X. L. tunnel, owned by the able, and this hastened the winding up deceased Briggs, has opened a fine vein of the enterprise. In order to arrest of mineral. San Juan will produce the process of disintegration which had more silver during the summer of 1878 commenced, a president was appointed. than ever before. But this had no good result, for the president did not seem to meet the views of any party. It would be very unbecoming in me to cast reflections upon any person, for his course in connection with MacLay College. I am touching as lightly as I am able upon the mere facts which rose to the surface of this movement. The new president Dear Editor,only occupied his position for about four months, and there never was a student in MacLay College.

82

The first meeting which I attended in behalf of education, after I returned from the States to Canada in 1855, was one nailed to raise means, if possible, with which to pay off the debts in-

The most gratifying feature of the work homes for tabies, in the country where and privileges of adopted children. The good people of Wolfville who Sixteen babies have been provided for

"The mothers of the children have in many instances benefitted greatly by We invite the friends of our In- their stay in the Home. Not a tew deepest gratitude to the Committee and Institution extend much farther than even the saving of infant life."

This effort to save the little ones commands the general support and confidence of the Christian community. At the annual meeting Rev. Dr. Hill

"Drew a touching contrast between the tender, motherly treatment of the little ones in the Home, and the lingering starvation, the poison under the form of Soothing Syrups, and perhaps the strangling cord, in vogue outside. But why not let the little ones die in infancy? Would they not be better off? Those who speak thus have little idea of the preciousness of God-given life. The absurdity of this mode of speaking will become at once manifest by applying precious beyond all power of expression. It is our duty to do all in our power to save the life which God gave,-the souls for which Jesus died,-to preserve lives that even in this world may be very valuable," Rev. C. B. Pitblado, addressing the committee, expressed a belief that they have saved many lives and prevented much crime. Our friend the venerable Rev. Dr. Cochran speaks in similar terms. Rev. Thomas Duncan testified favourably from personal inspection and investigation. Rev. Alfred Brown, Hon. Dr. Parker, Rev. E. M. Saunders, Rev. S. F. Huestis, Rev. W. Heartz and Rev. Dr. Burns, all expressed their deep sense of the good work that had been accomplished and the claimant. need for further effort. A good deal was said at the meeting about the need for better premises and a more liberal support. We trust that the claims of these the most helpless of God's creatures will not be forgetten by our generous readers.

curred in connection with McLay College, whose president was then a member of my church. Money was raised, his salary was paid—at least for a portion of his time,-and he left the country. This was the closing up of Mac-Lay college ! A large number of our best men had, freely and promptly pledged their means for its support, and the hopes of all were high. Its failure, therefore, was undoubtedly a heavy blow and sore discouragement. Many of the brethren in the country, (some of whom seem to fancy that the organization and management of a college ought to be a very easy and simple affair), laid the chief blame upon Toronto, and have scarcely yet forgiven her. In spite of the great depression occasioned by the failure of the Mac-Lay movement, one clear benefit remained. . Their ability to raise so much. in a short time, towards an endowment clearly showed to the denomination what they could do when they pleased. This lesson was a clear gain anyway. But under the effect of the lose of confidence, and disgust produced by the failure, how can the denomination be again aroused to do what it is well able to do? Who can inspire them with the needed confidence? When we began agitating once more about ministerial education in 1856, I found but two or three men who had any confidence that the Canadian Baptists could be again induced to lay hold of this work. I had no confidence-and never had-in being able to raise and conduct in Canada a really satisfactory theological school by itself. The Grammar Schools in Canada, twenty-two years ago, were of little value, and fully fivesevenths of all who should attend them would have to leave home to do so. was in favor of a literary department in our theological school, where we could exercise some oversight over the pupils. This department, if thrown open for pupils not having the ministry in view. would interest a larger number of the Baptists, and help us to enlist their co-This idea of the school

was greatly revived. At the conference on Saturday, 23 were received for baptism, and notwithstanding the storm on Lord's Day, March 4, it was my privilege to baptize 21 persons on profession of their faith. Many others are enquiring. Springfield needs a faithful Baptist minister; and a good brother will find an intelligent, social and well-disposed people to live among. Springfield, Albany, and Dalhousie East would constitute an ample field, and, with a small subsidy from the Home Mission Board, a good support.

append subscription lists for the re-building of Acadia College for these places. As may have been seen by published lists, about \$3000 have been subscribed or paid in Annapolis Co. I have heard all through the County the complaint of fearfully hard times, otherwise more would have been done. And it must be borne in mind that an extensive and successful canvass was made a few years ago in that Courty for the Endowment of the College. Still, I think \$4000 will be donated in Annapolis for the re-building fund. am advised by the Executive Cominittee to spend a few weeks now in Kings, and hope to report successful results.

Yours truly, ISA. WALLACE. Berwick, March 6, 1878.

operations, was the amount of money alreadysubscribed towards the Building Fund. We have learned that subscriptions if the three Provinces to the amount of \$33,000-less the cost of collection and shrinkage-may be confidently expected as available for the work d re-building. This does not include the amount received from insurance

We have also learned that the Board resolved to obtain Plans and Specifications, and to invite tenders for two buildings-one for the College, and the other for a Ladies' Seminary.

The proposed College Building is to contain the Library, the Museum, Assembly Halls and class-rooms for the students of the College, and Horton Academy. The Ladies' Seminary Building will be complete in itselfhaving under one roof dormitories, parlours, class-rooms, and an Assembly Hall, together with ample culinary conveniences. Doubtless the whole to the latest improvements.

The College structure will be erect ed on, or near, the place where the old College stood. This, we think, is the consecrated locality for the new College Building. If it should be placed on any other site, violence would be done to the sacred associations of the last half century. The Fathers chose wisely when they selected Horton for Acadia, and even the spot for their College was so wisely fixed, that after the lapse of nearly half a century, so fair as we know, not one person has found any ground on which to rest an its managers in this light may we not le criticism.

But we also learn with regret, that the only cause subject of "The Confessional," "Having why the Board entertained the idea of placing a building for the young ladies in some obscure corner in the shadow of the College Buildings, was, the fear that funds, sufficient would

"RESCUE PERISHING. THE A FEW WORDS ABOUT THE HALIFAX INFANTS' HOME.

OUR Lord taught his disciples that he came to save men's lives not to destroy them. Nothing is accounted more noble than heroic efforts to rescue it to all instead of to a class. Life is the perishing. Even if the one in danger be he who has spent the best. part of his days in drunkenness and debauchery, and is pursuing a course that will soon terminate life, the man or woman who shall be the means of rescuing him and bringing him back to a course of profitable labor and reasonable enjoyment of life deserves to be placed among the benefactors of the race. If it be praiseworthy to save such wrecks of humanity, what shall be said of endeavours to give help to little destitute, helpless infants who have not as yet entered on the path o will he in the best style and according avil and may have before them a whole life of goodness and greatness? If we sing the praises of such good deeds when shewn in behalf of individuals may we not raise a higher note when we see a combination of ladies formed specially for the purpose of picking up such little ones; and further, in addition thereto, to finding for them christian homes by awakening, or enkindling a fresh, parental affection in the hearts of those who are deprived of objects on which to bestow these higher instincts of our nature.

Looking at our Infants' Home and rejoice with them over the success they

TERRIBLE SNOW STORMS IN SAN JUAN

Since February 5th we have had
errible snow-storms, and for the past
wenty-four hours it has snowed fully
wo feet. We have now on the level
hroughout the County of San Juan an
verage of six feet of snow, and near
he mountain tops the snow will
verage about eight feet where it is
ot drifted in consequence of the heavy
torms. Of late we are being terrified
y avalanches. On the 17th I was an
eye witness to three, myself, and two
on the 19th. On the 17th, an ava-
anche, at the head of Poughkeepsie
Gulch, buried a man by the name of
Marshal sixteen feet deep and smothered
him before he could be taken out. On
the 18th, one Mr. Brigg was carried
lown Hazelton Mountain about 1,800
eet, and was quite dead when found
four hours afterwards, though nothing
but his head and shoulders were buried.

Mr. Spurgeon was preaching on the searched the Bible all the way through," said he, "I can only find that one man therein mentioned ever confessed. That was Judas Iscariot; and you will re member, my brethren, that immediately he had confessed he went out and hanged himself.
