It would be well, also, not to say much at present about the sanctity of a vote of the Convention. It has been pretty well understood for years, that if the Convention voted to do anything, that was the particular thing that would not be done. The decrees of the Convention have been pretty much | my people on the 30th of Jan. amounting like a lot of skittles set up to be knocked down, and the man, whether in the minority or the majority, who could make the best stroke in bowling at them, has been called the best fellow. EDUCATIONAL MEETING AT TRURO. Dear Bro .- A very pleasant, and think, profitable meeting, was held in the Baptist Church, Truro, on Tuesday evening, the 3rd inst., to bring before our people the scheme for raising the New Endowment of one hundred thousand dollars to Acadia College. these Provinces must have been filled with the conviction, that in the best exercise of their judgment, God in his providence had placed an open door before them. If we shall work our resources according to the divine call, we shall enter into our rightful possession, and none will be able to dispossess us or our children. By a singular course of events, not of our designing or wishing, a question touching our College has arisen, and it has discovered a family interest in all our people. At the same time, the College seems to be placed in pecuniary circumstances, which call us to determine the limits within which to arrange and develop our work. If, during the coming four years, any Baptist should manage to preserve indifference, or make himself believe that other higher educational work is of more importance, he will sooner or later regard himself as having been made the prey of perilous illusions.

BAZAARS are by some people looked upon with suspicion, as if there were something very objectionable in everything called by that name. This has doubtless arisen from the manner of conducting some of them, by introducing lotteries in the shape of grab-bags, This one, all important Endowment ring-cakes, &c., &c., and asking prices for articles very far beyond their actual value. Some people are consequently scrupulous about joining in efforts of this character to raise funds for religious or benevolent purposes, lest they should be supposed to countenance what is questionable or improper. It has been said that such things cannot be carried on successfully without these auxil-Briar Island to Cape North, from Grand liaries. Then, up-stairs, the Picture Gallery was a fine collection of valuable pictures, with a number of other striking and curious illustrations of art, making it altogether a really enjoyable affair, without any of the objectionable features often complained of. We are glad to learn that, notwithstanding the weather was unpleasant, the proceeds amounted to about \$500. The unity of effort, too, on the part of those who aided in this matter, was worth to each one all and much more than it cost.
