For Consumption

And all diseases that lead to it; such as COUGHS, NEGLECTED COLDS, BRONCHITIS, PAIN IN THE CHEST, AND ALL DISEASES

IS THE GREAT MODERN REMEDY

T IS WARRANTED to break up the most distressing Cough in a few hour time, if not of too long standing. It is WARRANTED to give entire satisfaction even in the most confirmed cases of Consumption! It is WARRANTED not to produce costiveness (which is the case with most remedies), or affect the head as contains no Opium in any form. It is warranted to be perfectly harmless to the most delicate child, although it is an active and powerful remedy for restoring the system. There is no real necessity for so many deaths by Consumption, when Allen's Lung Balsam will prevent it, if only taken in time.

PRICE \$1 PER BOTTLE. SOLD BY ALL DRUGGISTS.

April 22. A MAN OF A THOUSAND.

A CONSUMPTIVE CURED,

When death was hourly expected from Consumption, all remedies having failed, accident led to a discovery whereby Dr. H. James cured his only child with a preparation of CANAABIS INDIEA. He now gives this recipe free on receipt of two stamps to pay expenses. There is not a single symptom of consumption that it does not dissipate—Night Sweats, Irritation of the Nerves, Difficult Expectoration, Sharp Pains in the Lungs, Nausea at the Stomach, Inaction of the Bowels, and Wasting of the Muscles,

SCIENCE.

MILK INSTEAD OF SOAP .- A lady writing to the New York Times, says: Without giving any recipes for making soap, I wish to tell all the hard-working farmer's wives how much labor they may save by not using such vast quantities of this article. For nearly five years I have used soap only for washing clothes. In all that time I have not used one pound of soap for washing dishes and other kitchen purposes. My family has ranged from three to twenty-five. I have used cistern water, limestone water, as hard as she found the ruin wrought, possible, and hard water composed of But not cast down forth from the place other ingredients besides lime, and I find with all these my plan works equally well. It is this: " Have your water quite hot and add a very little milk to it. This seftens the water, and gives the dishes a fine gloss, and The last soft feather on its ample floor, and preserves the hands; it removes the grease, even that from beef, and yet no grease is ever found floating on the water, as when soap is used. The stone vessels I always set on the stove with a little water in them when the victuals are taken from them; thus they are hot when I am ready to wash them, and the grease is easily removed.

Just try my plan, you who toil day Just try my plan, you who toil day after day every spring to make that barrel of soap, and let us hear how it succeeds with you. I like the great barrel of soap on washing days, but am tine, 2 hours and 11 minutes LATER than at Halifax. At Annapolis, St. John, N.B., and Portland Maine, 3 hours and 25 minutes LATER, and at St. John's, Newfoundland, 20 minutes RARITER than at Halifax. At Charlottetown, 2 hours 56 minutes LATER. At Westport, 2 hours 54 minutes LATER. At Westport, 2 hours 54 minutes LATER. At Yarmouth, 2 hours 20 minutes LATER. At Yarmouth, 2 ho tins is a wasteful policy; the present of a soap box, lined with zinc and mount style of tinware will not bear it. The ed on feet), we do not believe in any tin is soon scrubbed away, and a vessel large variety of plants in a single rethat is good for nothing is left on our ceptable. It is nonsense to mix exot hands; but if washed in the way I ics with wild ferns and grasses, because have described, the tin is preserved, the nature of the soil which suits one is and is always bright and clean.

> A ROSEWOOD STAIN .- Take one perature necessary for delicate plan callon of alcohol, one and one-half is fatal to the more hardy var pounds of red sanders, one pound of extract of logwood, two ounces of aquafortis. When dissolved, it is ready for use. This makes a very bright ground. This makes a very bright ground. It should be applied in three coats over the whole surface. When it is dry, sand-paper down to a very smooth surface, using for the purpose a very broard leaves of the begonias shade the stem, and roots of the more delicate rpentine. When the shading is dry, a very brilliant shade for woodwork.

OXIDATION OF IRON .- It has usually been supposed that the rusting of iron or mjolica ware will depends principally upon moisture and contain the earth for their reception. If oxygen. It would appear, however, such vessels be used, the common earthwithout this the other agencies have tween; while care should be taken that very little effect. Iron does not rust the higher edges of the outer pot do not at all in dry oxygen, and but little in shade the base of the plant. Weak moist oxygen, while it rusts very rapidly in a mixture of moist carbonic acid and oxygen. If a peice of bright, iron be placed in water saturated in oxygen rusts very little; but if carbonic acid be present oxidation goes on so fast that dark precipitate is produced in a very short time. It is said that bright iron be kept loose and not allowed to pack placed in a solution of caustic alkali does not rust at all. The inference to be derived is-that by the exclusion of moist carbonic acid from contact with rion rust can be very readily prevented.

It has been proposed to erect a stat- | Minnesota. BLACK ROCK, FEB. 4TH, 1876. MR. NEILY, DEAR SIR,-

I am perfectly delighted with the ROYAL SEWING MACHINE, it is always ready for use and I would not exchange it for any Machine I ever saw.

Yours,

MRS. L. SWEET.

This is to certify that I am using one of the ROYAL MACHINES in my family. It does fine work splendid and I make all my Carriage and Sleigh Cushions on it; and it is always ready for use. Yours,

W. P. BENNET, Carriage Maker.

This is to certify that I exchanged a Machine I had with Mr. Neily a year ago and got a ROYAL, and I have found it just what he recommended it to be, a first class Machine; and I would advise any person that is in want of a Machine to get a ROYAL.

tism, and in this way came to the notice of physicians generally, and through their favorable expression, and its acknowledged value as a Rheumatic Remedy, the demand for it became so frequent and ungent as to oblige its proprietors to increase their facilities for its manufacture. Its reputation rapidly extended, and soon orders, letters of enquiry, letters of thanks, and certificates of praise were laily received from all sections of the United States and Canada; and in this way on a basis of its merit alone—unaid-ded by "tricks of the trade" or special eforts—it has risen to its present envious position. Wherever introduced it has recorrespondent of the Rural New Yorker giving the following description of a novel smoke-house seen last winter in Minnesota. She says:

One sees very strange sights some-times and Lending sight sights some-times and Lending sights some-times and sight In this we are really grateful and hap relieve. We fill a place heretofore unoc cupied. We relieve the suffering and minister to God's poor; we restore the laboring to the use of his injured limbs, and save him scores of times its cost in doctor's bills; we carry contentment and gladness into the home of the afflicted, and consequently are remembered by millions of grateful souls.

The proprietor of this medicine has walked the aisles of the Hospitals of London, Eng., for the past twenty years, making rheumatism a speciality, and the prescription from which this remedy is all he ever used in the treatment of this disease.

disease.
