There was a snow storm at New York and Boston on Saturday last.

LATEST FROM EUROPE.

ENGLAND.—The grand review at Windsor on the 31st ul., was witnessed by an immense crowd. In presence of the entire force, the Queen, assisted by the Princess of Wales and the Duchess of Edinburgh, made Sir Garnet Wolsely Knight Commander of the Order of the Bath, and conferred on Lord Gilford the Victoria Cross. The ceremony was most impressive and the troops repeatedly cheered the Queen, members of the Royal Family, and Sir Garnet Wolsely.

In the House of Lords the Duke of Richmond, and in the House of Commons. Mr. Disraeli, moved a vote of thanks to Wolseley and officers of the expedition, supplimenting the motion with a laudatory speech. The vote was unanimously adopted with cheers.

The Lord Mayor of London gave a banquet at the Mansion House in honor of General Wolsely. The Prince of Wales, Prince Arthur, Duke of Cambridge, Viscount Carewell, and Gathorne Hardy were present. Gen Wolseley, in response to a toast, gave an interesting account of the Ashantee expedition, and declared that King Koffee had for a long time premeditated war. The general was received with the greatest enthusiasm, and his speech was frequently interrupted with cheers.

The *Times* acknowledges the existence of a financial panic in London and attributes it to causes similar to those with which New York and Vienna have been visited, combined with the depressing influences of the Indian famine. It says the check to trade will probably be as severe as any former instance.

Commissioner Glover, of the Ashantee expedition, arrived on Saturday at Liverpool, and was received with great rejoicing.

Advices from Cape Coast Castle to March 12, report that an embassy numbering with its escort 250 persons, had arrived there from the Ashantee King. It was reported that they refused to discontinue human sacrifices, and disputed the amount of the indemnity.

Professor Goldwin Smith has a letter in the "News" on Home Rule. He advocates giving to Ireland legislative powers for the administration of local affairs, similiar to those of Legislatures of American States.

FRANCE.—The French steamship "Nile" was lost on her voyage from Hong Kong to Yokohama, and 80 passengers drowned. Among them were the Japanese Commissioners to the Vienna Exhibition.

Gen. Chanzeq is authorized to declare Algeria in a state of siege, in order to restrain the violent abuse of the Radical journals.

SPAIN.—The Carlists here have information that a revolt has broken out in Bilboa, and that only one half their army has been engaged in the recent battles,—but that Gen. Soukes will shortly march with a strong division on Madrid and cut off Marshal Serrano' communication.

An official despatch states that 410 officers and men have deserted from Gen. Soukes' command, and have gone into the Republican lines.

Despatches from Spain reported on Thursday last the situation before Bilboa unchanged.

A three days armistice had been agreed upon for the burial of the dead.

Republican reinforcement were being hurried forward.

Santandar is crowded with the wounded. The Carlist besieging forces partially suspended the bombardment of Bilboa, in order to turn their guns against Serrano's army.

The Republicans attacked, but made no impression on the Carlists lines, meeting repulse at every point. Their loss is estimated at 4000 killed and wounded, while that of the Carlists did not exceed 1000.

The Carlists assert that the movement of Serrano against the Royalists before Bilboa entirely failed, and there was no fighting between the 28th and 30th of March.

INDIA.—The Lieut. Governor of the Presidency of Bengal on Saturday last telegraphed to Lord Northbrook, Governor General of India, the weekly report showing the condition of the people in the famine district. The report shows that the condition is improving; that good crops are coming forward with rapidity everywhere, except in the northeastern part of the district of Tirhoot, where half a million of people are still dependant upon the Government for their daily food.

Incendiary fires are becoming alarmingly frequent in the Gwalior District of India. Two large villages have been entirely destroyed.

Reports from the districts affected by the famine show great improvement in the situation. There are now no actual cases of starvation outside Tirhoot, and in the district but few.

PRUSSIA.—The Roman Catholic Archbishop of Cologne has been arrested for violating the ecclesiastical laws of Prussia.

CUBA.—A Havana letter says the new Captain General, Concha, when he arrives, will propose a formal Treaty of Peace. The basis of the Treaty will include a pledge that the Island will remain united to the Crown of Spain; the people shall elect representatives to the Cortes; slaves shall only be interferred with by consent of the owners, and in case emancipation should be decided, the owners of slaves are to be indemnified.

A severe drought reported from many parts of Cuba.

An Havana letter of the 25th states that incendiary fires are making great havoc among the sugar plantations over the whole island.

Havana advices represent the recent engagement near Puerto Principe as the severest during the insurrection, and insurgents are believed to have gained the advantage, though both sides claim victory. Spaniards had 30,000 men engaged, and are reported to have lost 40 officers in killed and wounded alone. The Machete used by Cuba proved very destructive.

The insurgent leader Mocco with 800 men has burned Manibou, and is now threatening the valleys of Gantanao and sugar estates in the neighborhood.

JAPAN.—A despatch from Yokahama, says the third annual exhibition of the performance of the ceremony of Kowtow began to-day, within the walls of the palace of the Mikado. An enormous assemblage was present.

At Wolfville, on the 18th of March, in the 80th year of his age, Mr. William Fitch. Bro. Fitch was baptized by the late venerable T. S. Harding, in the year 1830. Sixteen years previously, however, he had obtained a hope in Christ. He was always consistent and devout; he loved the preaching of the Word, and the assemblies of God's people. His hearing was greatly impaired, from physical causes, so that he was debarred during his later years, from much of the enjoyment of Christian society; still he always maintained a cheerful hope. He was greatly encouraged, by the Revival of God's work in this place. Just before his departure, four of his grandchildren professed faith in Christ. On the Lord's day after his funeral, another gave the same precious testimony. The generation of the upright shall be blessed.—*Com.*

At Kentville, on the 3rd inst., Mr. John Davidson, aged 39 years.

THE

North British Cattle Food Company's

NUTRITIOUS CONDIMENT

FOR

Horses and Cattle.

All the principal prize cattle at the Royal Agricultural Shows, held at the Agricultural Hall, Islington, London, 'Xmas, '68, '69 '70, and '71, were fed on the North British Cattle Food Co.'s Nutritious Condiment.

THE NUTRITIOUS CONDIMENT has been used by the leading breeders, proprietors of racing establishments, and feeders of cattle and horses in England and Scotland for ten years, with great success. The largest contractors, omnibus proprietors, horse car companies, and owners of horses in the principal cities of Europe, also feed with it. The success attending its introduction in Canada was greatly in excess of the most sanguine anticipations of the Company, inasmuch as the large cargo consigned to Montreal in October '72 which was considered to be sufficient to last one year, was exhausted in three months.

Six hundred of the leading Veterinary Surgeons, Horse Owners, Contractors Farmers, Express Companies and Lumber Dealers of Canada testify to its utility as an economical, health giving food, for Horses and Cattle.

A Condiment is generally considered to be a seasoner of feed. The Nutritious Condiment is, however, a great deal more than a seasoner. Although it will season and render palatable any description of coarse provender, such as chaff chopped hay, &c., it is in itself a rich nutritious food. This will be seen by the system of feeding, which, if adhered to, will effect a saving of twenty per cent. in the cost of feeding, and the animals will be in a great deal better condition than when fed upon the old system.

The directions show that where the Condiment is used, one fourth of the oats used at each time of feeding are deducted, and the bulk is made up with chaff or chopped hay. One-fourth of a feed of oats costs more than four times as much as a measureful of this Condiment, (quantity, one gill costs one cent.) Then the cost of the chaff or chopped hay to make up the bulk is very trifling. Therefore it will be seen the "Nutritious Condiment besides possessing numerous advantages in point of health, is a cheaper method of feeding than the old system of plain oats.

The Condiment may be had at the Depot, 83 Lower Water Street, Halifax, and of Sub-Agents throughout the Province.

Put up in strong Cotton Bags, 100 lbs., $8.00; 50 lbs., $4.25; 25 lbs., $2.50; and 10 lbs., $1.25. There is a Tin Measure, with full directions, in each Bag.

TOOTH ACHE,
NEURALGIA,
SPRAINS, &c.

Manufactured by Mrs. Ainsley, Halifax.

Lunenburg, August 20th, 1873.

MRS. AINSLEY, DEAR MADAM,—

Having found the efficacy of your very invaluable Liniment in the case of sore throat, which by two applications I was entirely relieved both of the swelling and soarness, I was induced to apply it to the parts affected by a severe attack of Lumbago. After having my back, loin and thigh thoroughly rubbed with the mixture, I was enabled to sleep comfortably and in a few days to walk about the field. I would further add for your satisfaction that my friend with whom I board has been entirely relieved from a pain in his shoulders, which drove him nearly to madness, by freely using the Liniment twice. Also the wife of one of my neighbours who was suffering dreadfully from an attack of acute rheumatism especially in her joints and legs, told me that she had scarcely applied it to parts affected before she felt immediade relief. I have reason to believe the Arthranodyne Liniment the best now in use.

Your obedient servant,
REV. D. S. SHAW.

DR GATES, *Dear Sir.*—I suffered two years with Asthma—I suffered day and night. I purchased every remedy that I could hear tell of, but all to little or no purpose; the more I took of doctor's medicines, such as powders, &c., the worse I got, and they left me so weak that I could scarcely walk. I expected to suffer the rest of my days; but, thanks to Gates' Life of Man Bitters and Syrup, I am cured of the asthma. I have completely recovered my health, strength, and spirits. My friends, my physician, and myself, are confident that it is owing solely to the use of your wonderful Life of Man Bitters and Syrup that this happy result has come to pass; and I shall ever gratefully acknowledge it; and am now and will be at all times ready to state any further particulars to satisfy the public that my assertions are true in every respect.
