

case. If it cannot be decided in Halifax, carry it up to the Supreme Court at Ottawa. Or what might be better, let three or five judicious men from Picotou, Truro, Amherst or Windsor be asked to arbitrate. The case may be difficult and intricate, but it can surely be solved; and almost any solution would be better than the present state of affairs. The College has certain rights; let those rights be recognized. The City has certain rights; but it is very likely that they do not at all clash with the rights of the College. It is hard to convey to a citizen accustomed to the sight of the thing, the unfavorable impression the wreck creates on the minds of strangers. Do make haste, gentlemen, and decide.

CURES CONSUMPTION.—To all suffering from the following diseases a ray of hope is offered through the kindness of a missionary friend who has sent me the formula of a purely vegetable medicine which has long been used by the native medicine men of Hindostan:—for the positive and radical cure of Consumption, Bronchitis, Asthma, Catarrh, Dyspepsia, Throat and Lung difficulty, General Debility and all Nervous Affections, its power has been tested in hundreds of cases without a failure. I now feel it my sacred duty as far as possible to relieve human misery and will send the recipe—FREE OF CHARGE—to any person who may desire it with directions for using. Sent by return mail by addressing with stamp, naming this paper. GRIFFIN ROBINSON, Box 76, Syracuse, N. Y. 3ins*

Oct. 30, A Child's Opinion—A Fact.

STANLEY—had recovered from a very serious illness, brought on by too close application to his books, in his earnest endeavors to outstrip his little school-mates in the race after knowledge. His little brother, Percy, a youth of three summers, as was quite natural, held a very high opinion of the medicine (Robinson's Phosphorized Emulsion of Cod Liver Oil with Lacto Phosphate of Lime) that had produced such gratifying results,—but at the same time had a very warm affection for it on his own private account. After having enjoyed sundry 'refreshers' from the nearly empty bottles, which by common consent had descended to him, he critically holds it up between his eye and the light, and with the air of a Chief Justice, remarks:—Mamma, I like zat better'n lobster."

Little Percy's just appreciation is a very general one among the children who have once taken the Emulsion, and mothers would have less cause for anxiety on account of the ceaseless drains upon the too frail constitutions of their fast growing little ones did they but fully estimate the marvellous strengthening and vivifying properties of this medicine and its adaptability to the wants of growing structures. Try it!

Prepared solely by J. H. Robinson, Pharmaceutical Chemist, St. John, N. B. For sale by Druggists and General Dealers. Price \$1.00 per bottle; six bottles for \$5.00. Brown & Webb; and Forsyth, Sutcliffe & Co., Halifax, Wholesale Agents. Oct. 23. 2 ins.

DIPHTHERIA has for a long time been very prevalent and very fatal. Its fatality seems to be greatly owing to neglecting what is supposed to be an ordinary cold or sore throat until it has progressed to its last stages, and then when medical aid is procured it has often been found to be too late. From the fatality attending this disease every family should keep a suitable remedy on hand and use it on the first appearance of sore throat. A preparation called DIPHTHERINE has been placed before the public. It is the discovery of an English Physician and has been regarded where it is used to be an infallible remedy for that disease. To place it within the reach of all it is put up in bottles with full directions, and sold by Druggists and Dealers in medicines at the low price of 25 cents a bottle. Sept. 4.

SCRIBNER'S MONTHLY, Conducted by J. C. Holland.

The handsomest Illustrated Magazine in the World.

The American edition of this periodical is More than 70,000 Monthly,

And it has a larger circulation in England than any other American magazine. Every number contains about one hundred and fifty pages, and from fifty to seventy-five original wood-cut illustrations. Several illustrated articles descriptive of Canadian Sports and Scenery have recently appeared in its pages, and the magazine during the coming year will devote much space to matters of special interest to the Canadian public.

Announcements for 1878-9.

"HAWORTH'S," by Mrs. Frances Hodson Burnett, author of "That Lass o' Lowrie's." The scene of Mrs. Burnett's new novel is laid in Lancashire; the hero is a young inventor of American birth. "Haworth's" is the longest story Mrs. Burnett has yet written. It will run through twelve numbers of the Monthly, beginning with November, 1878, and will be profusely illustrated.

FALCONBERG, by H. H. Boyesen, author of "Gunnar." The Man who lost his Name, &c. In this romance, the author graphically describes the peculiarities of Norse immigrant life in a Western settlement. Some of the incidents will be found of very curious interest, this being a study of a phase of life in the New World with which few Americans, even, are familiar. "Falconberg" began in the August number of 1878.

A STORY OF NEW ORLEANS, by George W. Cable. This story will exhibit the state of society in Creole Louisiana about the years 1803-4-5, the time of the Cession, and a period bearing a remarkable likeness to the present Reconstruction period.

PORTRAITS OF AMERICAN POETS. This series will be continued, that of Longfellow appearing in November. These portraits are drawn from life by Wyatt Eaton and engraved by T. Cole. They will be printed separately on tinted paper, as frontispieces of four different numbers. Illustrated sketches of the lives of the poets will accompany these portraits.

STUDIES IN THE SIERRAS.—A series of papers (mostly illustrated) by John Muir, the California naturalist. These are the most graphic and picturesque and at the same time, exact and trustworthy studies of "The California Alps" that have yet been made. The series will sketch the California Passes, Lakes, Meadows, Window Storms and Forests.

A NEW VIEW OF BRAZIL. Mr. Herbert H. Smith, of Cornell University, a companion of the late Prof. Hart, is now in Brazil, with Mr. J. Wells Champney (the artist who accompanied Mr. Edward King in his tour through "The Great South"), preparing for SCRIBNER a series of papers on the present condition,—the cities, rivers, and general resources of the great empire of South America.

THE "JOHNNY REB" PAPERS, by an "ex-Confederate" soldier, will be among the raciest contributions to SCRIBNER, during the coming year. They are written and illustrated by Mr. Allen C. Redwood, of Baltimore. The first of the series, "Johnny Reb at Play," appears in the November number.

THE LEADING EUROPEAN UNIVERSITIES. We are now having prepared, for SCRIBNER, articles on the leading Universities of Europe. They will be written by an American College Professor, Mr. H. H. Boyesen, of Cornell (author of "Falconberg," &c.)—and will include sketches of the leading men in each of the most important Universities of Great Britain and the Continent, their methods of teaching, &c.

Among the Additional series of papers to appear may be mentioned those on HOW SHALL WE SPELL (two papers by Prof. Lounsbury); THE NEW SOUTH, LAWN-PLANTING FOR SMALL PLACES (by Sam'l Parsons, of Flushing, CANADA OF TODAY, AMERICAN ART AND ARTISTS, AMERICAN ARCHAEOLOGY, MODERN INVENTORS; also, Papers of Travel, History, Physical Science, Stories, Poems; "Topics of the Time" by Dr. J. G. Holland; record of New Inventions and Mechanica; Improvements; Papers on Education, Ecoration, etc., etc., etc.

Subscriptions received by the publishers of this paper, and by all booksellers and postmasters.
