Shelburne Co.—To be a Commissioner of schools for the District of Barrington, George Wilson of Barrington.

Halifax County.—To be Justices of the Peace—Samuel White, Senior, Pros- pect; Martin Walsh, Prospect; Henry N. Paint, Halifax; Dennis DeLoughry, Preston; Andrew Tulloch, Cole Harbor, James O'Leary, Newid Quoddy.

Pictou Co.—To be Justices of the Peace.—William A. Moore, Pictou; William B. Henderson, Pictou. To be a Notary and Tabellion Public—Charles E. Tanner, Barrister, Pictou.

On Sunday evening there was almost a serious accident at the Ferry Wharf. Mrs. Brown, wife of Capt. Brown, of the Government steamer "Glendon," and his daughter, about 10 years of age, were leaving the Dartmouth ferry steamer and attempting to get off before she touched the bridge, or the chain was fastened, they both fell down into the water. Capt. Brown and Mr. Marks, the mate of the steamer, immediately jumped down and held them up till lights were brought and they were lifted up again, not injured, except by the severe shock and the wetting. There being so few accidents of this nature, people become less careful than they should be.

The Dartmouth Town Council are becoming notorious by an attempt to return the fine of \$20 to a rum-seller convicted of selling liquor on the Sabbath. An injunction has been issued by the Supreme Court forbidding the payment of the same.

Our City Council purpose establish- ing an ordinance that fish—codfish, had- halbut, haddock, salmon and pollock—shall all be sold by weight.

In Dartmouth a house belonging to Mr. J. H. Austen was burnt down yester- day morning.

Wm. Cunard Esq., is expected to visit Halifax next month. It is said his visit will be in relation to the intended sale of his manison at the N. W. Arm to His Excellency the Governor General, for a summer residence:

At Mahone Bay on Sunday morn- ing a house owned and occupied by Mr. John Langille, was destroyed by fire. Mr. Langille, while attempting to put out the fire, was burned to death. Only a few bones were found among the ruins. He leaves a widow and one child. Nothing was saved from the house. No insurance. Loss prob- ably \$800.

THE FIRST SALMON OF THE SEASON.—We are told by a correspondent at Mill Vil- lage, on whose information we can rely, that an Indian caught with a fly in the Port Medway River, at Mill Village, on Tuesday and Thursday of last week, two salmon; one weighing 17 lbs., and the other 7lbs., which he readily found sale for at 50 cent per lb. Good for Queens I.—Liverpool Advocate.

The Truro Guardian reports a rebel- lion in the Normal School of so serious a nature that Dr. Allison has been called upon to settle the difficulty. An official investigation will probably be held.

The store of Mr. C. H. Blair, Prince Street, Truro, was burglarized on Wed- nesday night last. The safe was opened and a small sum of money stolen.

Mr. Miller living on the Common was robbed of about \$700 last week. Detective Hunt was employed and succeeded in finding the thieves, one of them liv- ing in the same house. One named Mil- ler was arrested at Wellington station and the other named Lhanan at Elms- dale some of the money was found on them.

A sad accident occurred at Blue Mountain, Pictou Co., on Friday last. A little boy between four and five years of age, named Evan Sutherland, eldest son of John and Margaret Sutherland, was drawing water when he slipped and fell into the well head first. An hour elapsed before he was missed. Efforts were made to restore him to life, but were of no avail.

The steamer Northern Light arrived at Pictou on Saturday in six hours from Georgetown, P. E. I. She brought over a full load of freight. She left to return early Sunday morning taking seven passengers and a general cargo, including a lot of English goods for Island mer- chants. It is proposed now to make daily trips if possible.

Rev. John Brown writes from Para- disia:—"There have been no more cases of death from diphtheria than that re- corded last week. The family where the death occurred having used every possible precaution by the use of dis- infectants and other means to prevent it spreading. The other and only case now recorded. She is a sister of the young person who died.

DIPHTHERIA has for a long time been very prevalent and very fatal. Its fatality seems to be greatly owing to neglecting what is supposed to be an ordinary cold or sore throat until it has progressed to its last stages, and then when medical aid is procured it has often been found to be too late. From the fatality attending this disease every family should keep a suitable remedy on hand and use it on the first appear- ance of sore throat. A preparation called DIPHTHERINE has been placed be- fore the public. It is the discovery of an English Physician and has been re- garded where it is used to be an infallible remedy for that disease. To place it within the reach of all it is put up in bottles with full directions, and sold by Druggists and Dealers in medicines at the low price of 25 cents a bottle.

Another communication from Mr. Geo. Sewell, dated Moncton, N. B., June 22, 1878.

J. H. Robinson, Esq.—Dear Sir—I wrote you in May last informing you of the wonderful cure your "Phosphorized Emulsion of Cod Liver Oil with Lacto- phosphate of Lime" had made in my case, and, at the same time promising to write from time to time to let you know how I was getting along. I am much better in every way; am stronger; can walk a good long distance without get- ting tired. Sleep well and eat a hearty meal. In fact I am a new man in every respect, and those who saw me three months ago and see me now, can hardly believe that I am the same person.

The above are facts, and believing that ingratitude is one of the unpardon- able sins, I feel it a duty to tell you of what, under a kind Providence, your preparation has done for me. Wishing you every success, &c., &c.

Price \$1.00 per bottle; six bottles for \$5.00. Brown & Webb; and Forsyth, Sutcliffe & Co., Halifax, Wholesale Agents. Nov. 6. 2 ins.

INVALIDS, do you wish to gather flesh to acquire an appetite, to enjoy a regular habit of body, to obtain refreshing sleep to feel and know that every fibre and tissue of your system is being braced and renovated? If so, commence at once and use the Quinine Wine prepared by North- rop & Lyman of Toronto, and in a short time you will feel the wholesystem invig- orated and strengthened. It is a well- known fact that Quinine has been ac- knowledged by the medical faculty for many years as the best appetizer and tonic known. And for general debility, this combination will be found superior to all other preparations. And combined as it is with fine sherry wine and choice aromatics, it is made an agreeable and plea- sant invigorator to the whole system. The peculiar operation of this medicine in general debility and as an appetizer, has undergone long and close observation and it is believed it will never fail, if properly and judiciously administered, unless other diseases predominate of a different character. Persons of weak constitution may take it without the least difficulty, as it strengthens the stomach and digestive organs, and seldom requires more than one or two bottles to effect a decided benefit, as it contains nothing in- jurious to the most delicate constitution. Remember to ask for the "Quinine Wine prepared by Northrop and Lyman, Toron- to," and we are sure you will be satisfied that you have full value for your money. Sold by all Medicine Dealers.

PRESERVE AND RESTORE YOUR HORSES, BY THE USE OF DR. WOODBURY'S

Horse Liniment

It is a desideratum, the want of which has long been seriously felt by proprietors of horses. All persons who are so situated as to be compelled to keep their horses stabled, know how difficult it is to pre- vent their feet from becoming feverish, dry, and contracted, with all the innumera- ble evils attendant on stabling, high feeding, and driving over hard roads.

To all owners of horses so situated, the Proprietor of this Liniment confidently offers it as THE REMEDY, both as a preventive and cure.

Its action is to remove fever and dry- ness, thereby causing the hoofs which have become hard and brittle, to be soft- ened and elastic, and promotes the rapid growth and full development of soft new hoof in such a manner, as can be best ap- preciated by being witnessed.

Its beneficial effects are so prompt and decided, as frequently to very far exceed the anticipations of the most sanguine—to excite their admiration—and secure their highest confidence. All horses that are stabled, should have an application of this Liniment to the hoofs of the fore feet, once in every two or three weeks, to pre- vent their becoming feverish, dry, brittle, hard, contracted, or otherwise injured.

Horses that are foundered, or whose hoofs are contracted, or in any way diseased, should have this Liniment applied to every part of the hoof, every third or fourth day. The more inveterate the case, the more frequent should be the application; and in cases of long standing, should be continued for a sufficient length of time for the old or diseased hoof to become softened, and the growth of the new fully developed.

The Liniment should be applied to every part of the hoof, and rubbed gently into the hair around the upper part of the hoof. It can be best applied with a small brush. While this Liniment is

The only Decidedly Reliable Remedy Known

For all affections of the Horse's Hoof, it is equally efficacious in the removal of

COUGH, ENLARGEMENT OF THE GLANDS, AFFECTIONS OF THE KIDNEYS, &c.

And in our prevailing Horse Distempers, given in doses of a table spoonful, two or three times a day; it is, infallibly,

THE REMEDY!

A Cough which cannot be removed by this Liniment, may be considered incurable. For Coughs, Enlargements of the Glands, or Affections of the Kidneys, give a table spoonful night and morning in their feed.

For Splints, Curbs, Bog Spavins, or En- largements of any kind, apply it freely to the part, night and morning, until it blisters, which will be readily known by sweating or weeping of the part, which will soon dry, and form a thick scurf or band; allow this to remain until it falls off or rubs off quite easily, which will be in from six to ten days; and then if the enlargement be not entirely re- moved, repeat the application as before.

As the Proprietor of this Liniment is quite aware of the many worthless nos- trums offered to the public at the present time, he would beg to say, that all articles manufactured by him are strictly WAR- RANTED to effect that for which they are recommended, when used according to directions. Use this preparation throug- hly, for all and every disease of the Horse for which it is recommended. Criticise it closely. Carefully watch, mark, and note its effects; and honestly judging it on its merits, you will be compelled to endorse the sentiment, that NO STABLE SHOULD BE WITHOUT IT.

It is put up in Four Ounce Bottles, at 45 cents per Bottle.

DR. HALL'S ELECTRIC BELTS.

For the cure of all nervous diseases, without the least derangement of the patient's habits or daily occupation. This appliance exerts powerful and beneficial influence throughout the whole frame; is applicable to either sex, and affords instantaneous relief in the following dis- eases:

RHEUMATISM, NEURALGIA, DYSPEPSIA, LUMBAGO, GENERAL DEBILITY, HEADACHES, DIZZINESS, IMPOTENCY, SPERMATORRHEA, SEXUAL EXHAUSTION, SELF ABUSE, PREMATURE DECAY, &c.

These Belts are the result of the most profound research and experiment in Electro-Therapeutics, and by their pecu- liar construction, a continuous "gal- vanic current" is generated, which per- meates the whole frame, and especially envelops the suffering parts with its gentle influence. This current assimila- tes closer to the NERVOUS FLUID than any thing known to Medical Science— hence its potency as a curative agent.

Most especially is the application of Electricity in this form beneficial to those disorders arising from youthful indiscre- tion, sexual excess or dissipations of any kind, whereby the pro-creative powers are lessened and Impotency threatened. No false delicacy or sense of shame should prevent the sufferer, subject to restless nights, night-mare, dreams, palpitation of the heart, neuralgia, dimness of sight and other symptoms of nervous and physical debility, applying to the under- signed for relief.

These Belts are light, perfectly flexible, and easily adjusted, all of which, to- gether with their cheapness, renders them superior to any other form, for the application of Electricity, medicinally.

Over 30,000 of these belts were sold in Europe in the year 1876.

"Electricity is Life," And no remedy can be compared to it for the treatment of IMPOTENCE and loss of nervous vitality.

This Belt is recommended by the most eminent physiologists of this country and Europe.
