

For the Christian Messenger. Items from Sherwood.

Mr. Editor,—

The first is in reference to the Sabbath School in that place. Unlike many schools in the country they do not close in the autumn, but since the establishment of the school they have kept it up summer and winter. Some six or eight weeks ago, I attended a very interesting Sabbath School Concert, very nicely and ably conducted by the School Teacher—Miss Swinehammer. Quite a variety of exercises were gone through with, and the different classes acquitted themselves well reflecting great credit upon themselves and their teachers. Considering that this is a new interest, and the very limited advantages of education heretofore enjoyed, the concert was a decided success.

The next item is a baptism a few Sundays ago at Card's Lake—one of the most lovely and convenient places for the administration of the ordinance that the whole country can produce. One young man with willing step walked in the path of obedience. Another one is received for baptism, and will probably go forward in the ordinance before long.

The third and last is an adventure with a Bear. Bruin wanted his breakfast one morning last week, and he undertook to help himself to one of Mr. E. E. Card's sheep. In order to do this he had to show himself in the open field where he was seen chasing the flock around. While engaged in the attempt he heard the report of a rifle, and although the ball did not hit him, he thought best to abandon the pursuit and take himself off to the woods again. Failing to obtain a breakfast, he hung around the premises hoping to get some fresh mutton for dinner and was seen once or twice during the day. Having fasted all day, his Bearship made a bold and desperate attempt to get his supper, and he got more than he could carry away, viz., the contents of Mr. Card's rifle, instead of the fat sheep he was hunting for. Just after sunset he made his appearance almost within gun-shot of the house and barn. Mr. Card, rifle in hand, crept across the road to a more convenient shooting distance, his wife and children watching him with the most intense interest. Just as he was preparing to fire upon him the huge brute raised himself upon his hind legs and looked around as if to take a view of the situation, and see what were the prospects before him. The children cried out simultaneously, "Father's gone. He'll be torn to pieces." But this was just what Mr. C. wanted, as it afforded an excellent opportunity to give Bruin what he didn't want, viz., a rifle ball, which entered his breast and lodged under the skin near his back-bone. This was his death wound and his last spring, high in the air, was probably the highest he ever made in his life. After two more shots had taken effect in his head and he was thoroughly dead, if you had been there, Mr. Editor, you would have seen what you never saw before, viz., a large rope around the neck of the black brute, and Mr. and Mrs. Card, and all the children, tackled to it, dragging him to a convenient place to take off his skin, which will make a nice robe for Mr. C's sleigh.

Yours truly, I. J. SKINNER.

The London Tablet regrets that whatever propriety there was in former times in designating France, Austria, Spain, Italy, Bavaria, Belgium, and Portugal as Catholic States "it has almost entirely disappeared." In Spain alone is the Government influenced by the Church, and even in Spain "the Catholicism of the State is superficial and formal, and nothing like a warm support of Catholic interest at home or abroad is to be looked for from those in power." In France, "the eldest daughter of the Church," five of the Ministers of the State are Protestants, and of the remaining four not one is a "practical Catholic," while since Austria became a constitutional State "the Government can no longer be said to have any particular religious character."

REV. M. P. FREEMAN of Great Village, writes on Monday June 9th, "I baptized nine happy converts at Westchester Mountain yesterday. It was a good day for the little church. Two deacons were ordained and the Lord's Supper administered."

DOMINION & FOREIGN NEWS.

The Vice Regal party arrived at Québec on Wednesday. Addresses were presented in French and English. It was raining heavily at the time of their landing. There were however thousands of people to welcome them. They were occupied last week in visiting the institutions.

The Duke of Argyll, father of the Marquis of Lorne, his son Lord Walter Campbell, and two daughters Lady Mary and Lady Elizabeth Campbell arrived at New York on Tuesday last. They went to Niagara on the following day and to Montreal on Friday. It is expected that they will return for Europe about the middle of July.

The Governor General's work, entitled "Travels in the Dominion," will, it is said, be published this season. It will be illustrated by the Princess Louise.

T. J. Claxton & Co., wholesale dry goods merchants of Montreal have suspended. The direct liabilities will reach \$700,000 and possibly a million. The assets consist of stock on hand and some real estate heavily mortgaged. Mr. Claxton produced a statement to the Merchants' Bank last year, in which he showed a surplus of \$150,000 over his liabilities.

The Ontario elections give a majority in favor of the local Government.

ENGLAND.—David Stuart & Co., of Liverpool, in the Eastern trade, have failed. Liabilities £100,000 to £200,000. They are largely indebted to the Presbyterian Missionary Agency in America, for whom they are agents.

The British steamer Devonshire at Liverpool, from Philadelphia, lost 155 cattle during a gale.

The steamer Faraday is loading the new French Atlantic cable. Shore ends and the Brest and Scilly connection are to be laid first, then return to the Thames for deep sea cable, which will terminate at Cape Cod.

The troopship Euphrates, with 1,700 soldiers, left on Tuesday for Natal.

ITALY.—Mount Etna is ejecting enormous volumes of ashes. The destruction of property is immense. Majo is obliterated, and abandoned and Cosello is threatened. Many large and valuable estates are destroyed. Four main craters continue to pour streams of lava while many smaller ones are inactive. The stream of lava which interrupts the road at Passa Pesaro is a half mile wide and a hundred feet deep. It has since stopped.

The River Po breached its embankment near the market town of Revere. The damage is very serious.

One hundred thousand dollars are promised for sufferers by the Alexandria floods and eruptions of Etna. This sum, however, is considered far from sufficient.

Two thousand workmen are employed strengthening the dykes. The River Adige has also risen.

INDIA.—The famine in Cashmere is very serious, and great distress prevails throughout the country. Many towns and villages are depopulated.

Official reports say it is impossible to exaggerate the distress from famine. 3,500 tons of grain are en route there.

Numbers of Burmese troops are going down the river. Forts at Mandalay are about being garrisoned. Much alarm is felt.

Reus.

Pedestrianism and Fishing are now "in." Great feats are being accomplished in both kinds of sport. The former improves the digestive organs whilst the other gives them something to do.

SOME WILD STRAWBERRIES were handed us picked on Saturday last, June 7th, at Dartmouth, a little beyond the residence of John R. Wallace, Esq.

The Bishop of Nova Scotia on Sunday the 1st Inst. administered the rite of Confirmation at Yarmouth to 32 persons, and on Sunday morning last at Annapolis and in the evening at Granville.

At Lunenburg on Thursday last, Judge James sentenced Hirtell to be hanged on the 1st of August, but endorsed the unanimous recommendation to mercy given by the jury.

The Approaching Anniversaries.

Our brethren in the Western Counties will be meeting in Association on Saturday next, at Hebron, Yarmouth, and the N. S. Baptist Home Missionary Union, on the previous day. We should be glad to believe that, especially the latter Anniversary, would have a good number of delegates from the Central and Eastern Churches. We fear however that the long distance and the difficulty of travelling will prevent many from going who would otherwise be glad to be there. We were hoping that long before this the railway between Digby and Yarmouth would be so far completed as to facilitate our meeting with the brethren there this year. We trust they may have the Divine Spirit to guide them to such acts as shall be promotive of the best interest of Christ's kingdom.

The annual meeting of the General Assembly of the Canada Presbyterian Church will be held in St. Andrew's Church, Ottawa, commencing this day Wednesday. Some 350 delegates are expected to be present. Five or six ministers are gone from the Halifax Presbyterian Churches.

The Middleton Singing Class, conducted by Prof. Hall, kindly rendered the Oratorio of Queen Esther, at Margaretville, on the 3rd inst., in aid of a meeting-house at that place. It was a grand success. About \$40.00 were taken at the door.

The Oratorio as rendered by them is worthy of an audience by any where. Those present, not satisfied by paying an admission fee, gave the Professor and his class a hearty vote of thanks for the entertainment and for their kindness in so substantially aiding towards a house for the worship of God.

Great age carries with it a certain respectability whether it is attached to a person or thing. This is seen particularly in the case of Johnson's Anodyne Liniment, which is the most marvelous internal and external remedy ever discovered. It ought to be kept in every house.

If farmers and others continue to buy dust and ashes put up in big packs and sold for condition powders it won't be our fault. We have exposed the swindle time and again. Sheridan's Powders are the only kind we know of worth carrying home.

From James Cochran Esq., Patentee of Cochran's Patent Spinning Wheel. Church St., Cornwallis, N. S., February, 27th, 1879.

"My brother had for more than eighteen months suffered with distressing cough and debility, one side of his breast had shruken in, his strength was fast failing and was to all appearance far gone in consumption; when he commenced using Graham's Pain Eradicator under the proprietors directions. The result of its use was most satisfactory and the cure rapid. He has remained in the enjoyment of good health since using that medicine more than fifteen years ago. We have many times since then proven its efficacy in other forms of disease and pain, and have reason to believe that it has no equal." June 11. 4 in. J. C.

ANOTHER COMMUNICATION from Mr. Geo. Sewell, dated Moncton, N. B., June 22, 1878.

J. H. Robinson, Esq.—Dear Sir—I wrote you in May last informing you of the wonderful cure your "Phosphorized Emulsion of Cod Liver Oil with Lactophosphate of Lime" had made in my case, and, at the same time promising to write from time to time to let you know how I was getting along. I am much better in every way; am stronger; can walk a good long distance without getting tired. Sleep well and eat a hearty meal. In fact I am a new man in every respect, and those who saw me three months ago and see me now, can hardly believe that I am the same person. The above are facts, and believing that ingratitude is one of the unpardonable sins, I feel it a duty to tell you of what, under a kind Providence, your preparation has done for me. Wishing you every success, &c., &c. Price \$1.00 per bottle; six bottles for \$5.00. Brown & Webb; and Forsyth, Sutcliffe & Co., Halifax, Wholesale Agents. Nov. 6. 2 ins.
