

A good sign appears by a notice that the soup kitchen would be discontinued after Saturday last.

A notice was given the other day in the Dartmouth Council of the intention of one of the Councilors to move that from and after the 1st of April the Salaries of all employees be reduced 10 per cent.

The gas works of the Pictou Gas Company were sold at public auction by the Sheriff on Saturday last, on account of the foreclosure of a mortgage. Mr. David McCulloch was the purchaser, for the sum of \$3,950. The property cost originally over five times the amount.

The Liverpool Advance reports that a young man named Jacob Rose, employed in a factory at Caledonia, Queens, had his hand caught in the machinery, drawn in and terribly mangled. His arm had to be amputated.

VEGETINE.

The Watchmaker's Report.

EVANSVILLE, IND., Dec. 27, 1877. DR. H. R. STEVENS:—

I have suffered with SCROFULA and SCORFULA HUMORS ever since I could remember; it has been in our family for years before I was born. I inherited it. I have tried all kinds of medicines. After having used a great many other patent medicines, after having paid many large doctor's bills, I heard from a neighbor that VEGETINE had cured him. I had good faith because I saw it, and so I went to the Duddenhausen Eagle Drug Store to purchase a bottle of the VEGETINE. I kept taking the VEGETINE, and, in fact, I became better and better. When I had taken several bottles all SCROFULA SORES and marks were gone; my health very good. It is the best blood purifier I ever tried. It will cure SCROFULA. It took the sores and humors off my face; it gave me a clear skin. Everybody who has got SCROFULA HUMORS should try it.

FERDINAND SCHNICK, Watchmaker, Main St. I know the above to be true. DR. CHAS. M. DUDDENHAUSEN, Apothecary, 519 Main St.

VEGETINE is now acknowledged by our best physicians to be the only sure and safe remedy for all diseases arising from impure blood, such as scrofula and scrofulous humors.

VEGETINE.

For General Debility.

DANFORTH, ME., Oct. 2, 1877.

MR. STEVENS:— My health has always been poor. Have taken a great many kinds of medicine, but never took any that could begin to help me like the VEGETINE. One year ago last March, I had the LUNG FEVER; it left me very feeble for a long time. I could do but very little work, and hard for me to do a little. I had never heard of VEGETINE. One day I saw the advertisement in a paper. I felt if I could get that it would help me. I sent the next day and got one bottle, and before I took one bottle, I could see good effects from the medicine. After taking a few bottles I could do a good washing. I have taken seven bottles, am sixty-five years old, never was so well in my life and never was so fleshy, for which I feel grateful to you and to our Heavenly Father. I recommended it to all around me, for I prize it above all other medicines. Respectfully yours, Mrs. L. R. HOWARD.

THOUSANDS will bear testimony (and do it voluntarily), that VEGETINE is the best medical compound yet placed before the public for the renovating and purifying the blood, eradicating all humors, impurities or poisonous secretions from the system, invigorating and strengthening the system debilitated by disease; in fact, it is, as many have called it, "The Great Health Restorer."

VEGETINE.

Kidney Complaints.—Dyspepsia.

LEWISTON, ME., Nov. 5, 1877.

MR. R. H. STEVENS:— DEAR SIR,—My father has been afflicted with DYSPEPSIA and KIDNEY COMPLAINT for the last ten years, and has been a great sufferer. Our family and the neighbors thought we should lose him. About six months ago he commenced taking your VEGETINE. Now he is a well man, but he would not be without the VEGETINE in his house, and he advises all persons afflicted with these complaints to give the VEGETINE a fair trial, and they will be satisfied that it will cure them. He had tried all kinds of medicines without success before taking the Vegetine. I have myself been unwell for a long time. My father wrote to take the VEGETINE, and I have, and can truly say that I never felt better in my life than I do now. J. A. CROSS, No. 3 Chestnut Street, Lewiston, Me.

Deaths.

At Farmington, Wilmot, Feb. 15th, Avard, youngest son of James D. and Francis Phinney, aged 30 years. His happy genial disposition had won for him the friendship of all who knew him. He will be much missed in the social circle and in the house of God, but especially will he be missed at home. In this stroke death has spoiled many bright hopes of the aged parents who had planned to spend their declining years in quiet with their son, expecting him to close their eyes when they grew dim in death and then follow them to the grave of their fathers. But in sadness they are learning that man appoints but God ordains. Dark though this providence appears yet they know the promise is sure "All things shall work together for good to them that love God and are called according to his purpose."—Com.

On the 18th February, after a short and painful illness of only ten days, which was borne with Christian submission to the Divine will, Cecelia Mary, aged 39 years, beloved wife of W. A. The year following she married and removed to Avonport, where she united with the Baptist Church at Hantsport, of which church she remained a member until her removal by death. Her aged parents survive her, they with her brothers and sisters reside in New York City. Her funeral was attended by a very large number of friends on Thursday the 20th, and on following Sunday a very impressive and appropriate sermon was preached by the Rev. E. Whitman, which was listened to by a crowded assembly, from Heb. xiii. 14.—New York papers please copy.

PRESERVE

AND RESTORE YOUR HORSES,

BY THE USE OF DR. WOODBURY'S

Horse Liniment

It is a desideratum, the want of which has long been seriously felt by proprietors of horses. All persons who are so situated as to be compelled to keep their horses stabled, know how difficult it is to prevent their feet from becoming feverish, dry, and contracted, with all the innumerable evils attendant on stabling, high feeding, and driving over hard roads.

To all owners of horses so situated, the Proprietor of this Liniment confidently offers it as THE REMEDY, both as a preventive and cure.

Its action is to remove fever and dryness, thereby causing the hoofs which have become hard and brittle, to be softened and elastic, and promotes the rapid growth and full development of soft new hoof in such a manner, as can be best appreciated by being witnessed.

Its beneficial effects are so prompt and decided, as frequently to very far exceed the anticipations of the most sanguine—to excite their admiration—and secure their highest confidence. All horses that are stabled, should have an application of this Liniment to the hoofs of the fore feet, once in every two or three weeks, to prevent their becoming feverish, dry, brittle, hard, contracted, or otherwise injured.

Horses that are foundered, or whose hoofs are contracted, or in any way diseased, should have this Liniment applied to every part of the hoof, every third or fourth day. The more inveterate the case, the more frequent should be the application; and in cases of long standing, should be continued for a sufficient length of time for the old or diseased hoof to become softened, and the growth of the new fully developed.

The Liniment should be applied to every part of the hoof, and rubbed gently into the hair around the upper part of the hoof. It can be best applied with a small brush. While this Liniment is

The only Decidedly Reliable Remedy Known

For all affections of the Horse's Hoof, it is equally efficacious in the removal of Splints, Curbs, Bog Spavins,

and in all cases of Bruise or Strain in the Joints or Tendons, and enlargements of any and every description, and given internally, will promptly relieve and remove any and every character of COUGH, ENLARGEMENT OF THE GLANDS, AFFECTIONS OF THE KIDNEYS, &c.

And in our prevailing Horse Distempers, given in doses of a table spoonful, two or three times a day; it is, infallibly,

THE REMEDY!

A Cough which cannot be removed by this Liniment, may be considered incurable. For Coughs, Enlargements of the Glands, or Affections of the Kidneys, give a table spoonful night and morning in their feed.

For Splints, Curbs, Bog Spavins, or Enlargements of any kind, apply it freely to the part, night and morning, until it blisters, which will be readily known by sweating or weeping of the part, which will soon dry, and form a thick scurf or band; allow this to remain until it falls off or rubs off quite easily, which will be in from six to ten days; and then if the enlargement be not entirely removed, repeat the application as before.

As the Proprietor of this Liniment is quite aware of the many worthless nostrums offered to the public at the present time, he would beg to say, that all articles manufactured by him are strictly WARRANTED to effect that for which they are recommended, when used according to directions. Use this preparation thoroughly, for all and every disease of the Horse for which it is recommended. Criticise it closely. Carefully watch, mark, and note its effects; and honestly judging it on its merits, you will be compelled to endorse the sentiment, that NO STABLE SHOULD BE WITHOUT IT.

It is put up in Four Ounce Bottles, at 45 cents per Bottle.

A liberal discount to the Wholesale Trade. J. WOODBURY, M.D., Proprietor. Middleton, Annapolis Co., N. S.
