For the Christian Messenger cieties.

Dear Sisters .--

I have for some time had it on my mind to send a few words to you by way of the Christian Messenger relating to our Missionary work, but a lingering illness has prevented. A letter from our dear sister, Mrs. Armstrong, reached me a day or two ago, containing some information which you ought to know. After a tew lines of the loss of health, she says :-

"It is no slight cause of gratitude that we have been able to purchase a dwelling without the loss of time and money necessary in building. We find ourselves, too, in a position to invite a

> have diminished the last two years. probably in consequence of our having no one in the work specially looking to us for their support, and, if possible, it is still more grievous to read the letters from the Secretaries or Treasurers, lamenting over the difficulty of keeping up the interest and attendance at the meetings. In some places, where once there were large and flourishing Societies, the meetings have ceased. Sisters, ought such a state of things to continue? Surely you will say NO.

> At the same time, be encouraged to know that the monies given since we have had no missionaries in India, have been the means of doing some good. By the table given below, you will see how the Central Board has apportioned the sums entrusted to them, besides leaving sufficient to send out one, if not more missionaries when required.

Your fellow-worker, MARIA R. SELDEN, Treasurer Central Board of N. S.

THE ACADIA COLLEGE NEW BUILDING.

THE LAYING OF THE CORNER STONES.

Our readers will be prepared by our article last week for an extended account of the ceremonies of Tuesday the 9th Inst., on "College Hill" at Wolfville. The day was all that could by the students and the community at be desired. A large company assembled on the beautiful slopes of the College grounds. The occasion was one full of interest to old and young. Of the former there were quite a number, and of the latter a much larger terming a peaceful triumph of magnani- A copy of the last Catalogue of the congregation. As the hour named mous spirit, better even than victory in Academy.

drew nigh they gradually came nearer To the Members of W. M. A. So- to the centre of the grounds where preparations had bean made by the laying of a temporary platform.

The large room in the Ladies Seminary is used temporarily as the College Library, and the Presidents study since the fire. Here the Faculty gathered and from hence a procession was formed of the governors and friends towards the platform at the N. E. end of the new College building. On arriving there the Rev. S. W. DeBlois, at the request of President Sawyer, offered sympathy and condolence with me on prayer; after which Dr. Sawyer made a highly appropriate

INTRODUCTORY SPEECH.

He said: The old college building around which so many memories clustered, to which so many looked, from which so many good influences had already gone out, and from which so much had been expected in the future, was gone. It had been destroyed on the memorable night of Dec. 2. By this disaster the college was literally turned out of doors. The museum, the libraryroom, the President's dwelling, were all gone. On the 6th of December the Governors were called together. They decided to rebuild, and asked the Faculty and the Executive Committee to consider the kind of buildings required. At the next meeting of the Board, March 7th, the Executive Committee were instructed to obtain suitable plans for the College and a Ladies' Seminary and to solicit tenders for the erection of the buildings. On the 20th occupy the east end of the building. The second floor will have rooms for the Library and Museum, the former 28x40, the latter 28 x 44, both with ceiling 20 feet in the clear, and galleries. It will gallery capable of seating probably 700

He would not further enlarge on an occasion so full of suggestion of tuture work in Higher Education, but would call upon Rev. Dr. Crawley to speak.
