For the Christian Messenger. Notes from the Third Baptist Church.

Brethren, our plans are prepared and will be submitted for tenders during Baptism," (or Sprinkling.) They bethis week. We mention this, for now is the time to speak a word of encouragement. Will you vote for the erection of a neat and commodous vestry, to serve till our needs and enlargement justify a greater expenditure? We propose to build 50 by 100, this will allow a lecture-room 64 by 46, besides classrooms and other conveniences, it is to be not less than 14 feet in the clear, so that with good ventilation, etc., we shall be able to push forward the work therein for some time to come, with increased accommodation for the congregation, and opportunities for church extention and work.

We intend to put our baptistry in the basement for the present, and only to carry the building one story high.

If you are for advancement and progress in the good work, please send your vote and scrip, either to the Pastor or the Treasurer.

We are thankful for the sum of \$9.07 a collection taken at the Granville Street Church. But of donations we hope to speak in future, and also of Dr. Clay's able and instructive talk about the Lord's work in Boston, given on Sunday last in College Hall. And would now just wish to call attention to our special Conference Meeting Good Friday afternoon and evening. And to our Tea Meeting, etc., which is to take place on Easter Monday.

RELIGIOUS INTELLIGENCE.

ADVOCATE HARBOR, March 20th, 1877 Dear Brother Selden,-The visits of the Christian Messenger are very cheering of late, especially as they bring the intelligence of prosperity among the churches. Every christian heart is gladdened as the tidings come of souls being led to rejoice in hope of the glory of God. Every Christian will be incited to make earnest, believing effort for the salvation of souls as he learns that God is blessing the efforts of others and is making them successful in leading souls to Christ. Oh, that it may please our Heavenly Father to give a large increase to the churches this year; of such as truly believe in Christ! He will, if the churches but awake to duty, and believingly put forth scriptural effort for the salvation of souls. Let God's children arise in the name and strength of the Lord! Let them expect a rich harvest of souls! God will not disappoint the expectations of His people. One of the secrets of success in laboring for Christ is to expect success -and to expect it now. "Now is the day of salvation." Let us expect salvation now.

We have been gladdened in this part of the country of late by seeing souls deeply interested in the great things of God. Many have been led to cry "What must we do?"

spend several days at Eatonville in the Hebron Church. making special effort for the salvation of souls. Quite a number were interthings of Christ, and several were led to now thought to be recovering.

avow their attachment to the Saviour. Three heads of families were baptized on profession of faith in Christ-others will, doubtless, soon follow.

You will be glad also to learn that in Lord is blessing the efforts of his children and is leading large numbers to see their lost or else backslidden state; and to say-"I will arise and go to my Father."

I had the privilege of baptizing two happy believers a week or two since, in this place, and expect to see others fol. lowing the Lord's example and obeying His command before long. The old and grey-headed as well as the young are being enabled to rejoice in Christ.

The Methodist brethren in the Harbor united with us in our efforts to lead sinners to the Saviour-and quite a number have been received into the Methodist Society. Others also will unite with them. The community is very largely Methodist in sentiment. But I believe the time has come in this whole country when the people are beginning to study the New Testament more carefully on the ordinance of Believer's Baptism, and I am confident that a careful study of that book will lead many-very many to see and acknowledge Immersion as the only Christian baptism.

I talk with many who, though they are not yet Baptists, will say very candidly that they do not believe in " Infant lieve that immersion is baptism; bu they think that "sprinkling will do."

When will the professed people of God learn to inquire, What does God say? rather than What do we (or I) think?

When the New Testament, alone, is consulted in order to learn who are the subjects and what is the mode of Christian Baptism, there will be very large ingatherings into the Baptist Churches. The Lord hasten the day when all Christians and Christian ministers will learn that the New Testament is the only reliable text book on Christian Baptism. Then will the public be delivered from the pitiable spectacle of seeing a Christian pastor directing his congregation to such passages as Ezekiel xxxvi; 25, as the best authority he can find in the word of God for Christian Baptism.

> Yours very truly, J. F. KEMPTON.

NEWPORT, March 20th, 1877 .- DONA. TION AND REVIYAL.—On the evening of the 16th inst. my friends of Newport met in the hall at the Village and presented me with the sum of \$28.22 in cash (with other articles of value.) This with a present of \$18.00 which was presented to me a few weeks previous by Mrs. J. Walley, in behalf of some of the sisters in the church, amounts to \$46.22. May God reward all those kind friends who have given so cheerfully.

It may be right to add that God has been pleased to revive his people at have been converted.

Bro. M. Brown, from Rawdon, was with us some days and baptized six believers. These with two who were received by letter have been added to the church since I came here last fall. "O Lord continue Thy loving kindness to us," is our prayer.

THE SABBATH.—An Association has just been formed in France for the promotion of the better observance of the Sabbath. Its motto is: "France will only be saved by a return to the sanctification of the Sunday." The fact that France tried the experiment of dispensing with Sunday observance, gives especial sigificance to the present movement. The results of the experiment and the sentiment of the motto of the new society, may be commended to those who are endeavouring to break down the Sabbath institution in America.

HOUSE OF ASSEMBLY.

Tuesday the 20th, was occupied almost wholly in discussing a point of order as to which of the two adjourned debates, that on Maritime Union, or that on Mr. Holmes' motion censuring the expenditures of the Government, should have precedence.

Mr. Gayton presented a petition from the Temperance League against the appeal of the law requiring new petitions for licenses each year as regards the city of Halifax. He added that a copy of the original petition, for the passage of the law, signed by the Bishop of Nova Scotia, the late Archbishop of Halifax and twenty-one other clergymen, besides about one thousand others, was appended.

Mr. Longley said the hon. member had omitted to mention one important name on that petition, that of the hon. Premier of this Province.

On WEDNESDAY His honor the speaker gave his decision on the point of order, deciding that the debate on Maritime Union had precedence over that on Mr. Holmes' motion of Monday. The usual routine business was dis-

posed of. And Mr. Holmes said, in view of the decision of the Speaker, he intended to offer another amendment to the resolution to go on with the adjourned debate

on Maritime Union. Hon. Prov. Sec. opposed the motion. and a lively discussion followed. Mr. Holmes subsequently offered the

following : the said to said the said office Whereas, The finances of this Province are not in a satisfactory condition, and this House has not taken any step

to remedy the evils manifestly existing: Therefore Resolved, That it is inexpedient to pass at the present time the resolution now before the House in regard to the Maritime Provinces.

Mr. Weeks made some brief remarks and moved the following:

" Resolved, That the resolution now before the House on the Maritime Union be amended by adding the following words, after the words "next session of the Legislature," that is to say, that said delegates give their services on such delegation gratuitously, and that the sittings of the said delegates take place at Halifax or some other convenient place

in the Province of Nova Scotia." Some parties wishing for evening sittings the House after discussion it was decided in the negative.

On THURSDAY, the adjourned debate on Maritime Union was resumed. In the course of the debate Hon. Pro. Sec. said if the three provinces were to appoint delegates, as the resolution contemplated, they must meet somewhere, and why not in Halifax as well as anywhere else? With regard to the comparison drawn by the hon. member for Annapolis between the financial condition of New Brunswick and Nova Scotia, he might state that, in the first

place, he denied that this country was in debt or in a condition approaching bankruptcy. It was true, as he stated in laying the financial returns on the table, that a balance was due the banks at the end of the year, yet there were assets exceeding what the province ewed, and when he came to submit the estimates he would be able to show conclusively that the province was not in such an embarassed condition as the members supposed. At the same time we must look forward to a curtailment of our revenue from causes altogether beyond our control, though he would be able to show that we could still carry on all the services of the country, not on so large a scale, perhaps, but with the same efficiency.

Mr. Longley said he must invite attention to the fact that while Nova had to face a deficit of \$122,000, New Brunswick was able to boast of a surplus of \$47,000 for the year, in addition to the surplus of \$81,000 from the previous year, made the handsome sum of \$128, 000. After a year or two of economy we might be able to treat with the other Provinces on equal terms, but as we stood now we would have to make large concessions. It was true the Attorney General of New Brunswick had expressed himself in general terms in favor of union, but general terms did not signify

much. Mr. Weeks asked the Hon. Pro. Sec. whether the Province of New Brunswick had passed any resolution authorizing the appointment of delegates on the subject of Maritime Union.

Hon. Prov. Sec. said none that he was

aware of. Mr. Weeks asked whether Prince Edward Island had taken any action upon the subject.

Hon. Pro. Sec said not so far as he was aware. The Legislature of the Island was now in session.

On FRIDAY after some discussion of Halifax finance bills, City Hospital,

Lunatic Asylum &c., The Maritime Union discussion was resumed. Several members stated that they did not undertand that the question of Union was before the House.
