Dear Editor, - My Father in Heaven has been better to me than, when I last wrote, I feared. Instead of being left to languish in a distant land, through the great kindness of Christian friends, here and elsewhere, I am again at home. Many are the prayers that have ascended to heaven on my behalf; and, though my health is not restored, I rejoice to be able to say, that both Sundays since I returned I have been able to preach, once without any apparent injury. The church here have asked me to labor a while, as I can, in conjunction with Dr. Spurden and I never felt it a greater pleasure to preach the precious Gosnel.

I have seen days of darkness, but I can thank my loving Father for them all-I do not wish to have one pang less. I have at last learned that hard lesson—the sweetness of affliction-and I now commit with confidence myself, present and future, and all my interests, into the dear Father's faithful hands. O, how sweet for one, who has long been tempest-tossed, to be able to rest -rest on the promise of a faithful God-rest in the arms of a precious, precious Saviour, able to me the uttermost.

Permit me to say to any in trouble,-" Rest, weary soul! For all my sins full satisfaction hade,

Strive not to do thyself what Christ has done, Claim the free gitt, and make the joy thine No more pangs of guilt and fear distrest,

Rest, sweetly rest!

"Rest, weary heart, From all thy silent griefs and secret pain, Thy profitless regrets, and longings vain; Wisdom and love have ordered all the past, All shall be plessedness and light at last; Cast off the cares that have so long opprest; Rest, sweetly rest! T. H. PORTER,

Fredericton, June 14, 1875.

P. S.—I desire most heartily to endorse the sentiments of my dear brother M. P Freeman in the closing paragraph of his letter in your issue of June 9th. T. H. P.

Business is very dull and money is John, Quebec, Montreal as well as clothes, live in houses, and all just as Nova Scotia, at 10 o'clock, A. M. when trade is said to be brisk and lively. Why then is business dull? This is no doubt a fact, and the enquiry is Whether this arises simply from an idea, or from some commercial disarrangement, which will be rectified by the passing away of a few weeks or months? There is the same number of people in existence, and about the same amount of money as ever in their possession. Why then is there a diminution of trade? and that all over this continent? The lowness of frieghts is but a secondary cause. Over-trading some say has brought its consequent depression. That could hardly operate so generally. Where then does it commence? These are questions to which it is not easy to frame a satisfactory answer.

After Mrs. Hunt-Morgan's Lecture at Hantsport last week, on behalf of her Soldiers' and Sailors' Home at Halifax, a neat little set of tea-spoons was found in the collection-plate.

Mrs. Morgan is now visiting Cornwallis, where her Lectures are well attended, and receive a hearty response in the contributions of the people.

"Information Wanted" is received. We think it undesirable that, in the present juncture, Foreign Mission matters should be discussed anonymously. The action of the Convention is before the Denomination, and it will not be long before ample opportunity will be afforded of obtaining all necessary information, so that every person may be fully satisfied as to what is the best course to pursue.

It is probable that the railway arrangements will bring a large number of the brethren to the city on Thursday evening. This will be very favorable to the meeting of the Home Missionary Union the following morning. We have had no intimation as to what may be anticipated at this meeting, but are sure that it is of the utmost importance that this part of our church work should be more fully considered oversight of the Baptist church in that vilthan it has ever yet been, and that its claims should be met with promptness and liberality.

On Sunday last, Methodist ministers filled nearly all the Protestant pulpits (except the Church of England) in the the city and vicinity. The Rev. Mr. Heartz preached an able discourse in the evening in Granville Street Church. sometimes been in deciding where it is to In the course of his sermon he made a most touching allusion to the death of the late Dr. Charles DeWolf, men-

Many of our readers will be thank- tioning that he attributed his converful to read the following from Rev. T. | sion to a sermon he heard from Rev. H. Porter who has returned from Dr. Crawley in that place of worship, whilst he Mr. DeWolf was a law student in Halifax.

# Local News.

THE CHANGE OF GAUGE of which we have been hearing so much for several weeks past, was successfully effected on Friday and Saturday last on the Intercolonial line between Halifax and St. John N. B., and on to Point du Chene. A telegram to the Chronicle says the change was made on Friday, the average time per mile of the change surpassed in speed that of any road

that has made such a change. Both at Moncton and Truro, cars had the broud gauge truck taken out, and the narrow ones put in, within 60 seconds. The gangs of men employed in changing the cars were changed every six hours, and luncheon

furnished every three hours. Traffic was to be fully resumed on Tuesday, after which date the Intercolonial will be second to no railway on this Continent, in equipment; having an entirely new stock of engines; new weels under all cars; Westinghouse Air Brake; Miller platforms and couplers on passenger trains; steel rails, and everything appertaining to a firstclass railway, which last includes an efficient

On Friday evening, by request, William Silver, Esq., of Haliax, visited and addressed the Band. His remarks were timely, and listened to with earnest attention by all present. At the close, a hearty vote of thanks was presented to him for his useful instruction and advice.

Later in the evening Mr. Silver favoured Phoenix Division S. of T. with a most earnest and practical address. His last 40 years experience in Temperance work had enabled him to mark its working, and discern some of its weak points. He dwelt forcibly on the fact that many who now were with us had stepped aside, and he pointed out the remedies, one of which was the care of the young-Bands of Hope on Thursday, June 3rd, 1875, Messrs. &c. Next followed Mr. Johnson, Attorney, late of Wolfville, now practising law at Bridgewater. His remarks were very enthusiastic, his address was more especially directed to young men. We are much encouraged when our legal advisers and men of wealth and position in society give their testimony in favor of the temperance cause, and are willing to lend a belving hand. "Phoenix Division" now more than 21 years old, never was so prosperous. DIAMOND RHEUMATIC CURE.

Effectually curing hundreds of our Nova

Scotia citizens from that terrible malady,

RHEUMATISM This statement is substantially a FACT based apon evidence in the possession of the agent, in the shape of numerous testimonials from past sufferers, in all the walks of life, and particularly from some of our most respectable and trustworthy families.

DIAMOND RHEUMATIC CURE.

In its history, this invaluable Medicine occupies the most honorable position possible. for any remedy to attain. A few years since it was known only to the friends and neighbors and patients of the proprietors, and always sought for by them whenever troubled with Rheumatism, and in this way came to the notice of physicians generally, and through their favorable expression, and its acknow-ledged value as a Rheumatic Remedy, the demand for it became so frequent and urgent er present Time Table, but no Freight will as to oblige its proprietors to increase their facilities for its manufacture. Its reputation rapidly extended, and soon orders, letters of enquiry, letters of thanks, and certificates of praise were daily received from all section of the United States and Canada; and in this way on a basis of its merit alone—unaided by " tricks of the trade " or special efforts-it wherever introduced it has received the most flattering preference in the treatment of all rheumatic complaints. In this we are really grateful and happy, not alone because our medicine finds ready sale, and is consequently profi able to us do we say this, but because we open a new field, in medical science, and cure at once what the best medical practitioners have for ages found so difficult even to relieve. We fill a place heretofore unoccupied. We, relieve the suffering and minister to God's poor; we restore the laboring man to the use of his injured limbs, and save him scores of times its cost in doctor's bills ; we carry contentment and gladness into the home of the afflicted, and consequently are remembered by millions of grateful souls.

The proprietor of this medicine has walked the aisles of the hospitals of London, Eng., for the past twenty years, making rheuma-tism a specialty, and the prescription from which this remedy is compounded is all he ever used in the treatment of this disease. This medicine is for sale at all the druggists

throughout Canada. If It happens that your druggist has not got it in stock, ask him him to FORSYTH & CO.
