EDUCATIONAL RECORD.

The Detroit Methodist Episcopal Conference, at its late session, adopted a report and resolutions declaring that there are influences at work tending to drive Christianity from the Michigan State University, and calling attention to the fact that the University Hall is used for dancing. A religious paper of the State remarks on the case thus; "The christian sentiment of the State is overwhelmingly opposed to dancing, and especially to dancing in such conditions as must prevail at the Universi-We have not only sons, but rom their homes. for he sengers the Lord of a greth; Af a Social Science Conference, which met recently, some surprising facts respecting the social condition of some of the older States of the Union were presented. It was reported, on good authority, that crime has more than doubled in Massachusetts in the past ten years. The proportion of crime to population in that State is said to be 33 per cent. higher than it is in Ireland, and life and property are more insecure there than in Italy, where nearly twenty millions of the people can neither read nor write. paper, read at this Conference, on the Social Task of the second century of the United States, in speaking of the disturbances which agitate American society, says, that it is vain to hope than an increase of wages, or a shortening of the hours of labor, would restore peace and harmony. There are other causes of the dissatisfaction. It is the conflict between belief and unbelief, between idealism and materialism, between independence and dependence individualism and communism, which is revolutionizing the time. In this connection, we may call attention to an extract from the N. E. Journal of dues, board and lodging - in fact, Education, referring to the same general subject. "Our best teachers and superintendents are everywhere asking, Is it our fault that every great city of the Union is filling up with a mob of reckless and wicked boys? The "Hoodlums" of San Francisco; the "Modocs" of Springfield; the young fellows who were the rank and file in the draft riots in New York ; the youngsters down South who are now learning the fine art of shooting little negroes; the crowds of wild, "loud," unmanageable girls, that scare old-fashioned mammas out of their propriety;—these are phenomena which send the thoughtful schoolmasters and mistresses back on their own reflections. It is a matter worth thinking of, that the city in Massachusetts which boasts the highest per cent. of attendance on public schools in the country, last summer, armed its police to protect the people from the depredations of a swarm of young ruffians, who made night hideous in its streets."

The students will be encouraged to engage in those games and manly exercises which are such a distinguishing feature of English public school and University life. About ten acres of ground are attached to the Gollege, and it will therefore be easy to make proper provision for out-door sports of all kinds.

MIDDLETON, N. S. DEAR SIRS, For the benefit of all concerned I make the following statement: About 3 years ago I was seized with a severe pain in my arm which lasted several days, and then settled in my wrist Autumn Goods, several days, and then settled in my wrist leaving my arm entirely useless for at least six months, during this time I was under the doctor's treatment.but all to no purpose. And strange as it may appear I dreamed that your agent in Wallace had medicine in his store, that would cure my arm, I asked my husband to go and see, he went, and brought home one bottle of "Gates' Life of Man Bitters No. 2," and one of Gates' Acadian Liniment with immediate results two bottles of each made a perfect cure. During my trouble with my arm my general health was much impaired, appetite gone, and notwithstanding all the prejudice against patent medicines I must not only praise it, but also recommend it to an afflicted public for I consider it providential that I found such medicine.
