The Irish Catholic citizens of Montreal are preparing for a pilgrimage to Rome next summer. They will bear an offering of \$10,000 to the Pope on behalf of the Irish Catholics of that city. Rev. Father Dowed, Mr. Mullarky, and other leading citizens will likely accompany the party, which will number about 150. Subscriptions to this end are being taken up.

"A Baptist (by profession) said to us, not long since," writes a correspondent, investigated the contents of some of "that it was the custom of all denominations to lay too much stress on their peculiarities, and that he thought it a They succeeded in finding the remains matter of very little moment whether a man belonged to a Baptist church or to some other. We should like to see in how great value he and his like are held by at least one Presbyterian. Dr. Stuart Robinson writes: 'The man who cares little for his own church over any other, is likely to be of no use to any church; yea, and instead of being more catholic than others, is rather even more ready to play the bigot, by setting up crochets of his own by which to judge and unchurch his fellow-christians.' That we think, is a very fair statement of the case. We want Baptists who are Baptists for a reason; and for a reason as valid as the Word, and as momentous as the will of God. As an old American deacon once expressed it-'Let turkeys be turkeys, and buzzards be buzzards; but none of your turkey-buzzards for me!'"-Freeman.

The Congregationalist states that "the New York Witness has sunk over \$160,-000 in its efforts to find a footing, and still calls on its friends for more."

Mr. Spurgeon has got rapidly into the thick of work again since his return from Scotland, and has been preaching in Essex. On Tuesday he was at Walthamstow - Rev. W. H. Hooper's -and preached two sermons, afternoon valve. Having the power to secure 115 Bridgetown " 1 20 6 36 and evening, at Wood-street Chapel the occasion of the anniversary. Of course, the building was crowded, and though at the first services Mr. Spurgeon appeared to be far from so well as his friends would have liked to see him, he delivered two telling discourses. In the evening he took for his text the well-known passage, "And the angel hastened Lot," and in his closing appeals related two rather striking instances of the uncertainty of life. When preaching on one occasion on Heaven, he noticed, sitting almost directly in front of him, an elderly lady whose deeply interested look greatly encouraged him in speaking; but near the close, he saw a change gradually steal over her face, and on directing attention to her, it was found that she had passed away from earth. At another time he had preached in the open air on the uncertainty of life, and the certainty of death, when as the congregation began to disperse a body fell to the ground, and it was discovered that the life had been extinct people for any great length of time. One some fifteen or twenty minutes, and the corpse had simply been held in an upright position by the crowd. We need hardly say that such illustrations told.

A Scotch minister thus discoursed on the carelessness of his flock—"Brethren, when you leave the church just look down at the Duke's swans; they are very bonny swans, an' they'll be sooming about an' aye dooking doon their heads and laving theirsels wi' the clear water till they're a drook't; then you'll see them sooming to the shore, an' then gie their wings a bit flap and they're dry again. Now, my friends, you come here every Sabbath, an' lave you a'ower wi' the Gospel till yer'e fairly droon wi' it. But you just gang awa' hame, an' sit doon by your fireside, gie your wing a bit flap, an' ye're as dry as ever again."

It will be interesting to gentlemen who contemplate the starting of news papers to learn that £70,000 has been sunk in the Hour.

The Commentaries of the late Rev. Albert Barnes on the Scriptures have, it is said, reached a circulation of between one and two million copies. They have been republished in Great Britain, and translated and published in Welsh, French, German, Chinese, and Malagasy.

One of the saddest things about human nature is, that a man may guide others in the path of life without walking in it himself; that he may be a pilot and yet a cast-away.

It is stated that the idea of establishing a sanitary city on the southern coast of England, which attracted considerable attention when mooted by Dr. B. W. Among them were wampum enough to make a string about two feet long, a stone pestle, glass bottles of peculiar shape, earthen cups, silver teaspoons, a copper kettle, with iron frame and handle; a gun band, pieces of blanket in which the bodies were wrapped, so well preserved that the fibre can be plainly seen, and a small brass box, shaped like the case of an old fashioned village watch, but larger, containing about twenty Roman silver coins of comparatively modern date, about the size of an old shilling piece. On one side of the coins the figures 1670 are legible, proving as do the other articles, that the graves are not so ancient as had been supposed. The skulls and some bones were found in a positian to show that the bodies had been buried in a horizontal, not a sitting posture.

Separate Schools in Ontario are to be subject to at least one inspection a year by the regular inspectors, who are to report full statistics regarding them to the Education Department. The Roman Catholic separate school system in Ontario is on an entirely different footing from that in Quebec, and the chief use of the act providing for it is as a safety- 110 *Paradise separate schools if they wish, Roman Catholics are generally quite contented to send their children to the ordinary public schools. This is done both in places where Protestants are in a majority, and where the Roman Catholics are in a majority. The ratepayers in a school section elect trustees for it, and there is seldom any conflict between Protestants and Roman Catholics for control of the management. A policy of mutual consideration prevails, and where there is a contest over a trusteeship it is generally in regard to the salary of the teacher; some niggardly rate-payers, who have no children to be educated, striving occasionally to elect trustees who will make it their first consideration to keep down expense.— Montreal Witness.

WHAT THEY SAY OF IT! A FEW FACTS FOR THE PEOPLE.—There are but few pre-parations of medicines which have withstood the impartial judgment of the of these is Dr. Thomas' Eclectric Oil. Read the following and be convinced:-Thos. Robinson, Farnham Centre, P. Q., writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all."-J. H. Earl, Hotel Keeper, West Shefford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds etc., and think it is equally as good for horse as for man."—A. Maybee, Merchchant Warkworth, writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public, one of the best medicines they have ever used;' it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence." Joseph Rusan, Township Percy, writes, "I was persuaded to try Thomas' Eclectric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for lameness. It is a great public benefit,"—A. M. Hamilton, Warkworth, writes, "For weeks I was troubled with a swelled ankle, which annoyed me very much. Mr. Maybee of this place induced me to try Eclectric Oil, and before one bottle was used I was cured. It is a most remarkable medicine.

FITS!

FITS! FITS! FITS! CURE OF EPILEPSY; OR, FALLING FITS,

BY HANCE'S EPILEPTIC PILLS. Persons laboring under this distressing malady, will find Hance's Epileptic Pills to be the only remedy ever discovered for curing Epilepsy or Falling Fits.

The following certificates should be read by all the afflicted; they are in every respect true, and should they be read by any one who is not afflicted himself, if he has a friend who is a sufferer, he will do a hyperson act by a friend who is a sufferer, he will do a humane act by cutting this out and sending it to him.

A MOST REMARKABLE CURE.

PHILADELPHIA, June 28th, 1867.

SETT HANCE, Baltimore, Md. — Dear Sir: Sceing your advertisement, I was induced to try your Epileptic Pills. I was attacked with Epilepsy in July, 1863. Immediately my physician was summoned, but he could give me no relief. I then consulted another physician, but I seemed to grow worse. I then tried that transport is a seemed. relief. I then consulted another physician, but I seemed to grow worse. I then tried the treatment of another, but without any good effect. I again returned to my family physician; was supped and bled several different times. I was generally attacked without any premonitory symptoms. I had from two to hye fits a day, at intervals of two weeks. I was often attacked in my sleep, and would fall wherever I would be, or whatever be occupied with and was severely injured several times from the falls. I was affected so much that I lost all confidence in myself. I also was affected in my business, and I consider that I also was affected in my business, and I consider that your Epileptic Pills cured me. In February, 1865, I comwards. The last one was April 5th, 1865, and they were of a less serious character. With the blessing of Providence your medicine was made the instrument by which I was cured of that listressing affliction. I think that the little and their good effects should be made known everywhere, that persons who are similarly affected may have the benefit of them. Any person wishing further information can obtain it by calling at my residence, No. 836 North Third St., Philadelphia, Pa.

WILLIAM ELDER.

IS THERE A CURE FOR EPILEPS' ?

The subjoined will answer. GRENADA, Miss., Jane 30. - SETH S. HANCE, - Dear Sir. You will find enclosed five dollars, which I send you fee two boxes of your Epileptic Pills. I was the first person who tried your Pills in this part of the country. My son was badly afflicted with fits for two years. I wrote for and received two boxes of your Pills, which he took according to directions. He has never had a fit since. It was by my persuasion that Mr. Lyon tried your Pills, this case was a very bad one; he had fits nearly all his life. Persons have written to me from Alabama and Teanesses on the subject, for the purpose of ascertain. Teanasses on the subject, for the purpose of ascertaining my opinion in regard to your Pills. I have always recommended them, and in no instance where I have had a chance of hearing from their effect have they failed to cure. Yours, etc., C. H. Guy, Grenada, Yalabusha County, Miss.

ANOTHER REMARKABLE CURE OF EPILEPSY; OR, FALLING FITS, BY HANCE'S EPILE "TIC PILLS.

MONTGOMERY, Texas, June 20th, 1867.
To SETH S. HANCE:—A person in my employ had been afflicted with Fits, or Epilepsy, for thirteen years; he had these attacks at intervals of two to four weeks, and oftenthese attacks at intervals of two to four weeks, and oftentimes several in quick succession, sometimes continuing for two or three days. On several occasions they lasted until his mind appeared totally deranged, in which state he would continue for a day or two after the fits ceased. I tried several remedies prescribed by our resident physicians, but without success. Having seen your advertisement I concluded to try your remedy. I obtained two boxes of your Pills, gave them according to directions, and they effected a-permanent cure. The person is now a stout, hea'thy man, about 30 years of age, and has not had a fit since he commenced taking your medicine, ten years since. He was my principal wagoner, and has, since that time, been exposed to the severest of weather. I have great confidence in your medy, and would like I have great confidence in younremedy, and would like every one who has fits to give it a trial.

B. L. DEFREESE,

Read the following testimonial from a respectable citizen of Grenada, Mississippi.

STILL ANOTHER CURE.

SETH S. HANCE, Baltimore, Md.—Dear Sir: I take great pleasure in relating a case of Spasms, or Fits, cured by your invaluable Pills. My brother, J. J. Ligon, has long been afflicted with this awful disease. He was first attacked while quite young. He would have one or two spasms at one attack at first, but as he grew older they seemed to increase. Up to the time he commenced taking your Pills he had them yory often and quite severe proyour Pills he had them very often and quite severe, prostrating him, body and mind. His mind had suffered seriously, but now, I am happy to say, he is cured of those fits. He has enjoyed fine health for the last five months. His mind has also returned to its original brightness. All this I take great pleasure in communicating, as it may be the means of directing others to the remedy that will cure them. Yours, respectfully, etc., W. P. Ligon.
