The Daily News says that the proposition for the exhibition in London of products of the British Colonies was considered at a recent meeting of the Colonial Institute. It was approved by the president and referred to a committee.

Great excitement prevails over a reported run on the bank of the London and County Banking Company. Origin of report is stated to have begun in a dispute about cab fare in front of the bank which attracted a crowd. It was soon whispered about that the bank was in trouble, and the crowd increased. A genuine run on the bank began and the street has since been blocked with people. A corps of policemen keeping order.

FRANCE.—The Paris correspondent of the Times regards the situation as very critical. The overthrow of the Cabinet, he says, would lead to MacMahon's retirement, and of the government by the extreme Left, whose revolutionary programme would profoundly derange society throughout France.

The Ministerial declaration was read in the Chamber of Deputies on Thursday. It says the senatorial elections are a striking indication of the adhesion of the people to Republican institutions.

M. DeGiradin, in La France, proposes cabinet of the four sections of the Left under the Premiership of Gambetta. The Moderate section, although it unanimously voted that the ministerial declaration was unacceptable, showed during the discussion that they almost all favored the retention of the present cabinet, if Dufaure will consent to ac centuate his declarations.

The Ministerial statement produced an unfavorable impression. The Journal Des Debats expressed regret that the Government did not employ more animated and cordial language. The Republique Francaise says the Government must rely only upon the significance of their acts and the frankness of their attitude, as a declaration will be of no assistance. The Siecle says the Government spoke for 20 minutes without pronouncing a single word that they ought to have spoken. The Figaro says: "The Ministerial statement is a political testament which will not prevent the fall of the Cabinet." The Constitutional, Gaulois and Soliel praise the Government programme. The Rappel Voltaire, Marsellaise and Revolution Française veheacterize it as void of purpose.

The question of a ministerial crash is discussed everywhere, and the general impression prevails that the Cabinet can scarcely remain in office after such an unfavorable reception of their programme in the Chamber. The Siecle, indeed, express the opinion that the Ministry cannot survive more than twenty-four hours.

The public galleries and lobby of the Senate were on Monday densely crowded. During the suspension of the sitting of the Chamber of Deputies the Government effected a compromise with the Left, thus securing a majority for the Ministry. On the re-assembling of the Chamber, Jules Ferry offered his motion, expressing confidence in the Government, which was adopted, 223 to 121.

GERMANY .- It is rumored that Bismarck is preparing a bill authorizing the opening of all letters at the frontier.

A Berlin correspondent says the Libberals, despite their opposition to the gag law, are convinced that further restrictions are absolutely necessary to guard against the abuse of speech in the Reichstag, though they are strongly opposed to the Chancellor's remedy, pure and simple, as drastic. The opins gaining ground that he will coerce or cajole them to his purpose.

The Governmental Post complains of a bitter tone characterizing English criticisms of the measure. It thinks Engand's opposition to the bill is nothing more than another form of her antipathy te the Chancellor's Protectionist policy.

Conservative journals agree in expressing scruples about the article of Parliamentary discipline bill which provides for handing an offending member over to the courts. This is interpreted to mean that the Government will sacrifice that provision because a constitutional difficulty has been discovered, and not as a concession to the Reichstag.

A Berlin despatch says it is reported

This Sarsaparilla is a combination of vegetable alteratives - Stillingia, Mandrake, Yellow Dock - with the Iodides of Potassium and Iron, and is the most efficacious medicine yet known the diseases it is intended to cure.

Its ingredients are so skilfully combined, that the full alterative effect of each is assured, and while it is so mild as to be harmless even to children, it is still so effectual as to purge out from the system those impurities and corruptions which develop into loathsome disease. The reputation it enjoys is derived

from its cures, and the confidence which prominent physicians all over the country repose in it, prove their experience of its usefulness.

Certificates attesting its virtues have accumulated, and are constantly being received, and as many of these cases are publicly known, they furnish convincing evidence of the superiority of this Sarsaparilla over every other alterative medicine. So generally is its superiority to any other medicine known, that we need do no more than to assure the public that the best qualities it has ever possessed are strictly maintained.
