

that Canada occupies towards England, on condition that slavery is retained. The memorial points out that in view of the recent American circular the obstacle is no longer existing which was advanced by Earl Derby last year—that Great Britain's interference in the Cuban question would cause jealousy in the United States.

The London "Times," in its editorial article on American finances, endorses Senator Sherman's proposition looking to a common unit for money and accounts for the United States and Great Britain. This is contrary to an article on the day previous in its financial column.

The reported death of Henry Varley, the English revivalist, proves to be incorrect. He is now believed to be out of danger from an attack of rheumatism of the heart.

A triple collision occurred on the Great Northern Railway near Huntingdon. Accounts are that the Scotch express collided with a mineral train, and that the express from London ran into the debris of the first two. A special train conveying doctors left London for the scene of the collision. Two persons were killed and many severely wounded—before the occurrence of the second collision. In all thirteen persons were killed.

John Bright and his colleagues in Parliament addressed the Liberals of Birmingham on Saturday in opposition to the land policy of the Government.

The people of Dublin have formed a committee to induce the Queen or Prince of Wales to visit Ireland.

FRANCE.—In the French elections seventeen departments were doubtful. 33 decidedly Conservative, 6 Bonapartist, and 16 Republican of all shades. The latest returns show a large Conservative majority. The Bonapartists, however, preponderate in seventeen departments.

TURKEY.—Hubmayer, the leader of the insurrection in North Western Bosnia, has been murdered.

The Montenegrins threaten that if the Porte blockades the frontier with Turkish troops they will consider it a casus belli and will march into Herzegovina.

A Ragusa correspondent of the Times telegraphs there had been two days fighting between Turks and Herzegovinian insurgents, during which 380 of the former were killed. The insurgents lost 100 killed and wounded.

Mrs. S. M. Session, writing from Colorado Springs, Colorado, says: "I have been completely cured of Asthma by using Graham's Pain Expectorant while living in Canada. Since coming here, I recommended it to my niece, living in this town who was afflicted with Scrofula, that settled in her ankle, she became unable to walk, but the use of that valuable preparation cured her completely. Several others have used it with the best results, and it is highly prized here."

THOMAS' ELECTRIC OIL! WORTH TEN TIMES ITS WEIGHT IN GOLD. DO YOU KNOW ANYTHING OF IT? IF NOT, IT IS TIME YOU DID.

There are but few preparations of medicine which have withstood the impartial judgment of the people for any great length of time. One of these is THOMAS' ELECTRIC OIL, purely a preparation of six of some of the best Oils that are known, each one possessing virtues of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power, and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, or any other ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. It contains no alcohol or other volatile liquids, consequently loses nothing by evaporation. Wherever applied you get the benefit of every drop; whereas with other preparations nearly all the alcohol is lost in that way, and you get only the small quantity of Oils which they may contain.

DEATHS.

At Clarence, Jan. 2nd, Maria, beloved consort of Mr. Burton Marshall, aged thirty-six, leaving a disconsolate husband and five children, with many sorrowing friends; she being the third one within 11 months, a brother and sister, all of whom with a loved mother and sister, it was my privilege to bury in the likeness of Christ's death, and raise them in the likeness of His glorious resurrection, upward of nine years ago. Sister Marshall made a public profession of love to Christ and his cause, which she manifested until death with a mild and amiable disposition; with sunshine on her face and words of love and kindness on her lips, she was like a flowing stream of daily comfort and delight to that honoured family. Give the world such mothers and fathers and sin would seem to disappear from the earth. Consumption had for some months marked her as a victim; and she has gone to greet her loved ones above, and to join with them in the song of Moses and the Lamb. —COM. BY REV. N. VIDIRO.

NEW ADVERTISEMENTS.

It Pays! It Pays!! WHAT PAYS?

IT pays every Manufacturer, Merchant, Mechanic, Inventor, Farmer, or Professional Man, to keep informed on all the Improvements and Discoveries of the age. It pays the head of every family to introduce into his household a newspaper that is instructive, one that fosters a taste for investigation, and promotes thought and encourages discussion among the members.

THE SCIENTIFIC AMERICAN

which has been published weekly for the last thirty years, does this, to an extent beyond that of any other publication, in fact it is the only weekly paper published in the United States, devoted to Manufactures, Mechanics, Inventions and New Discoveries, in the Arts and Sciences.

Every number is profusely illustrated and its contents embrace the latest and most interesting information pertaining to the Industrial, Mechanical, and Scientific Progress of the world; Descriptions, with Beautiful Engravings, of New Inventions, New Implements, New Processes, and Improved Industries of all kinds; Useful Notes, Receipts, Suggestions and Advice, by practical Writers, for Workmen and Employers, in all the various arts, forming a complete repository of New Inventions and Discoveries; containing a weekly record not only of the progress of the Industrial Arts in our own country, but also of all New Discoveries and Inventions in every branch of Engineering, Mechanics, and Science abroad.

THE SCIENTIFIC AMERICAN has been the foremost of all industrial publications for the past thirty years. It is the oldest, largest, cheapest, and the best weekly illustrated paper devoted to Engineering, Mechanics, Chemistry and Industrial Progress, published in the World.

The practical receipts are well worth ten times the subscription price. And for the shop and house will save many times the cost of subscription.

Merchants, Farmers, Mechanics, Inventors, Engineers, Manufacturers, Chemists, Lovers of Science, and people of all Professions, will find the SCIENTIFIC AMERICAN useful to them. It should have a place in every Family, Library, Study, Office, and Counting Room; in every Reading Room, College and School. A new volume commenced January, 1st, 1876.

A year's numbers contain 832 pages and several hundred Engravings. Thousands of volumes are preserved for binding and reference. Terms, \$3.25 a year by mail, including postage. Discount to Clubs. Special circulars giving Club rates sent free. Single copies mailed on receipt of 10 cents. May be had of all News Dealers.

PATENTS.

In connection with the SCIENTIFIC AMERICAN, Messrs. Munn & Co. are Solicitors of American and Foreign Patents, and have the largest establishment in the world. More than fifty thousand applications have been made for patents through this agency.

Patents are obtained on the best terms. Models of New Inventions and Sketches examined and advice free. A special notice is made in the SCIENTIFIC AMERICAN of all Inventions Patented through this Agency, with the name and residence of the Patentee. Patents are often sold in part or whole, to persons attracted to the invention by such notice. Send for pamphlet, containing full directions for obtaining Patents. A bound volume containing the "Patent Laws, Census of the U. S., and 142 engravings of mechanical movements." Price 25 cents.

Hundreds Cured daily in Nova Scotia

DIAMOND RHEUMATIC CURE.

Effectually curing hundreds of our Nova Scotia citizens from that terrible malady, RHEUMATISM.

This statement is substantially a FACT based upon evidence in the possession of the agent, in the shape of numerous testimonials from past sufferers, in the walks of life, and particularly from some of our most respectable and trustworthy families.

DIAMOND RHEUMATIC CURE.

In its history, this invaluable Medicine occupies the most honorable position possible for any remedy to attain. A few years since it was known only to the friends and neighbors and patients of the proprietors, and always sought for by them whenever troubled with Rheumatism, and in this way came to the notice of physicians generally, and through their favorable expression, and its acknowledged value as a Rheumatic Remedy, the demand for it became so frequent and urgent as to oblige its proprietors to increase their facilities for its manufacture. Its reputation rapidly extended, and soon orders, letters of enquiry, letters of thanks, and certificates of praise were daily received from all sections of the United States and Canada; and in this way on a basis of its merit alone—unaided by "tricks of the trade" or special efforts—it has risen to its present enviable position. Wherever introduced it has received the most flattering preference in the treatment of all rheumatic complaints. In this we are really grateful and happy, not alone because our medicine finds ready sale, and is consequently profitable to us; but we say this, because we open a new field in medical science, and cure at once what the best medical practitioners have for ages found so difficult even to relieve. We fill a place heretofore unoccupied. We relieve the suffering and minister to God's poor; we restore the laboring to the use of his injured limbs, and save him scores of times its cost in doctor's bills; we carry contentment and gladness into the home of the afflicted, and consequently are remembered by millions of grateful souls.

The proprietor of this medicine has walked the aisles of the Hospitals of London, Eng., for the past twenty years, making rheumatism a speciality, and the prescription from which this remedy is all he ever used in the treatment of this disease.

This medicine is for sale at all the druggists throughout Canada. If it happens that your druggist has not got it in stock, ask him to send for it to
