Falmouth, April 22nd, 1871. DR. GATES-This is to certify, that in the year 1868. I was suffering from heart disease, and hearing from some in our land that were restored to good health by taking your medicine, I was advised to try it. You came to see me, like a drowning man ready to grasp at any chance to save my life. I tried your Syrup and Bitters, and you told me not to work. I received strength from taking them. I went to work, but have always thought if I had done as you told me to do, I might have been well. The Lord knows. I have taken some since then, and am still alive, thank God, and somewhat better. I did not give your valuable medicine a fair chance. I thought it my duty to write and let you know. At the time you told me my daughter had liver complaint, and other symptoms, that might, if not attended to, turn to consumption. You left some medicine for her, and in a short time she was well, and has been ever since, with the exception of slight cold. Last winter I believe the Lord sent you fax Post Office daily (Sundays excepted) at to my house. My son was almost blind in one 4 45 p. m.; and will be due for delivery on of his eyes; my wife and I were in great Tuesday, Wednesday, Thursday, Friday and trouble, being afraid he would lose it. We were about taking him to Halifax. He could not open his eyes. There was white skin over it. You looked at it, and gave me a bottle of your Eye Relief In less than a week it was as well as the other. Having some little of the Eye Relief left, one of my neighbor's daughter's eyes was in a state of blindness; I gave him the balance; it worked like a charm; and only twenty five cents per bottle. Now, sir, having confidence in you as a good principled man, and your medicine as nature's own remedy, and feeling for the afflicted, I send you this, which, if you see fit to publish, do so.
