burwell, of Fingall, Ont., writes:—LAST AUTUMN I was suffering from a severe cold which settled on my Lungs and produced a distressing cough for which I gave trial to a number of cough Medicines but without any benefit. I at last tried one bottle of Allen's Lung Balsam, which I am happy to be able to state gave almost immediate relief and performed a perfect cure in a short time.

Hundreds Cured daily in N. S.,

DIAMOND RHEUMATIC CURE.

Effectually curing hundreds of our Nova Scotia citizens from that terrible malady, RHEUMATISM.

This statement is substantially a fact based upon evidence in the possession of the agent, in the shape of numerous testimonials from past sufferers, in all the walks of life, and particularly from some of our most respectable and trustworthy families.

DIAMOND RHEUMATIC CURE.

In its history, this invaluable Medicine occupies the most honorable position possible for any remedy to attain. A few years since it was known only to the friends and neighbors and patients of the proprietors, and always sought for by them whenever troubled with rheumatism, and in this way came to the notice of physicians generally, and through their favorable expression, and its acknowledged value as a Rheumatic Remedy, the demand for it became so frequent and urgent as to oblige its proprietors to increase their facilities for its manufacture. Its reputation rapidly extended, and soon orders, letters of enquiry, letters of thanks, and certificates of praise were daily received from all sections of the United States and Canada; and in this way on a basis of its merit alone—unaided by "tricks of the trade" or special efforts—it has risen to its present enviable position.

Wherever introduced it has received the most flattering preference in the treatment of a rheumatic complaint. In this we are really grateful and happy, not alone because our medicine finds ready sale, and is consequently profitable to us, do we say this but because we open a new field in medical science, and enter at once what the best medical practitioners have for ages found so difficult even to relieve. We fill a place heretofore unoccupied. We relieve the suffering and minister to God's will; we restore a laboring man to the use of his injured limbs, and save him scores of times its cost in doctor's bills; we carry contentment and gladness into the home of the afflicted, and consequently are remembered by millions of grateful souls.

The proprietor of this medicine has walked the aisles of the hospitals of London, Eng., for the past twenty years, making rheumatism a specialty, and the prescription from which this remedy is compounded is all he ever used in the treatment of this disease.

This medicine is for sale at all the druggists throughout Canada. If it happens that your druggist has not got it in stock, ask him him to send for it to

THIS is a work which should be found in every institution of learning and in every library public and private. All professed Students of history cannot but be deeply interested in this wonderful Chart; and not only they, but all persons who have experienced the tediousness attending the effort to eliminate the great salient facts of general history from the voluminous network of subordinate facts, and details with which they seem inevitably entangled.

No one can glance at Mr. Adams' Chart without realizing that a copy of it would be of very great value in every household. Parents, this is just the work your children should have as they can learn as much in one month as by studying books for a year. Young men don't fail to secure one of these invaluable helps to the study of history. No young man should be without it; that part of it given to sacred history will furnish you with unanswerable arguments against Infidels and Sceptics; in short this is a work for every body.
