

that it can be said that the stone cut out of the mountain without hands has rolled on and on till it has filled the whole earth, then will the same voice proclaim that this has been accomplished through the influence of family religion.

DOMINION & FOREIGN NEWS.

DOMINION OF CANADA.—The 12th passed off without the anticipated trouble in Montreal. The telegrams indicate that fears were entertained till late in the day that the disturbance would come and a large number of constables were sworn in. These extra peace officers appear to have been the first to break the peace. An attempt was made by the orangemen to form a procession and six of the number were arrested by way of making a test case. Their names are Wm Gavon, Alex. Gibson, John Cromwell, Thomas Ingram, John Libburn, and Fredk. Hamilton. The Police Magistrate refused to accept bail in consequence of the state of excitement that existed.

Orangemen are discussing a proposition to have a grand procession on the 16th anniversary of Hackett's funeral. The Western Orangemen will be invited. More trouble may then be expected.

The Orangemen gave up their procession. In face of not receiving protection from the authorities.

The resignation of Lieut. Governor Tilley was received yesterday, and Hon. Mr. Chandler was appointed to-day.

The bad feeling is cooling down. Several bad charges of partisanship and violence are made against the volunteers, especially of a country battalion returning and firing from car windows, wounding three persons.

Howley's large door and sash factory has been burned. Loss \$30,000.

NEW BRUNSWICK.—At Fredericton on Tuesday last during a violent storm of wind and rain a small building, near Stewart's mill, was blown down and a young lad named Wilkes, aged 9 years, while endeavouring to escape from the wreck was struck by a flying board and killed.

At Woodstock on Monday one of the artillery horses on the drill ground, belong to Herbert Dibblee, was struck by lightning and was immediately killed. Three other horses were stunned and felled to the ground by the same shock, but they arose after a few minutes. The horses were tied to posts with steel chains feeding.

At St. John on Monday night of last week Mr. J. C. Costello, proprietor of the United States Hotel, was proceeding along Germain Street, he was assaulted by a man, a stranger. And again at the corner of Queen street the attack was renewed—this time by two men, one of whom Mr. Costello identified as his previous acquaintance. Mr. Costello was knocked down and badly beaten, and his pockets were rifled of all the money he had in his possession, about eight dollars. Mr. Costello's face bears marks of rough usage.

UNITED STATES.—Three boys were drowned in the East River, and several small crafts were capsized in the Bay, in the afternoon, by a squall.

Congressman Schleicher has just arrived in San Antonio from Washington. He says the administration has determined to force peace or war with Mexico, and says General Ord, who returns Saturday, brings fresh orders to invade and occupy the Mexican border territory unless Diaz' Government guarantees immunity from invasion.

SOUTH SEAS.—A telegram from Sydney Australia, dated 11th, states that two tribes of natives have risen against the Government on the island of New Caledonia and massacred one hundred and twenty-five whites, including women and children. They also captured two military stations.

ENGLAND.—The treaty concluded between England and Turkey gives to England possessions of the fertile island Cyprus for which England is to pay the sum of \$750,000 yearly, whilst the present revenue of the island is \$600,000. There was great cheering and excitement in the House of Commons on Monday at the announcement of the treaty between England and Turkey.

Mr. Baring, of the British Legation at Constantinople, took possession of the island on Thursday in the name of Great Britain. There are various expressions from different counties as to how people regard this act of England.

The British Government seem to be taking active measures for helping on reforms in the Turkish government. In the House of Commons on Thursday evening, Robert Bourke, Under Foreign Secretary, announced that the Porte has expressed its willingness to enter into a convention with England for the abolition of the slave trade. A convention for that purpose had been prepared, and was sent to Turkey on the 9th of June last. Communications on the subject continue.

It is understood in France that England occupied Cyprus instead of Egypt, although strongly urged to take the latter course, because she did not wish to disturb her good relations with France. The Times says the seizing of the Dardanelles would have wounded the susceptibilities of Europe. Taking Egypt,

occupying the extremities of Suez Canal would have hurt the feelings of France. England decided, therefore, upon occupying Cyprus. France on considering the absolute necessity thus imposed upon England, will soon see that the occupation of Cyprus was only suggested to England by her ardent desire to reconcile her absolute interests with the sympathies of France.

GERMANY.—In the Congress on Thursday it was resolved that an urgent recommendation, virtually amounting to a command, be made to the Sultan to institute an International Financial Commission to guard the rights of holders of Turkish bonds and regulate finances; it was also decided that a commission should immediately proceed to investigate disorders in the Rhodope district.

It is thought Congress will insert in the Treaty of Peace, and not, only in protocol, a clause concerning Greece. Turkey will thus be obliged to take Greek claims into serious and immediate consideration.

Congress exempted Serbia and Roumania from payment of arrears of their tributes to the Porte. Tributes henceforth will cease.

The Times despatch from Berlin states that the treaty of alliance between Great Britain and Turkey was confidentially communicated to the Powers shortly before its promulgation.

The Emperor William's physicians ascribe His majesty's relatively slow progress towards recovery to the great loss of blood and his appetite, to the shock to his system and mental depression. His hands are helpless and he can only eat with assistance. His physicians, however, are confident of his recovery by the influence of time and exercise.

TURKEY.—The cause of Safvet Pasha's proposal to expel the Times correspondent at Constantinople was the alleged untruthfulness of his despatches concerning affairs at the Porte.

It was decided by a council of the Turkish Cabinet, held on Saturday last, that Turkey should not yield to the demands of Greece.

A telegram from Odessa announces that a director of the Russian steamer company left for San Stefano to prepare for the return of 125,000 Russian troops.

A Constantinople despatch says Mr. Fawcett returned from Lagos and reports that intense suffering exists among the population south of the Rhodope Mountains. He enumerates the horrors perpetrated by the Bulgarians and Cossacks, and sometimes by regular Russian soldiers. Domodea district fifty-three villages were plundered and burned by the Russian and Bulgarian troops. In the last two months twenty-three villages were laid waste and burned in the district of Haskier, and in Phillipopolis district twelve villages were burnt.

FRANCE.—It is stated that the Americans have obtained more prizes at the Paris Exhibition than citizens of other countries, in proportion to the number of exhibitors.

The Republique Francaise describes the convention as detrimental to the interests of the Mediterranean powers and offensive to the dignity of the other members of Congress. The entire press shows the greatest irritation.

ITALY.—The Dandolo, one of the most powerful ironclads in the world, was successfully launched in the presence of the Royal family on Wednesday last. She is 300 feet long, 65 feet breadth, and her armor is 22 inches thick. She will be armed with 100 ton Armstrong guns, carrying projectiles of 2500 pounds weight.

CHINA.—Rain has at last fallen in the Northern Provinces and faint hopes are entertained that the prolonged drouth with its miseries may be at an end, but up to this time there is no abatement of the distress.

There has been unexpected acknowledgment from the highest Chinese authorities of the efforts made by foreigners to alleviate the sufferings caused by famine.

Three ironclads, built in England for Japan, arrived and are ready for service.

Local News.

SAD DROWNING ACCIDENT.—On Sunday afternoon three young men, named Geo. Lomas, Wm. Townsend, and John Holloway, left Campbell's wharf in a small sail boat, owned by Holloway, and after sailing about the harbor for some time, put out for the open sea. They were on the return, about noon, and were off Chebucto Head, when Townsend lost overboard a bucket which had been used for bailing out the boat. The boat was being put about, to pick up the bucket, and they were in the act of doing so, when a squall struck her, and she overturned, and all three were thrown out into the water. Townsend and Holloway were drowned. Geo. Lomas was picked up by the fishing smack "Hero." Friends of Holloway and Townsend have been searching for the bodies, but up to last accounts were unsuccessful. The ages of the three young men ranged from about 19 to 22. Lomas is a son of Mr. John Lomas, head waiter at the Halifax Hotel. Townsend was son of Mr. Silas Townsend, the well-known junk dealer; and Holloway was the youngest son of our much esteemed citizen, Mr. Thomas Holloway, block and pump maker.

Dartmouth is now placed in an advanced position in the way of protection from fire. The new steam fire engine Lady Dufferin was tested on Thursday afternoon in the presence of representatives of the insurance companies and authorities.

As the engine is worked on the rotary principle there is no vibration of the machine when working, and this saves friction of hose and wear of engine, and adds largely to its durability. The boiler is made of steel, which is said to be another great improvement. The whole apparatus is neat, compact and light. The machine was stationed on Waddell's wharf. The first test was to throw water through 100 feet of hose in seven minutes. This was accomplished in six minutes and three quarters with a light fire, the water being thrown through a 1 1/4 inch nozzle. The second test was to throw water 1000 feet from the harbor. With 1,260 feet of hose, and drawn from the harbor, a stream from a 1 inch nozzle was thrown 20 feet over the steeple of Christ's church. Next two streams, through 500 feet of hose and 3/4 inch nozzle were each thrown 140 feet. One stream of the same hose was shut off and a 1 1/4 in. nozzle substituted for 3/4 inch on the other hose, and through this a stream was driven 146 feet from the nozzle. Next three streams, with 300 feet of hose and 3/4 inch nozzle, were thrown over a three-story building. The engine was then taken to the lower canal bridge to test its power of lifting water with a full length of 25 feet of suction hose, which was done successfully. The Council were well satisfied.

Mr. Albert Carter, aged 22 years, died on Friday last at Kentville, it is said from the effects of strong drink. He had been in Windsor some days, and went to his home, at Kentville at noon, and died the same night.

At Oxford Mr. Amos Colbure had his hand badly cut in the Furniture Factory. Mr. Alexander McDonald had his hand badly injured in the same factory a few days since.

GRAHAM'S PAIN ERADICATOR—SAFE AND SURE.—The best Family Medicine in use.—CAPT GEORGE WOODS, Hopewell River Side, N. B., says:—"I suffered with a Rheumatic Pain in my back for twenty years till I used Graham's Pain Eradicator, three applications of which cured me. I have kept it in my house for the past ten years, and find it the best article I have known for removing pain. Castle St., St. John, N. B., January 1 1873.—Messrs. T. Graham & Son.—About four years ago I got my ankle badly sprained causing it to swell so much that I could not put on my boot, the pain being so severe that I could scarcely move about for two weeks. I used different popular remedies without benefit till I tried Graham's Pain Eradicator, which cured me by a few applications. I recommended it to a friend who had suffered from a sprain for more than six months, and he was cured by less than a bottle. I have used it in other forms of pain with equal success, and for Coughs, Colds, Sore Throat, etc., it is the best remedy I have ever known. STEPHEN N. CRAWFORD.

TO CONSUMPTIVES.—The production of a remedy that "may truly be said to so alter the prospects of the Consumptive as to give hope of cure in not a few cases, and of much prolonging of life in by far the greater number"—"the only remedy worthy of the name, which, if carefully and faithfully used may arrest and cure the disease and is pretty sure to retard it and prolong life more than any other known remedy," is a great desideratum. Yet, this desideratum is fully met in Robinson's Phosphorized Emulsion of Cod Liver Oil with Lacto Phosphate of Lime, which is universally acknowledged wherever introduced, to be the best preparation of Cod Liver Oil extant, and which, if "carefully, faithfully" and persistently used, will rarely fail to produce marked beneficial results. Prepared solely by J. H. Robinson, Pharmaceutical Chemist, St. John, N. B., and for sale by Druggists and General Dealers. Price \$1.00 per bottle; six bottles for \$5.00.

ELECTRICITY.—THOMAS' EXCELSIOR ELECTRIC OIL.—WORTH TEN TIMES ITS WEIGHT IN GOLD—PAIN CANNOT STAY WHERE IT IS USED!—It is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured Bronchitis. Fifty cents' worth has cured an old standing cough. It positively cures catarrh, asthma, and croup. Fifty cents' worth has cured crick in the back, and the same quantity lame back of eight years' standing. It cures swelled neck, tumors, rheumatism, neuralgia, contraction of the muscles, stiff joints, spinal difficulties, and pain and soreness in any part, no matter where it may be, nor from what cause it may arise, it always does you good. Twenty-five cents' worth has cured bad cases of chronic and bloody dysentery. One teaspoonful cures colic in 15 minutes. It will cure any case of excruciated nipples or inflamed breast. For bruises, if applied often and bound up, there is never the slightest discoloration to the skin. It stops the pain of a burn as soon as applied. Cures frosted feet, boils, warts, and corns, and wounds of every description on man or beast.

BEWARE OF IMITATIONS.—Ask for Dr. Thomas' Electric Oil. See that the signature of S. N. THOMAS is on the wrapper, and the name of Northrop and Lyman are blown in the bottle, and TAKE NO OTHER. Sold by all medicine dealers. Price, 25 cts. NORTHROP & LYMAN Toronto, Ont., Proprietors for the Dominion. June 26. 2m. cov.

BAPTIST CONVENTION.

Members and delegates who purpose to attend the Convention at Fredericton, (Aug. 24 to 27,) are earnestly requested to send their names to the Clerk of the Fredericton Church as soon as possible, but not later than the 15th of August. A postal card will then be sent to each one, informing him where he will be entertained.

By order of the Church,
H. C. CREW, Clerk.

Fredericton, July 11, 1878.

Marriages.

On Wednesday, 10th inst., in the Methodist Church, Windsor, by the father of the bride, Saml. H. Black, Esq., of Halifax, to Fanny E., fourth daughter of Rev. John McMurray.

At Clarence West, June 19th, by Rev. J. Brown, Mr. Edwin J. Elliot, of Upper Clarence, to Miss Ella M. Miller, of Clarence West.

At Halifax, on the 10th inst., by the Rev. Dr. Burns, John W. Mitchell, Junr., of Jeddore, to Annie H. Crockett, daughter of Mr. George R. Crockett, merchant of the same place.

At St. Mary's Cathedral, by the Very Rev. Canon Power, David B. O'Brien, Esq., to Miss Florence A., daughter of the late John R. Willis.

Deaths.

At Paradise, Annapolis Co., June 13th, Hattie, wife of Bro. Burpe Balcom, of typhoid fever. Our sister was greatly and justly beloved. Her faith in God was strong to the last. Among her last words were,

"Jesus can make a dying bed,
Feel soft as downy pillows are;
While on his breast I lean my head,
And breathe my life out sweetly there."
"Though I walk through the valley of the shadow of death I will fear no evil for thou art with me."

At Sheet Harbour, on the 29th May, Thomas Legg, a native of Devon, England in the 87th year of his age.

At Avondale, Hants Co., Saturday evening, July 6, Capt. Nelson Mosher, aged 61 years.

At Avondale, Hants Co., Saturday morning, July 6, Henry Mosher, aged 18 years, son of Capt. Nelson Mosher.

At Waterville, Hants Co., July 8th, Margaret, widow of the late Jas Vaughan, aged 76 years. A member of the Waterville Church.

On Monday, 15th John Shaffer, in the 87th year of his age.

NOTICE TO CONTRACTORS.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Custom House, Saint John, N. B." will be received at this office until MONDAY, the 12th day of AUGUST next, at NOON, for the erection and completion of the above building.

Plans, Specifications, &c., can be seen at this office, and at the office of Messrs. McKean and Fairweather, Architects, Saint John, N. B., on and after MONDAY, the 15th inst., where forms of Tender, &c., and all necessary information can be obtained.

Contractors are notified that Tenders will not be considered unless made strictly in accordance with the printed forms, and—in the case of firms—unless there are attached the actual signature and the nature of the occupation and place of residence of each member of the same.

For the due fulfilment of the contract, satisfactory security will be required on real estate, or by deposit of money, public or municipal securities, or bank stocks, to an amount of FIVE PER CENT. on the bulk sum of the contract.

To the Tender must be attached the actual signatures of two responsible and solvent persons, residents of the Dominion, willing to become sureties for the carrying out of these conditions, as well as the due performance of the works embraced in the contract.

This Department does not, however, bind itself to accept the lowest or any Tender.

By order,
F. BRAUN,
Secretary.

Department of Public Works,
Ottawa, July 6th, 1878. 2i. Jan 17.

JOYFUL NEWS For the Afflicted!

WOODVILLE, CORNWALLIS, }
May 3rd, 1877.

Messrs. C. GATES & Co., Gentlemen.—This is to certify that three years ago I was troubled with a bad cough, accompanied with pain and soreness of the lungs for some time. I took one bottle of your No. 1 Bitters, and am happy to say have had good health ever since. My wife was afflicted with biliousness and sick headache for two years and six bottles of your valuable Medicine effected a complete cure and she has better health now than ever she has had for some years. I believe your Medicines are the best ever sold in the Province of Nova Scotia.

Respectfully,
CALEB WHEATON,

WAVEREY GOLD MINES, Halifax Co., }
Aug. 23, 1877.

C. GATES & Co., Gentlemen.—This is to certify that after suffering for four years of Dyspepsia and Liver Complaint, coughing and spitting of blood, daily anticipating death, that one bottle of Dr. Gates' Life of Man Bitters cured me effectually.

I sincerely recommend it to any one that is suffering from the same disease.
JOHN MCKENZIE,
(Aged 73 years.)
July 3.

PARKS' COTTON YARNS!

Awarded the Only Medal Given at the Centennial Exhibition For Cotton Yarns of Canadian Manufacture.

No. 5's to 10's.

WHITE, BLUE, RED, ORANGE AND GREEN. Made of Good American Cotton with great care Correctly numbered and Warranted Full Length and Weight.

WE would ask the purchasers of Cotton Warp to remember that our Yarn is spun on Throstle Frames, which make a stronger yarn than the Ring Frames, used in making American yarn. It is also better twisted and more carefully reeled; each hank being tied up in 7 leas of 120 yards each. This makes it much more easy to wind than when it is put up without leas—as the American is—and also saves a great deal of waste. Those acquainted with weaving will understand the great advantage it is to them to use yarn put up in this manner.

COTTON CARPET WARP,

MADE OF NO. 10 YARN, 4-PLY TWISTED.

White, Red, Brown, Slate, &c. All fast colors.

Each 5 lb. bundle contains 10,000 yards in length and will make a length of Carpet in proportion to the number of ends in width.

We have put more twist into this warp than it formerly had, and it will now make a more durable Carpet than can be made with any other material. Since its introduction by us, a few years ago, it has come into very general use throughout the country.

All our goods have our name and address upon them. None other are genuine.

WM. PARKS & SON,

NEW BRUNSWICK COTTON MILLS,
June 26. 3m. St. John, N. B.

PARSONS & FIELDING.
