

ment of the recent arbitration award. A strike would directly affect 30,000 to 40,000 men, and involve the stoppage of the Cleveland iron industry.

Earl Russel has notified the House of Lords of a motion that England cease all diplomatic intercourse with Turkey, on the ground that the nation is still barbarous and unworthy to rank among the enlightened people of Europe.

The proprietors of English coal mines have resolved to import cheap labor from China.

The Alexandra Palace, London, was put up for sale on Saturday. The highest bid was £445,000. No sale.

FRANCE.—Owing to the depressed state of the silk market, workmen of Lyons are suffering for the necessities of life. The Chamber of Deputies promises relief to 40,000 idle workmen in Lyons alone.

GERMANY.—Forty thousand miners are unemployed in the mining districts of Germany. There is great suffering.

INDIA.—Fifty persons were killed and one thousand wounded by a gunpowder explosion in India.

TURKEY.—The Sultan issued a decree last week, appointing Edhem Pacha general Vizier and making other changes in the ministry. He then sent an aid-de-camp to notify Midhat Pacha of his dismissal, and request him to repair to the palace. From thence he was immediately conveyed aboard the imperial yacht, which sailed for the Mediterranean with orders to land him beyond Turkish territory.

A despatch from Constantinople to the *News*, says:—Midhat Pacha has long been opposing the Sultan who desired to yield and make concessions to the Conference. His removal is in every way desirable. Edhem Pacha's appointment will be conducive to conciliation. Midhat Pacha was banished for conspiracy. Letters found disclosed that 3,000 Ulemas were to have gone on Monday night to the palace to demand the abdication of the Sultan. The fall of Midhat will check no reforms, the Sultan being determined to carry out the constitution.

The British man-of-war Bittern, about to quit Constantinople, has been detained by the charge d'affaires for the protection of foreign residents.

Telegrams are conflicting as to the probable effect of the crisis on Turkey's foreign relations. The *Standard's* Berlin despatch says the change is considered preliminary to the re-opening of relations with Russia and the signatory powers. On the other hand it is asserted that the Russian army has received orders to advance and will cross the Pruth within a few days.

It is reported that Bashi-Bazouks have recommenced their raids into Roumania.

A Belgrade despatch says the question of peace or war hangs upon the relative strength of the influence exerted in Belgrade officially and unofficially.

Four thousand men left Belgrade on Thursday for Gladova.

The Servians are concentrating all their forces in that quarter.

Russia.—Vienna despatches state that the Czar is going to Kisheneff.

Four additional corps d'armee will be mobilized; in fact their trains are now en route to Jessy where they make their headquarters.

A cable despatch says a formidable Russian iron clad squadron will enter the Mediterranean in the Spring. The Grand Duke Constantine will command and Admiral Popoff will be the chief of staff.

WHAT THEY SAY OF IT! A FEW FACTS FOR THE PEOPLE.—There are but few preparations of medicines which have withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Electric Oil. Read the following and be convinced:—Thos. Robinson, Farnham Centre, P. Q., writes,

"I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Thomas' Electric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Shefford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Thomas' Electric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds etc., and think it is equally as good for horse as for man."—A. Maybee, Merchant Warkworth, writes, "I have sold some hundreds of bottles of Electric Oil, and it is pronounced by the public, 'one of the best medicines they have ever used'; it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Rusan, Township Percy, writes, "I was persuaded to try Thomas' Electric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for lameness. It is a great public benefit,"—A. M. Hamilton, Warkworth, writes, "For weeks I was troubled with a swelled ankle, which annoyed me very much. Mr. Maybee of this place induced me to try Electric Oil, and before one bottle was used I was cured. It is a most remarkable medicine.

## THE LIGHT RUNNING ROYAL AGAIN TRIUMPHS.

## Ayer's Cathartic Pills.

For all the purposes of a Family Physician, and for curing Costiveness, Jaundice, Indigestion, Foul Stomach, Breath, Headache, Erysipelas, Rheumatism, Eruptions and Skin Diseases, Biliousness, Dropsey, Tumors, Worms, Neuralgia, as a Dinner Pill, for Purifying the Blood,

Are the most effective and congenital purgative ever discovered. They are mild, but effectual in their operation, moving the bowels surely and without pain.

Although gentle in their operation, they are still the most thorough and searching cathartic

medicine that can be employed: cleansing the stomach and bowels, and even the blood. In small doses of one pill a day, they stimulate the digestive organs and promote vigorous health.

AYEN'S PILLS have been known for more than a quarter of a century, and have obtained a world-wide reputation for their virtues. They correct diseased action in the several assimilative organs of the body, and are so composed that obstructions within their range can rarely withstand or evade them.

Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases that have baffled the best of human skill.

While they produce powerful effects, they are, at the same time, the safest and best physic for children. By their aperient action they grip much less than the common purgatives, and never give pain when the bowels are not inflamed.

They reach the vital fountains of the blood, and strengthen the system by freeing it from the elements of weakness.

Adapted to all ages and conditions in all climates, containing neither calomel nor any deleterious drug, these Pills may be taken with safety by anybody. Their sugar-coating preserves them ever fresh, and makes them pleasant to take; while being purely vegetable, no harm can arise from their use in any quantity.
