CATARRH

CANNOT be cured by Snuffs, Washes, or Local Applications. Thousands of cases of Catarrh of the Throat, Larynx, and Bronchus, have been entirely cured by CONNOR'S CATARRH REMEDY.

Mr. T. J. B. HARDING'S CASE.

Dear Sir,—Being desirous that others may know something of the merits of your CONNOR'S CATARRH REMEDY, I wish to inform you what it has done for me. I am 59 years old, had been out of health for about five years. I had employed three or four different doctors, and tried various medicines, without receiving any permanent benefit.

AGRICULTURE.

HOW TO GROW POTATOES.—Certain German scientific men have been experimenting on the growing of potatoes. The principal conclusions to which the sages have come seem to be two in number. The first of them is that the vigour of the potato plant is always in direct proportion to the weight of the tubercle used for sets—a theory which certainly finds some support in common-sense alone, considering the young shoots for some time draw their sole nourishment from the mother potato.

THE KESWICK CODLIN has been shown by Charles E. Brown, Esq., of Yarmouth, to be the hardiest and most productive Apple in the coast County of Yarmouth. It bears "early" and "always" and is one of the very best Apples for the kitchen, for sauces, pies, &c.

VARIETIES.

CATCHING A TARTAR.—Governess: "Do you know, Earnest, that I heard of a little boy, not older than you, who can read and write well, and who has begun Latin"—Earnest: "Oh I say, what a jolly good teacher he must have!"

Johnny lost his knife. After searching in one pocket and another until he had been through all, without success, he exclaimed, "Oh dear! I wish I had another pocket, it might be in that."

A book agent, the other day, talked half an hour to induce a lady to buy a book. She handed him a slip of paper, on which was written, "I'm deaf and dumb."

"Why, Jimmy," said one professional beggar to another, "are you going to knock off already? It's only two o'clock." "No," responded the other, who was engaged in unbuckling his wooden supporter, "I am only going to put it on the other knee. You don't suppose a fellow can beg all day on the same leg, do you?"

The following announcement appeared recently in an English paper: "St. James's Church—On Saturday next the afternoon service will commence at half-past three, and continue until further notice."

A bill legalising marriage with a deceased wife's sister has been passed by the Legislature of Natal, and approved by the Lieutenant-Governor of the colony.

Eagles fly alone, but sheep flock together.

SCIENCE.

MEDICAL HARMONY.—A late number of the Lancet contains an article on the healing of differences between the old allopathic and new homeopathic schools, which is significant of a great change in medical opinions and the possible future fusion of the two schools.

MARRIAGE AND LONGEVITY.—Great longevity is often observed in people who have been married not much but many times, while old bachelors and old maids but rarely attain extreme old age.

DISINFECTANT.—A few kernels of browned or a spoonful of ground coffee smouldered on coals in a sick room or musty room will purify it in a few minutes and for a long time.

LOCAL TEMPERATURE OF THE BLOOD.—From researches made by Claude Bernard, it appears that while the temperature of the blood in the aorta and its more important branches is uniform, that of the venous blood varies considerably in different regions of the inferior vena cava and its principal tributaries.

A baker of Great Bridge, England, has been fined £25 and costs for adulterating bread with alum.

The specific gravity of pure butter at 100° varies from 905 to 910. Butter under 904 is looked upon with suspicion.

DIAMOND RHEUMATIC CURE.

In its history, this invaluable Medicine occupies the most honourable position possible for any remedy to attain. A few years since it was known only to the friends and neighbors and patients of the proprietors, and always sought for by them whenever troubled with Rheumatism, and in this way came to the notice of physicians generally, and through their favorable expression, and its acknowledged value as a Rheumatic Remedy, the demand for it became so frequent and urgent as to oblige its proprietors to increase their facilities for its manufacture.
