Catarrh Remedy. I ain in Shoulders, Back and Lunge, and Droppings in Thomat Disappear.
St. Armand, P. Q., Sept. 12, 1876.

Ma. T. J. B. HARDIN G.

DEAR SIR,—Being desirous that others may know something of the merits of your Constitutional Catarrh Remember, I wish to inform you what it has done for me. I am 29 years old; had been out of health for about five years. I had employed three or four different doctors, and tried various medicines, without receiving any permanent benefit but continued rather to grow worse, until last fall, when I had become so had as to be unable to do an hour's work at a time. Had severe foreness and pain under the shoulder blades and through the shoulders, with very lame back, and a feeling in my right lang as though there was a weight bearing it down with continual dropping in the throat and down upon the lungs. Such was my condition when I commenced to take your fatarth Remedy, one bottle of which eased my pains and rave me an improved appetite, and after taking four bottles I was restored to health, so as to be able to endure hard and continued labor, such as chopping and clearing lar d, at which I have been engaged the past season. My revery I attribute solely, with God's blessing, to the use of our Catarrh Remedy. Yours truly, D.S.F. Price 31 per bottle.

April 4. MB. T. J. B. HARDIN G.

HOUSEHOLD.

SAVING IN THE WRONG PLACE -A great many persons to maintain as far as possible a certain style of living, have denied themselves books, magazines, and papers. When the pleasure of the times came upon them they decided that men tal food was a luxury that could be dispensed with without injury; that a certain amount and kind of food and clothing for the body to which they had be come accustomed, where necessities to be obtained as far as possible. Beefsteak or chops, and rolls for breakfast; a liberal lunch at midday, and a substantial array of meat and vegetables for dinner have been considered indispenssable. We are tempted to tell the results of our observation. We have witnessed some domestic management that would be amusing if one could forget the very sad side of it. These persons have no hesitation in reducing their gifts to Christian charities, and seem to think it a praiseworthy economy to refuse to buy a book, to stop a newspaper or magazine. In our judgment they are very much mistaken. A man's mind is quite as important as his body. Every man and woman has a place to fill in the world, and ought to know how to do it. Every family has need Southing gives the time of high water at of books, magazines, and newspapers as well as food and clothing. We have just been reading the life of the famous his breakfast of oat-meal and milk, his A Yarmouth, 2 hours 20 minutes he was praiseworthy. Oat-meal and tar made in the usual way for brickmilk is by no means to be despised as many days, such has been our principle meal. And we have the recommendation of no less a man than Mr. William Cullen Bryant in favor of bread and Par too much attention is paid by the people of these States to what they will eat and drink and wear. There is a needless and unwholesome expenditure for these things. There is no virtue in turning away from a good book, gratify a carnal appetite, or to maintain a fair and vain show in the flesh. "Christian Intelligencer.

> HOME REPAIRS.—A lady gives some any housekeeper :--

"gave out," and none to be had nearer than Philadelphia. A friend gave us a recipe which we find works well, though ashes, wetting it up with water. This was applied to the inside of the stove in place of the fire-brick. It hardened in a few hours, and answers as well as the brick. Cracks in stoves may be mended in the same way.

A large pail used for taking up ashes had become too full of holes for use, but was so light and handy we did not like to give it up. So we pasted stout cloth over the bottom, outside and in, cement of salt and ashes. It is a first-

piece of white cloth, which she also covered with paint. She had used it five "cotton fields that would render Engeleven years ago, so I presume she is much given to change.

Oatmeal contains the largest amount or nutriment of any cereal. A man can live and grow fat on a quart of milk and six cent's worth of oatmeal of latitude. per day. Persons who wish to live economically can thus reduce their expenses to seventy-five cents per week.

sugar, one tablespoonful of butter, two cleansing qualities, and to be adapted eggs, one cup of sweet milk, three cups for use in salt as well as fresh water. of flour, one half teaspoonful of soda, one teaspoonful of cream of tartar sifted with the flour, one teaspoonful of salt. Bake in a buttered mould, turn upon a dish, cut into slices, and eat with It spans the Tay at a point where it is liquid sauce. This is a simple but two miles in width. Thirteen of its very nice pudding.

If a man take no thought of what is distant, he will find sorrow near at

and throw into a pan of boiling salt water; set them over the fire and allow them to simmer ten minutes; remove them to a cloth to dry, and then put them carefully into glass jars. Boil some vinegar with ginger and whole pepper and, when cold, pour over the

The English Nautical Magazine advocates the utilization of rats as food, and declares from actual experiment, that they are exceedingly palatable.

DOUGHNUTS .- One-half cup of milk, two cups of sugar, one cup of lard, one egg, a little salt and nutmeg. Make them at night, and in the morning they are ready to fry. This will make a pan full.

PRUNES STEWED .- Use one pound of prunes; wash well; boil in two quarts of water until the water boils down over one half; they should simmer slowly an hour or longer; use four tablespoonfuls of white sugar or more, and cut in slices one large lemon; put the sugar, prunes, lemon, and cold water all on to cook at the same time.

A NEW CEMENT .- Mr. Emlen T. Little in the Am. Architect, says the foland useful Rev. Wm. Arnot. He made lowing formula for cement has been very successfully used. The product dinner of bread and milk, that he might is of very great strength; and the masave money to be expended in informing terial may be obtained where other ceand cultivating his mind. For doing so ment cannot: I heaped bushel of morwork, add 31 quarts of iron scales, 1 nutritious food. For a year past, on quarts of molasses; to be mixed in these proportions in quantity that can be used the same day.

stores is now building in Hartford, Conn., for which the foundations are laid in this way: Trenches are dug down to the hard pan, and are then filled with water. Beach sand is then sifted in until the trenches are filled with the soaked and or in stopping a newspaper in order to compacted sand, which is covered by a thick layer of concrete, which in turn is to receive the stone work of the foundation walls.

. LEAD EXPLOSION .- Many mechanics hints for repairs that can be made by have had their patience sorely tried when pouring lead around a damp or or scatter from the effects of steam generated by the heat of the lead. The whole trouble may be stopped by puttwe had little faith in it at first. We ing a piece of resin the size of a man's mixed a cup of salt with two of coal thumb into the ladle and allowing it to melt before pouring.

PROPOSED DIVERSION OF THE NILE —It is well known that the main stream of the Nile is supplied by the great equatorial lakes of Africa, and that the annual inundations are caused by the inrush of torrent water laden with soil from the fertile slopes of the Abyssinian plateau in July, August and September. This silt is now for the most part being and then covered the cloth with a thin deposited in the bed of the Mediterranean, where it is gradually forming a rate ash-pail still, and hot ashes do not new delta similar to the delta already burn out the cloth. Mending tin with formed at the river's mouth. Sir Samuel cloth may be a new fashion to some, Baker has written to the Times suggesbut it works very well. I know a ting a plan by which not only the water coal-scuttle that has done good service of the Nile, but the mud, which it now for five years since it was pronounced deposits wastefully in the sea, may be "worn out," simply by having a piece | turned to good account as a fertilizer of of cloth patched on with thick flour the deserts of Nubia, Libya, and the engineering work to divert a portion of A lady told me that she mended a the Nile flood water into these deserts, with white paint, and then putting on a on the sands, and also irrigate them so as to transform them from a desert into years then, and it is not more than land independent of America." This using it still, as she was not a woman dams and sluices at different points of the Nile navigable from the Mediterranean to Gondokoro, a space of 29°

A new soap has been patented in Germany which is composed of common soap with the addition of phosphate of COTTAGE PUDDING .- One cup of soda. It is said to have especially good

Hundreds Cured daily in Nova Scotia

DIAMOND RHEUMATIC CURE. Effectually curing hundreds of our Nova Scotia citizens from that terrible malady

RHEUMATISM. This statement is substantially a FACT based upon evidence in the possession of the agent, in the shape of numerous testimonials from past sufferers, in the walks of life, and particularly from some of our

most respectable and trustworthy fanilies. DIMONAD RHEUMATIC CURE. In its history, this invaluable Medicine occupies the most honourable position possible for any remedy to attain. A few years since it was known only to the friends and neighbors and patients of the proprietors, and always sought for by hem whenever troubled with Rheumatism, and in this way came to the notice of physicians generally, and through their favorable expression, and its acknow-ledged value as a Rheumatic Remedy, the demand for it became so frequent and urgent as to oblige its proprietors to in crease their facilities for its manufacture. Its reputation rapidly extended, and soon orders, letters of enquiry, letters of daily received from all sections of the United States and Canada; and in this way on a basis of its merit alone-unaidforts-it has risen to its present envious position. Wherever introduced it has received the most flattering preference in cupied. We relieve the suffering and minister to God's poor; we restore the la-boring to the use of his injured limbs, and save him scores of times its cost in doctor's bills; we carry contentment and gladness into the home of the afflicted, and consequently are remembered by millions of grateful souls.

The proprietor of this medicine has walked the aisles of the Hospitals of London, Eng., for the past twenty years, making rheumatism a speciality, and the prescription from which this remedy is all he ever used in the treatment of this

This medicine is for sale at all the drug-gists throughout Canada. If it happens that your druggist has not got it in stock, ask him to send for it to

with the gloss and freshness of Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a
