

The Messenger Almanac.

Table with columns for Day, SUN, MOON, High Tide. Rows list dates from 1st to 31st with corresponding times for sunrise, sunset, moonrise, moonset, and high tide.

THE TIDES.—The column of the Moon's Southing gives the time of high water at PARSBORO, CORNWALLIS, HORTON, HANTSPOURT, WINDSOR, NEWPORT, and TRURO.

High water at Pictou and Cape Tormentine 2 hours and 11 minutes LATER than at Halifax. At Annapolis, St. John, N.B., and Portland Maine, 3 hours and 25 minutes LATER, and at St. John's, Newfoundland, 20 minutes EARLIER, than at Halifax.

FOR THE LENGTH OF THE DAY.—Add 12 hours to the time of the sun's setting, and from the sum subtract the time of rising.

FOR THE LENGTH OF THE NIGHT.—Subtract the time of the sun's setting, from 12 hours and to the remainder add the time of rising next morning.

BAPTIST CHURCH REQUISITES.

- Articles and Covenant \$1.00 per 100. Church Record and Register \$2. and \$3 each. Alphabetical List of Members 40 cents each.

For Consumption

All diseases that lead to it; such as COUGHS, NEGLECTED COLDS, BRONCHITIS, PAIN IN THE CHEST, AND ALL DISEASES OF THE LUNGS.

PRICE \$1 PER BOTTLE. SOLD BY ALL DRUGGISTS. April 22.

50 VISITING OR CALLING CARDS

with your name finely printed, sent for 25 cents. Agents wanted. 6 samples sent for three cent stamp.

Address A. W. KINNEY, ly. Yarmouth, N. S.

C. L. WEEKS, LONDON HOUSE BUILDING, WATER STREET, WINDSOR

SAVE 15 CENTS in every DOLLAR by purchasing your BOOTS and SHOES, HATS and CAPS from C. L. WEEKS. April 14.

CATARH

It cannot be cured by any other means. It is a disease of the bladder, and is characterized by a constant desire to urinate, and by a discharge of a thick, white, or yellowish fluid from the urethra.

April 4.

AGRICULTURE.

DRIVEN OR TUBE WELLS.—An iron tube of 1 1/2 to 3 inches in diameter is driven into any soil reasonably free from stones or like obstruction, to a suitable depth, i.e., to a water stratum. The bottom end is provided with a solid point, and the sides of the pipe just above are pierced with numerous holes.

There are many cases where steam pumps are attached to these driven wells, and are in continual operation. Aside from being practically exhaustless, it also possesses the advantages of purity and coldness.

There are many plants, the odor of which is very agreeable when inhaled in the open air, but in a close room it becomes nauseating. This is particularly the case with the new "Gold Banded Lily," (L. auratum) which blooms very freely when grown in pots; but a single flower will fill a room with its powerful perfume.

BREAKING A COLT.—The colt ought to be broken to halter while following its dam, and between two and three years of age he should be broken to harness. The first lesson of subjection is performed with the biting apparatus.

FOR COLD IN THE HEAD.—Dissolve a tablespoonful of borax in a pint of hot water; let it stand until it becomes tepid; stuff some up the nostrils two or three times during the day, or use the dry powdered borax like snuff, taking a pinch as often as required.

SCIENCE.

NOVEL METHOD OF PREPARING OXYGEN.—The author finds that oxygen may be very readily obtained even at common temperatures by the mutual reaction of two oxygenated compounds formed of several atoms of oxygen, such as hypochlorate of lime and peroxide of barium.

DEATH FROM CHLOROFORM AVERTED.—A correspondent of the British Medical Journal communicates the interesting observation, that in a case of syncope during the administration of chloroform, where the usual treatment was without effect, and death seemed imminent, the application of some lint saturated with nitrite of amyl to the nostrils was followed almost immediately by restoration of the pulse, and the subsequent recovery of the patient.

CHARCOAL FOR OFFENSIVE BREATH.—A correspondent of the Dental Cosmos says that the best treatment in regard to offensive breath is the use of pulverized charcoal, two or three tablespoonfuls per week, taken in a glass of water before retiring for the night.

Mr. Richard Hants, a coal miner, living near Galesburgh, Ill., is reported to have dug out of the earth, fifty feet below the surface, the entire carcass of a petrefied mastodon sixteen feet long and nine feet high, in almost perfect shape.

Wheat flour thrown on kerosene oil fire will destroy the flames. Patience is a plaster for all sores.

AN AUTOMATIC HORSE.—Mr. J. H. Nolan has invented a novel means of locomotion, which the Boston Traveller describes as in the form of an automatic or self-propelling horse, locomotion being produced by the weight of the rider and the weight which is carried.

The "horse" and its appliance are models of mechanical simplicity, and any amount of speed required can be secured, in fact can be made to go a mile faster than the fastest trotting-horse of the day. A small "horse," capable of carrying a man ten or twelve miles per hour, can be built at from fifteen to twenty dollars; smaller ones, which can be used by children for amusement and recreation, can be built at from three to five dollars.

HOUSEHOLD.

HULLED CORN.—This old-fashioned luxury is coming into style again, and as it is really a delicious dish when properly prepared, it may be acceptable to know the modus operandi of doing it right. Take a six-quart panful of ashes (hard wood ashes if possible, as they are stronger); put into an iron kettle, with three gallons of water; let them boil about five minutes; then set off from the fire, and turn in a pint of cold water to settle it.

It is a healthy dish, and although there is work in preparing it, yet it is good enough to pay for the labor and trouble. It is good either hot or cold, and was considered by our grandparents one of the greatest luxuries of the table.

BAKED INDIAN PUDDING.—Two quarts sweet milk, one cup Indian meal, half cup each molasses and sugar, salt, two eggs, a little nutmeg and ginger. Beat all the ingredients, excepting the milk, well together, pour the milk on them, boiling hot, and stir thoroughly together.

FOR COLD IN THE HEAD.—Dissolve a tablespoonful of borax in a pint of hot water; let it stand until it becomes tepid; stuff some up the nostrils two or three times during the day, or use the dry powdered borax like snuff, taking a pinch as often as required.

BAKED INDIAN PUDDING.—Two quarts sweet milk, one cup Indian meal, half cup each molasses and sugar, salt, two eggs, a little nutmeg and ginger. Beat all the ingredients, excepting the milk, well together, pour the milk on them, boiling hot, and stir thoroughly together.

The following advertisement appeared in a late Gloucester newspaper:—"For disposal, the remnant of the stake to which Bishop Hooper was confined at his martyrdom, and dug up some years since on the spot in St. Mary's-square." The people of Gloucester, only the other day, erected a memorial to the martyr on the spot where he suffered death.

Hundreds Cured daily in Nova Scotia

DIAMOND RHEUMATIC CURE.

Effectually curing hundreds of our Nova Scotia citizens from that terrible malady RHEUMATISM.

This statement is substantially a FACT based upon evidence in the possession of the agent, in the shape of numerous testimonials from past sufferers, in the walks of life, and particularly from some of our most respectable and trustworthy families.

IN its history, this invaluable Medicine occupies the most honourable position possible for any remedy to attain. A few years since it was known only to the friends and neighbors and patients of the proprietors, and always sought for by them whenever troubled with Rheumatism, and in this way came to the notice of physicians generally, and through their favorable expression, and its acknowledged value as a Rheumatic Remedy, the demand for it became so frequent and urgent as to oblige its proprietors to increase their facilities for its manufacture.

Its reputation rapidly extended, and soon orders, letters of enquiry, letters of thanks, and certificates of praise were daily received from all sections of the United States and Canada; and in this way on a basis of its merit alone—unaided by "tricks of the trade" or special efforts—it has risen to its present enviable position. Wherever introduced it has received the most flattering preference in the treatment of all rheumatic complaints. In this we are really grateful and happy not alone because our medicine finds ready sale, and is consequently profitable to us, but because we say this, but because we open a new field of medical science, and cure at once what the best medical practitioners have for ages found so difficult even to relieve. We fill a place heretofore unoccupied. We relieve the suffering and minister to God's poor; we restore the laboring to the use of his injured limbs, and save him scores of times its cost in doctor's bills; we carry contentment and gladness into the home of the afflicted, and consequently are remembered by millions of grateful souls.

This medicine is for sale at all the druggists throughout Canada. If it happens that your druggist has not got it in stock, ask him to send for it to FORSYTH & CO., Halifax. General Agent for N. S., and C. B. Oct. 28. JONATHAN PARSONS, B. A. BARRISTER, ATTORNEY AT LAW & C., OFFICE, 138 HOLLIS STREET, HALIFAX. MOTTO:—Prompt Payments. Jan. 3.

Ayer's Sarsaparilla

For Scrofula, and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Eruptions of the skin, Ulcerations of the Liver, Stomach, Kidneys, Lungs, Pimples, Pustules, Boils, Blotches, Tumors, Tetter, Salt Rheum, Scald Head, Ringworm, Ulcers, Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhoea, arising from internal ulceration, and Uterine disease, Syphilitic and Mercurial diseases, Dropsy, Dyspepsia, Emaciation, General Debility, and for Purifying the Blood.

This Sarsaparilla is a combination of vegetable alteratives—Stillingia, Mandrake, Yellow Dock—with the Iodides of Potassium and Iron, and is the most efficacious medicine yet known for the diseases it is intended to cure.

Its ingredients are so skillfully combined, that the full alterative effect of each is assured, and while it is so mild as to be harmless even to children, it is still so effectual as to purge out from the system those impurities and corruptions which develop into loathsome disease.

The reputation it enjoys is derived from its cures, and the confidence which prominent physicians all over the country repose in it, prove their experience of its usefulness.

Certificates attesting its virtues have accumulated, and are constantly being received, and as many of these cases are publicly known, they furnish convincing evidence of the superiority of this Sarsaparilla over every other alterative medicine. So generally is its superiority to any other medicine known, that we need do no more than to assure the public that the best qualities it has ever possessed are strictly maintained.

PREPARED BY DR. J. C. AYER & CO., Lowell, Mass., Practical and Analytical Chemists. SOLD BY ALL DRUGGISTS EVERYWHERE. AVERY, BROWN & CO., Halifax, Wholesale Agent.
