

the gratification they had felt at the heartiness and beauty of the reception accorded them, in which also General Sir Patrick McDougall also joined.

The Drawing Room in the evening was attended by a large number of ladies and gentlemen. Her Royal Highness Princess Louise had His Excellency the Marquis of Lorne on her right and His Royal Highness the Duke of Edinburgh on her left.

The NEW YEAR will shortly be upon us. We are from time to time receiving additions to our list of subscribers, and not seldom from those who were formerly subscribers, but from having removed their residences, or the force of other circumstances had been under the necessity of discontinuing, but finding that they miss the visits of the Christian Messenger, wish for its reappearance and embrace the first opportunity of renewing their subscriptions.

The names of such persons we always welcome most cordially. Next to these we are glad to hear from the sons or daughters of our good old subscribers, who, having left the parental roof, and themselves become householders, wish to have their visits continued in their own homes, though, perhaps, now living at a considerable distance away.

Who will assist us in this our responsible mission? GENTLE READER, may we have your generous and kind co-operation in this work? A word of commendation to any such persons may result in their sending our names with one dollar for six months, or two dollars for a year.

To JANUARY 1st, 1880, the remainder of 1878 being given in.

Notwithstanding the quibbling of the United States government at the amount of the award given by the Fisheries Commission, it was paid on Thursday last, as we learn by despatches from England. Five and a half millions of dollars will be at the disposal of the Dominion. The fact of the U. States government having still on hand a large portion of the Geneva award paid by Great Britain, which they cannot find any persons to receive, probably operated somewhat on our neighbors. It would be but a piece of magnanimous honesty if they were to return that sum to the British government.

The capacity of Halifax to supply accommodation to visitors has been pretty well taxed the past few days. Hotels and Boarding Houses have been crowded. It would not have been difficult to make room for a good many more in the summer season, but it is not so easy to find comfortable quarters in what is usually winter time.

The war with Afghanistan is begun with a loss of 300 men in the first fight. The hope is that the Ameer will not persist in his resistance. The people appear friendly and rather disposed to favor the British. Unless Russian intrigue come to the aid of the Afghans, it will not be likely to be a long thinned campaign.

WE would ask the purchasers of Cotton Yarn to remember that our Yarn is spun on Threlkeld's Frames, used in making the finest yarn in the world. It is also better twisted and more carefully reeled, each hank being tied up in 7 lbs. of 120 yards each. This makes it much more durable than when it is put up without care, as the American is, and also saves a great deal of waste.

During the past two years, where the "Golden Cure" has been advertised and brought to the notice of the Catarrh invalid, over Four Thousand cases have been permanently cured by its use.
