BEINGIOUS INTELLIGENCE.

Last Thanksgiving day was one of disappointment to me. I had proposed, First, to lead some young people, recently received, into the baptismal waters, and afterwards to have taken part in the opening services of the Granville Street Baptist Church new vestry; but, instead thereof, the day was spent anxiously watching the sick.

I would mention this, to show that it was not lack of interest or sympathy kept me away from the opening. And also, to express my thankfulness for God's continued mercy in adding to the church, and in restoring rapidly to health my dear wife.

At the dinner on Lord Mayor's day, in response to the toast to Her Majesty's ministers, Lord Beaconsfield made an elaborate speech, explaining the effor of the Government for the maintenance of peace during the past year. He said in these efforts the Government had been guided by the principle of maintaining the independence and territorial integrity of the Ottoman empire, which were guaranteed by the treaty of Paris. He upheld this principle as the best adapted to secure the peace of the world. He said in conclusion: "I am hopeful that in the present temper of Europe we shall be able to accomplish these results without those terrible appeals to war of which we have heard so much. We have nothing to gain by war; we covet no cities nor provinces. Our proudest boast is that the British Emproudest pire subsists as much upon sympathy as force; but if a struggle should come, it must be remembered that there is no country so well prepared for war as England, because there is none whose resources are so great in a righteous cause; and I trust England will never embark in war except in such a cause—a cause which concerns her liberty or em pire. England is not a country which will have to enquire whether she shall enter into a second or third campaign if she commences she will not finish until the right is done." To minha an

Oct. 18. THE GREAT SHOSHONEES REMEDY AND PILLS.—The success that these medicines

have met with since their introduction to the public some years ago, proves plainly to the most skeptical that the are medicines that perform what the are advertized to. The virtues of these medicines have been well tested and have withstood their trial in a most satisfactory manner. For diseases of the Blood, Liver, Lungs, &c., they are unsurpassed. We have testimonials of miraculous cures of these diseases, and of many others. If any one is afficted let him try a bottle of the Remedy and a box of Pills. No injurious effects will follow their use to the most delica person, as they are purely vegetable there being no mineral matter in them. The cost is small, while the advantage derived from their use will doubly repay you for your expense and trouble. The medicines are widely known through and other denominations, at home and out the Dominion, and are for sale by the principal medicine dealers. Try in other places, who have in any way the principal medicine dealers. Try rendered us assistance. In behalf of them, and be convinced that they are no humbug. No one who tried the Shesho nees Pills has ever pronounced an unfavorable opinion of them, no family where they have been used will be with out them.
