The determination is perhaps greater than ever before that we shall maintain our College in its integrity, and consider its interests as paramount. This feeling in reference to collegiate institutions is also participated in by other denominations. Many Presbyterians even have strong objections to make use of a State University for teaching purposes.

If the University of Halifax is found to lead at all in that direction it will unwilling to enter into this new experiment. Still, as implied by resolution of the Convention, we do not see that the Baptist brethren appointed on the Senate, except those directly opposed to the University, need withdraw from it, until they find that they are comable. We see no reason for placing Acadia ash pannelled, trimmed with black in antagonism to the University as an examining body, or hostile to any of the other denominational Colleges. Acadia has never given any countenance even to a spirit of rivalry. When such spirit has been invoked, by others, mote singing by the congregation.
