

TO THE PUBLIC.

READ WHAT THE PEOPLE SAY IN REGARD TO THE GREAT SHOSHONEES REMEDY & PILLS. —Levi Jones, Markham, says I had a very severe attack of Bronchitis. I was so bad that I could hardly get my breath. I sought for a quick remedy, and seeing the "Shoshonees Remedy" so highly recommended, I procured a bottle, and am happy to say, that by the time it was taken, I was entirely well and have remained so although, I was much exposed through the winter in travelling. Rev. F. B. Stratton, Demorestville, writes—"I have found your remedies particularly beneficial for liver complaint dyspepsia and bronchial affections, and would advise all similarly affected to give them a trial. John Finlayson, Athol, says—"When travelling one of my feet sore and broke out. I could not cure it and had to return home. It became better and afterwards much worse. I finally purchased a bottle of the "Remedy" and a box of "Pills," and before they were half gone I commenced to improve, and before they were finished my foot was completely cured. It is now 17 months since, but I have had no further attack. Price of the remedy in pint bottles \$1; Pills 25 cents a box. Feb. 28. 1m.

DOMINION & FOREIGN NEWS.

DOMINION OF CANADA.—On Tuesday the 27th, a bill to authorize the transfer of the Truro and Pictou branch of the Intercolonial Railway to the company constructing a line from New Glasgow to the Strait of Canso and providing a proper ferry across the Strait was read a second time. After recess the bill amending Customs laws was gone through in committee and read a second time. After a long debate the bill providing for inspection of steamboats was read a third time and passed. The examinations before the Coal Committee brought forth various information concerning the comparative expenses of carrying them from Nova Scotia and the United States. Mr. Conger, coal dealer of Toronto, said the price of United States coal was \$3.80 on board vessel at Cleveland, with freight and wharfage added. In 1873 he paid \$4.25 f. o. b. for United States coal. Last year he purchased the same quality of coal for \$2.60.

Mr. Dwan, of Toronto said that Nova Scotia coal would come to \$3.76 per ton in dock at Toronto. He bought five cargoes of Nova Scotia coal in 1871, and sold it at higher prices than United States coal. It was superior to Massillon or Brior Hill coal. It cost no more in Toronto than United States coal. He thought at present Nova Scotia coal could be placed in vessel at Toronto for \$4 per ton. He did not think a duty of 50 cents a ton on United States coal would effect the coal trade between Ontario and Nova Scotia, unless return freights were obtained.

Mr. Bowman, of London, Ont., said he used United States coal, entirely, and was opposed to a duty on United States coal, as it would increase prices to Western consumers without corresponding advantages.

The ice bridge opposite Montreal continues safe, though fewer people use it since the heavy thaw set in.

An action for libel has been entered in the courts in which two prominent Methodists are concerned, arising out of matters of church discipline.

An unusual and successful surgical operation has been performed on a lady in Montreal to cure epileptic fits, namely, the excision of a portion of the spine.

At the convocation of McGill University of Law and Medicine, on Thursday last, among the M. D.'s who graduated were—Albert Boyle, of Charlottetown; and J. A. F. Gillis, Summerside, P. E. I.

An Ottawa despatch to the Reporter on Saturday last said:—Printed correspondence will be laid before the Senate on Tuesday, in reference to the purchase of lands for the Pacific Railway terminus at Kamistiquie river. The Government have paid for lands there over 51,000 dollars to their friends, or an average of nearly five hundred dollars per acre. The place is a miserable swamp, and was recently sold for fifty cents per acre.

A boy named Thompson was drowned at Point St. Charles, near Montreal on Saturday, while trying to jump over an opening in the river.

Mr. Cotton, chief clerk in the Governor-General's office at Ottawa, fell dead in his own house on Friday. Heart Disease is said to have been the cause.

UNITED STATES.—A Washington despatch says that "the Fisheries Commission under the Treaty of Washington meets at Halifax early next summer. Hon. Eugene Kellogg is the United States Commissioner; Sir A. T. Galt, British Commissioner; and the Austrian Minister at London, as authorized by treaty, has appointed Monsieur Maurice Delfosse the third Commissioner. The Canadians expect a large sum for their fisheries or to secure a reciprocity treaty with the right to navigate the Hudson River."

A member of the Louisiana delegation had an interview with the President on Thursday last, when the latter said the people of Louisiana supporting Nicholls must have patience and everything would come out right in the end.

The Commission to examine into the political situation of the South, is com-

posed of the following gentlemen:—Judge Charles B. Lawrence of Illinois; ex-Governor J. C. Brown, of Tennessee; General Joseph R. Hawley, of Connecticut; General John M. Harlan, of Kentucky, and Wayne McVeigh, of Pennsylvania.

The Treasury Department prohibits the importation of meat, cattle or hides from Germany, England, Ireland, Holland and Belgium, into the U. States, consequent upon the prevalence of rinderpest and foot and mouth disease.

One hundred and thirty millions of new 4 1/2 per cent. United States loan have already been taken, more than half in Europe.

A Washington despatch says it is very evident that the end of existing troubles in South Carolina is at hand.

It has come to light that fifty-eight teamsters discharged from the United States army were massacred in cold blood by the Mormons in 1858, soon after the Mountain Meadow tragedy.

The Reading Railway Company has determined not to employ members of the brotherhood of locomotive engineers.

Revenue Collector Patterson was wounded, and two of his officers killed, by illicit distillers in North Carolina.

A tenement house at Rhine Cliff, N. Y., was maliciously fired under the stairway, on Friday night. Mrs. Burns and four children were burned to death.

The high tides and spring freshets have done great damage in many places. On Tuesday of last week, the reservoir dam at Staffordville, Connecticut, broke, sweeping away everything along the valley for several miles. Numerous buildings were swept away, including the Church, the Home Insurance Building, the National Bank, the Railroad Freight Depot, many bridges and three miles of the railroad track. Staffordville is a large woolen and cotton manufacturing town, and the damages to factories, with loss of water power until the reservoir is rebuilt, involves serious suffering to a great number of operatives. The loss of property is estimated at a million dollars.

It is reported that Lord Dufferin, Governor-General of Canada, whose term expires in August, will succeed Thornton as British Minister at Washington.

ENGLAND.—The House of Commons has adjourned to April 7th.

The Post speaks hopefully of reaching unity of purpose by England and Russia on the Eastern question.

The Times, reviewing the situation, says:—"When we see how our Government does nothing, promises nothing, and exhibits only distrust and condemnation of Russia by restricting itself to the faintest phraseology in which an arrangement can be couched, we cannot wonder that negotiations are interrupted."

A Vienna despatch says Ignatieff expresses himself with much bitterness at what he styles the prejudice and false traditions of the policy of Great Britain. The Conference cannot end in smoke, he says, and the sole question is whether its decisions are to be enforced by Europe or Russia alone. To a remark that he wanted Constantinople, he replied that Russia would not accept that city were it offered to her on a gold dish.

Probably England, France and Italy will shortly return their ambassadors to Constantinople, or accredit special envoys provisionally. Austria has also intimated her intention of doing the same.

The London Post expresses a growing confidence in a peaceful solution of the question.

A majority of students at Glasgow University have signed a declaration, setting forth their desire of Gladstone's election to the Rectorship.

Lord Beaconsfield and a majority of Ministers left London, after Wednesday's Cabinet Council.

Advices from Ceylon say the aspect of threatened scarcity is daily becoming more grave.

TURKEY.—The London Globe of Thursday last has the following from one of its principal Ambassadors abroad warning it to prepare for immediate war. In consequence of this the Turkish iron-clad fleet is recalled from the sea of Marmora, and ordered to the mouth of the Euxine.

Egypt sends two million cartridges and promises troops to Turkey. Tunis also sends arms and money.

RUSSIA.—A despatch from St. Petersburg on Friday last says: "On Monday Lord Loftus, British Ambassador, had a stormy interview with Gortschakoff. The latter used very energetic language relative to England's refusal to make any advances towards a peaceable solution. On Wednesday morning a better feeling prevailed, for a telegram was sent in which Russia made another step towards concession. The telegram authorized Schouvaloff to embody Russia's promise to disarm in memorandum, which memorandum may, if necessary, be read in Parliament. The following are the conditions attached to the promise—That the Porte make peace with Montenegro; accept the protocol and send an ambassador to St. Petersburg to arrange the matter of demobilization. Schouvaloff communicated the foregoing to Lord Derby on Wednesday."

Ignatieff is greatly impressed by the decided attitude of Austria, supported by such powerful means of action.

A Pera despatch on Friday last said the Montenegro delegation will to-day ask Turkey for the last time to cede Nisic.

The St. Petersburg Vendomas declares

the protocol the beginning of the demobilization. Russia cannot disarm unless convinced she will not have to arm again; war may not be immediate, but it is inevitable.

AUSTRIA.—A Vienna despatch says all measures are being taken there to mobilize, in case of need, 220,000 men on the frontier in a fortnight, to be followed by another 22,000 a fortnight afterwards.

GERMANY.—A Berlin despatch says it is understood that Bismarck, at yesterday's interview with Ignatieff, engaged to support Russia's fresh proposal.

ITALY.—A despatch from Rome says that the Pope is so feeble that he has to be carried from one room to another.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effective for preserving the hair. Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

JOYFUL NEWS

FOR THE AFFLICTED.

DR. GATES. DEAR SIR:—This is to certify that in the autumn of 1872 I had a severe attack of spinal disease. I applied to several physicians for medical assistance but could obtain no permanent relief from any of them. For six months I suffered day and night every thing but death. I was then advised by friends to resort to your valuable medicine, I did so and after taking seventeen bottles of your

LIFE OF MAN BITTERS, &c. I was as well as ever. I have had no symptoms of the disease since, and can now perform my work better than before I was sick. I am thankful to God that he made your medicines an instrument in his hands of restoring my health. Yours very respectfully, MRS. ISRAEL CHAMBERS. St. Croix, N. S., Dec. 4th, 1876. Jan. 24.
