Japan and Corea have been concluded and war averted.

PROVINCIAL PARLIAMENT.

On Monday (13th Inst., after a host of petitions had been laid before the house on railway matters, road and bridge service, public schools assesment | an institution of their own as they were and a number of other matters. Mr. Holmes asked the attention of the House to a statement which had appeared in the Morning Chronicle charging the Opposition by their vote on the College question on Friday night with opposing the grants to all the Colleges. This was regarded by some of the members as a breach of privilege and being a misrepresentation of the vote that was taken called for the censure of the

Hon. Prov. Secretary said he did not think the House could take notice of everything that appeared in the public

Mr. Holmes called for the reading of the Journals which was the authentic record of the votes given; these showed that a division took place only on the University Bill and not on the Bill increasing the grants to existing College. The discussion which waxed warm and earnest was participated in by quite a number of members on either side, who Bill. It appeared that the discussion of 20 to 15. the College question in the House had covered the ground of both bills, but that the division of the House was called for only on the University Bill, whilst the without division and so by a unanimous | MENT. For safe at

Mr. Longley said the Opposition had voted in a body against the University Bill but that they did not vote against the grants to the Colleges. In no way could the Opposition be shewn to have acted inconsistently or against the interests of the several denominations.

Hon. Prov. Secretary said he was almost ashamed to debate this question, it was so plain, and the position of the government so unassailable. It was mere trifling to raise the question now as if the college bill was a separate and distinct measure from the other. The two bills constituted one broad, open, honest measure, which was perfectly comprehended by the country. He regretted that the whole afternoon had been taken up in discussing a motion which, if it could by any possibility succeed, would only have the effect of putting an end to legitimate discussion and muzzling the press.

Mr. Longley said an interesting quetion had been raised by the Atty. General, and he would like to have it settled. Suppose the Government had been out-

A French ministerial statement was know how it would happen that these

imon in favor of one college and The result of the voting on Saturday in he would be the premier of the Government. If the hon, member for Annapolis went into the same Government the Leon Say, the French Minister of Fi- complexity of ideas would probably prevent unity of action.

Mr. Longley said that would not ne-cessarily be the effect any more than in the case of the hon. member for Halifax and the hon. Atty. General being together. He wanted to know if the hon, member for Picton had given any expression of opinion against the grants to denominational colleges. He had announced himself favorable to a university, but he had not intimated any hostility towards denominational colleges, or intimated that he would refuse to give them the grants they now re-

The afternoon was largely occupied on this subject, at the close of which the motion was withdrawn.

ON TUESDAY, after the preliminary business, the House in Committee on bills

tions. A LANT KINDS Dr. Farrell suggested that the corporation consist of a Chancellor, Vice-Chancellor and twenty-four Fellows, to be chosen from the graduates of the existing colleges.

Hon. Prov. Secretary suggested that a provision might be introduced by which only graduates of five years standing should be members of the University. Dr. Farrell accepted the suggestion

and moved that only graduates who had taken their degrees previous to 1870 should be members of the University. The amendment passed. The sum of \$2000 was inserted in the

clause providing for the payment of the expenses of the University.

Mr. McKay asked, in the event of

Russia.—It is stated that a Russian those now supporting Dalhousie College army 12,000 strong has entered Corean withdrawing from that institution, would as you see by the above it has taken the territory, under pretext of pursuing they receive the \$3,000 wherever they chose to apply, it.

Hon. Atty. General asked by what right the hon, member had ventured to assume that the Presbyterian body in this country would touch a shilling of the public funds.

Mr. Patterson said the year before last, in the Synod, it had been under consideration whether or not the Presbyterian body should withdraw from Dalhousie. He would move that a clause be added as a rider to the bill to the effect that in the event of the Presbyterians establishing a college of their own the sum of \$3,000 be granted to

Mr. Allison said he believed it would shortly be the interest of the Preshyterian to retire from Dalhousie and found able to do.

On WEDNESDAY the two Collegiate Bills were read a third time and sent to the Legislative Council for concurrence. After which a petition respecting the Western Counties Railway called forth a lengthy debate. Several petitions for and against the removal of an aboideau in Cumberland County, occupied a large portion of the afternoon.

On THURSDAY a number of Halifax bills were read a third time.

The Committee appointed to confer with the Legislative Council reported a resolution that that body believed "no step should be taken which wouldlinvolve a fundamental change in the Constitution of the Country without the most mature consideration and inquiry," &c.

Subsequently a motion aiming at a reduction or the entire abolition of the royalty now paid on coal came under consideration. This subject occupied the remainder of the day and FRIDAY, wished to give explanations of the im- when the House divided on the Governpression under which they voted on said ment amendment, which was carried by

MRS. E. O. READ.

HALIFAX, February 1st, 1876.

Feb. 16. tion had been called upon to form a new Government. He would like to April 14.

STOLEN

From the Office or Safe of the Store of the Subscriber on the 28th or 20th of Japuary, a Cash Box or tin Second about 11 inches in length 6 inches in width, and 4 inches deep, the said Box contained when taken some two hundred Notes of Hand of various amounts and dates. Some of said notes were drawn in favour of CHUTE & DUNN. A large number of them payable to H. H. Chute, and a number drawn in favour of other parties and indorsed by them to the value of some 10 or 12 thousand dollars. Also, a large number of old bills of exchange to the amount of some 20 or 30 thousand dollars, but of no value to any person, and also various other valuable papers, the above described Box was used on Friday about 11 o'clock, but was not missed from the Office or Safe in which it was invariably kept until Saturday evening. It is very evident that the Box was taken in the day time as the Safe is in the Office of the Store and invariable locked at night. As also season's Fairs; which proves it to be the the Store locked and barred and had people's favourite and the best family not been broken into.

The Subscriber will pay the sum of one hundred dollars to any person who will return the Box and papers, or to any person or persons who will give such information as will lead to the recovery of said Box and its contents. As the papers are of no value to any other person but are of great value to me H. H. CHUTE.

Stock in good order and well

Hundreds Cured daily in Nova Scotia

DIAMOND RHEUMATIC CURE. Effectively curing hundreds of our Nova Scotia ch as from that terrible malady RHEUMATISM.

This statement is substantially a FACT based upon evidence in the possession of the agent, in the shape of numerous tes-timonials from past sufferers, in the walks of life, and particularly from some of our most respectable and trustworthy fanilies. DIAMOND RHEUMATIC CURE.

In its history, this invaluable Medicine occupies the most honourable position possible for any remedy to attain. A few years since it was known only to the friends and neighbors and patients of the proprietors, and always sought for by them whenever troubled with Rheumatism, and in this way came to the notice of physicians generally, and through their favorable expression, and its acknow ledged value as a Rheumatic Remedy, the demand for it became so frequent and ur-gent as to oblige its proprietors to in-crease their facilities for its manufacture. Its reputation rapidly extended, and soon orders, letters of enquiry, letters of thanks, and certificates of praise were daily received from all sections of the United States and Canada; and in this way on a basis of its merit alone-unaidded by "tricks of the trade" or special efforts-it has risen to its present envious position. Wherever introduced it has received the most flattering preference in the treatment of all rheumatic complaints. In this we are really grateful and happy not alone because our medicine finds ready sale, and is consequently profitable to us, do we say this, but because we open a new field in medical science, and cure at once what the best medical practitioners have for ages found so difficult even to relieve. We fill a place heretofore unoccupied. We relieve the suffering and minister to God's poor; we restore the laboring to the use of his injured limbs, and save him scores of times its cost in doctor's bills; we carry contentment and gladness into the home of the afflicted, and consequently are remembered by millions of grateful souls.

The proprietor of this medicine has walked the aisles of the Hospitals of London, Eng., for the past twenty years, making rheumatism a speciality, and the prescription from which this remedy is all he ever used in the treatment of this

This medicine is for sale at all the druggists throughout Canada. If it happens that your druggist has not got it in stock, ask him to send for it to FORSYTH & CO., Halifax.
