SCIENCE.

FIRE-PROOF DRESS.—M. Oestberg, a Swede, has been conducting some sensational experiments in various parts of the Continent with his fireproof suit. This is made in two layers, the inner one of india rubber, the outer of English leather, the head being protected by a helmet resembling that worn by divers.

PREVENTIVE OF HYDROPHOBIA.—In a letter published in a recent number of Professor Gubler's Journal de Therapeutique, another addition is made to the already formidable list of prophylactics against hydrophobia.

BEWARE OF OPIATES.—In order to induce natural and healthful sleep such methods are to be adopted as will extract an excess of blood from the brain. This may be accomplished by exercise, which draws off the blood to the more weary organs; while a well ordered digestion demands the blood that keeps his brain in too great activity for the stomach where it is needed.

TO MEND CHINAWARE.—Take a very thick solution of gum arabic and stir into it plaster of Paris until the mixture is of proper consistency. Apply it with a brush to the fractured edges of the china ware and stick them together.

TO BLEACH SPONGE.—Soak it well in dilute muriatic acid for twelve hours. Wash well with water to remove the lime, then immerse it in a solution of hyposulphate of soda, to which dilute muriatic acid has been added a moment before.

TO CLEAN PLATE.—Take an ounce each of cream of tartar, muriate of soda and alum, and boil in a gallon or more of water. After the plate is taken out and rubbed dry, it puts on a beautiful and silvery whiteness.

To get rid of the smell of oil in paint, plunge a handful of hay into a pailful of water and let it stand in the room newly painted.

The New-York Aquarium, is nearly completed. There are a number of tanks in the building, the largest of which, intended for sharks, is sixty feet long by ten wide.

Color is used as a remedy in an insane asylum in Alexandria, Italy. Dr. Ponza, the physician in charge, says that he puts melancholy lunatics into red rooms, and violent maniacs into blue rooms, the results being astonishingly satisfactory.

REMARKABLE ARTESIAN WELL.—At Prairie du Chien, Wis., an artesian well daily discharges 869,616 gallons of water. The well is only 960 feet deep, but has head enough to raise the water 900 feet above the ground.

The latest improvements in mills for grinding wheat, etc., consist in the use of porcelain rollers for crushing the wheat previous to submitting it to the millstones. The result is an improvement in the quality of the flour, and a larger yield in a given time.

When a screw or staple becomes loose, the best way to tighten it is to withdraw it, fill up the hole with cork, and re-insert. This has been found a much better plan than to plug the hole with ordinary wood, as is commonly done.

A missionary in India has sent an order to New Haven for a vehicle which can be travelled in by day, slept in by night, and preached from at any time. It will be furnished with cooking utensils, bedding, and books, and six oxen will draw it.

In Java a fruit tree is planted on the birth of each child; in Biscaya a landowner is obliged to put down two plants for every tree he fells; in Japan every tree cut down must be replaced by another.

Worry is rust upon the blade. It is not revolution that destroys the machinery, but the friction.

A square of 208-72 feet each way covers one acre, so also does a circle 235-5 feet in diameter.

DOMESTIC ECONOMY.

RECOOKING COLD MEAT.—Take any kind of cold meat, cut into dice, taking care to turn off all gristle; place in a stew-pan with sufficient cold water to cover it, and one or two onions according to the quantity of meat; season with cloves, pepper, salt, and mace according to taste; simmer gently until the meat is quite tender; thicken it with flour and a small piece of butter; take an iron spoon, put a tea-spoonful of sugar in it, and burn the sugar; stir quickly into the hash. Toast slices of bread brown; cut into squares, and lay them round a flat dish; then pour out your hash and serve hot.

CHOW-CHOW.—Boil in one quart of vinegar a quarter of a pound of mustard, mixed as for table use, two ounces of ginger, two ounces of white pepper, a very little mace, with a few cloves. Take one dozen large cucumbers, peeled and sliced, place in a sieve with a handful of salt, let them stand ten minutes, and then put in jars. When the vinegar is cold enough, pour it over, and tie down tight. This chow-chow will be fit for use in one week, and will keep good a year.

PICKLED CAULIFLOWER.—Break off the flowers, put a layer of them in a jar and sprinkle salt plentifully over them; then another layer of the cauliflowers; then salt and so on. Let them remain twenty-four hours, then wash off the salt and drain dry, pack them in a jar and pour spiced vinegar boiling hot over them. In four or five days heat the vinegar again and pour boiling hot over them.

Hundreds Cured daily in Nova Scotia BY THE

DIAMOND RHEUMATIC CURE.

Effectually curing hundreds of our Nova Scotia citizens from that terrible malady RHEUMATISM.

This statement is substantially a FACT based upon evidence in the possession of the agent, in the shape of numerous testimonials from past sufferers, in the walks of life, and particularly from some of our most respectable and trust worthy families. DIAMOND RHEUMATIC CURE. In its history, this invaluable medicine occupies the most honorable position possible for any remedy to attain. A few years since it was known only to the friends and neighbors and patients of the proprietors, and always sought for by them whenever troubled with Rheumatism, and in this way came to the notice of physicians generally, and through their favorable expression, and its acknowledged value as a Rheumatic Remedy, the demand for it became so frequent and urgent as to oblige its proprietors to increase their facilities for its manufacture. Its reputation rapidly extended, and soon orders, letters of enquiry, letters of thanks, and certificates of praise were daily received from all sections of the United States and Canada; and in this way on a basis of its merit alone—unaided by "tricks of the trade" or special efforts—it has risen to its present enviable position. Wherever introduced it has received the most flattering preference in the treatment of all rheumatic complaints. In this we are really grateful and happy not alone because our medicine finds ready sale, and is consequently profitable to us, do we say this, but because we open a new field in medical science, and cure at once what the best medical practitioners have for ages found so difficult even to relieve. We fill a place heretofore unoccupied. We relieve the suffering and minister to God's poor; we restore the laboring to the use of his injured limbs, and save him scores of times its cost in doctor's bills; we carry contentment and gladness into the home of the afflicted, and consequently are remembered by millions of grateful souls.

The proprietor of this medicine has walked the aisles of the Hospitals of London, Eng., for the past twenty years, making rheumatism a speciality, and the prescription from which this remedy is all he ever used in the treatment of this disease. This medicine is for sale at all the druggists throughout Canada. If it happens that your druggist has not got it in stock, ask him to send for it to FORTY-FIVE & CO., Halifax, General Agent for N. S., and C. B. Oct. 28.
