UNITED STATES.

The miners of Pennsylvania are organizing still further for mutual protection. The armed mob which was marching on Hazleton was persuaded to disband by a Catholic priest.

A later despatch says miners in Luzerne County, Pa., have committed further outrages, and much property has been damaged, and some violent assaults have been committed by them.

A Washington special states that the President will demand reparation from Mexico for loss of life and property by Mexican raids. The demand to be enforced by the Army and Navy.

The importation of American potatoes into France has been officially prohibited.

The warm weather of the past day or two has caused the Susquehanna, Delaware, and other rivers to rise to a great extent, and grave apprehensions are now felt. One or two gorges did give away, but the damage done does not appear to have been of a serious nature.

LATEST FROM EUROPE.

ENGLAND.—Wilson McLay & Co., of London, metal merchants have failed for two hundred and fifty thousand pounds.

Ten thousand sympathizers of the Tieborne claimant met at Hyde Park on Monday, 29th, with music, banners, &c. Dr. Kennedy and Messrs. Onslow and Whally made speeches, and the people took the horses from the carriages of these gentlemen and dragged them themselves instead. A resolution was adopted denouncing the partiality of the Judge at the trial, and asserting that there shall be no rest until this judicial crime is rectified.

The "Times," reviewing the Moody and Sankey revival meetings, considers the movement transitory, though long to be remembered as a curious feature of religious life.

The London papers of Monday last speak of the revival services at Agricultural Hall, on Sunday, as most successful.

FRANCE.—The Duke de Montpensier has applied to the Marquis de — for a passport to Spain; he declined to grant it. The reason he assigned was that if the passport was granted to the Duke, ex-Queen Isabella would deem herself equally entitled to one, and the Madrid Government considered her return to Spain inopportune.

A Paris despatch to the London "Post" says that settlements on the Bourse were effected with great difficulty; there have been twenty-eight failures and two persons committed suicide in consequence of financial reverses.

SPAIN.—It is stated that Spain has made a formal demand on Prussia for the arrest of Don Alfonso, and it is said that the Prussian authorities have in consequence received instructions to arrest the Prince if he enters Prussia, and hold him until the grounds of Spain's claim are examined.

There are rumors of dissatisfaction with the Spanish Government for its lethargy in regard to the Carlist insurrection, and Alfonso is said to be contemplating abdication.

Spanish advices state that notwithstanding denials of disensions among the Carlists it is known beyond question that there are serious difficulties between Don Carlos and the Carlist councils of the Province of Navarra.

The Carlists have hoisted flags of truce at Kenterin and Oyarzun, and are fraternizing with the Government troops.

It is thought that Jovellar will be requested to withdraw from the Spanish Ministry on account of Concha's charges.

Ex-Queen Isabella will shortly join Alfonso in Madrid.

Spain has repeatedly requested Germany to bombard Zurara for the *Gustave* outrage, but Germany has refused, because innocent persons would suffer.

The Carlist Gen. Saballo has had an interview with Gen. Campas at Olat under a flag of truce. There is reason to believe that he will soon give in his adhesion to Alfonso, and in return his present rank will be recognized by the Government.

The "Post's" advices from Spanish frontier represents the prospects of peace increasing daily. One hundred and eighty Carlists officers have given in their submission to Alfonso.

Professor Piner, of the University of Madrid, has been arrested, and will be expelled from Spain because he petitioned Alfonso against the reactionary educational decree.

The Papal Nuncio to Spain left the Vatican for Madrid, bearing instructions to the Spanish clergy to strive for the restoration of the priests under Alfonso.

GERMANY.—At Berlin it is anticipated that the old laws forbidding intercourse between the Pope and the Catholic clergy in Prussia, except through the government, will be re-enacted, and that measures will be introduced wholly suspending the Papal authority in Prussia, until the Pope abandons his pretension to cancel the laws of the Kingdom.

The Conference of Roman Catholic Bishops at Fulda has closed.

A message from the Pope was received, giving the Bishops his blessing, and urging them to persevere.

Dr. Hedy Foerster, of Breslau, has been summoned to resign his Bishopric because he promulgated the Papal Encyclical Laws.

The object of the Conference of the Roman Catholic Bishops at Fulda is to issue pastoral letters concerning the Bill before the Prussian Diet withdrawing state grants from the Church.

INDIA.—The trial of the Gwiooar of Baroda at Calcutta, charged with an attempt to bribe a servant to poison Col. Phayre, the President, resulted in a disagreement.

Advices from the Governor-General of India give the following account of a massacre of troops. Company 44 of the Indian forces with two hundred Coolies, while surveying, met with a tribe of Naga Hill natives who pretended friendship, but seizing a favorable opportunity suddenly attacked the regiment, killing eighty and wounding sixty. The rest escaped. The survivors carried away the heads of their dead comrades to prevent the Nagas from celebrating a triumph. Two regiments have been ordered to proceed to the locality and revenge the slaughter of the soldiers by exterminating the tribe.

DIAMOND RHEUMATIC CURE.
Effectually curing hundreds of our Nova Scotia citizens from that terrible malady.

RHEUMATISM.
This statement is substantially a fact based upon evidence in the possession of the agent, in the shape of numerous testimonials from past sufferers, in all the walks of life, and particularly from some of our most respectable and trust-worthy families.

DIAMOND RHEUMATIC CURE.
In its history, this invaluable Medicine occupies the most honorable position possible for any remedy to attain. A few years since it was known only to the friends and neighbors and patients of the proprietors, and always sought for by them whenever troubled with Rheumatism, and in this way came to the notice of physicians generally, and through their favorable expression, and its acknowledged value as a Rheumatic Remedy, the demand for it became so frequent and urgent as to oblige its proprietors to increase their facilities for its manufacture. Its reputation rapidly extended, and soon orders, letters of enquiry, letters of thanks, and certificates of praise were daily received from all sections of the United States and Canada; and in this way on a basis of its merit alone—unaided by "tricks of the trade" or special efforts—it has risen to its present enviable position. Wherever introduced it has received the most flattering preference in the treatment of all rheumatic complaints. In this way are really grateful and happy, not a one because our medicine is ready sale, and is consequently profitable to us, do we say this, but because we open a new field, in medical science, and cure at once what the best medical practitioners have for ages found so difficult even to relieve. We fill a place heretofore unoccupied. We relieve the suffering and minister to God's poor; we restore the laboring man to the use of his injured limbs, and save him scores of times its cost in doctor's bills; we carry contentment and gladness into the home of the afflicted, and consequently are remembered by millions of grateful souls.

The proprietor of this medicine has walked the aisles of the hospitals of London, Eng., for the past twenty years, making rheumatism a speciality, and the prescription from which this remedy is compounded is all he ever used in the treatment of this disease.

This medicine is for sale at all the druggists throughout Canada. If it happens that your druggist has not got it in stock, ask him him to send it for to
