

that negotiations have been opened between the Berlin and Brunswick Governments, with a view to the settlement of the Brunswick succession.

Alfonso promised Prince Hohenzollern, the German Ambassador, that he would be as liberal and as little clerical in his policy as it is possible for the King of Spain to be.

SPAIN.—The Times correspondent at Biarritz telegraphs that he is authorized to deny the report of the conversation between the Princes Deriviera and Serrano published in the Times of January 1st, in which the former gave notice of his intention of proclaiming Alfonso King six weeks ago.

All the great European powers have authorized their representatives at Madrid to enter into semi-official relations with the new Government of Spain.

The Pope sends his apostolic benediction to ex-Queen Isabella and her son Alfonso, and says he prays God to grant the latter all happiness in the difficult task he is about to undertake.

The Marquis de Maline will probably go to Paris, Rivas to Rome, and Quesada to London as Ambassadors of Spain.

The government troops have defeated the Carlists. The latter had forty killed, many wounded and 40 taken prisoners.

King Alfonso was expected at Madrid yesterday.

Hundreds Cured daily in N. S.

BY THE

DIAMOND RHEUMATIC CURE.

Effectually curing hundreds of our Nova Scotia citizens from that terrible malady, RHEUMATISM.

This statement is substantially a FACT based upon evidence in the possession of the agent, in the shape of numerous testimonials from past sufferers, in all the walks of life, and particularly from some of our most respectable and trustworthy families.

DIAMOND RHEUMATIC CURE.

In its history, this invaluable Medicine occupies the most honorable position possible for any remedy to attain. A few years since it was known only to the friends and neighbors and patients of the proprietors, and always sought for by them whenever troubled with Rheumatism, and in this way came to the notice of physicians generally, and through their favorable expression, and its acknowledged value as a Rheumatic Remedy, the demand for it became so frequent and urgent as to oblige its proprietors to increase their facilities for its manufacture. Its reputation rapidly extended, and soon orders, letters of enquiry, letters of thanks, and certificates of praise were daily received from all sections of the United States and Canada; and in this way on a basis of its merit alone—unaided by "tricks of the trade" or special efforts—it has risen to its present enviable position.

Wherever introduced it has received the most flattering preference in the treatment of all rheumatic complaints. In this we are really grateful and happy, not alone because our medicine finds ready sale, and is consequently profitable to us, but because we open a new field, in medical science, and cure at once what the best medical practitioners have for ages found so difficult even to relieve. We fill a place heretofore unoccupied. We relieve the suffering and minister to God's poor; we restore the laboring man to the use of his injured limbs, and save him scores of times its cost in doctor's bills; we carry contentment and gladness into the home of the afflicted, and consequently are remembered by millions of grateful souls.

The proprietor of this medicine has walked the aisles of the hospitals of London, Eng., for the past twenty years, making rheumatism a specialty, and the prescription from which this remedy is compounded is all he ever used in the treatment of this disease.

This medicine is for sale at all the druggists throughout Canada. If it happens that your druggist has not got it in stock, ask him him to send for it to

FORSYTH & CO., HALIFAX.
