DEN,

NOTE FROM ACIER. - Dear Editor, -What is the reason that your compositor was permitted to misspell the name of one of the ladies mentioned in "These from the vestry clerk's room. Gay Baptists?" If you refer to my usually plain manuscript (!) you will see the name is Flounce to match Bounce. Not the sweetly sounding Florence. I aimed my shafts at some of the flouncing bouncing young lades with the hope of doing them some good. I trust the arrow may find the right mark, and smite to the quick the silly people who indulge in amusements worthy only of the world and its votaries.

Yours faithfully,

On Sunday evening Miss Anhie Mac-Lean, while attending St. Matthew's Church, took a fainting fit just before the service began. She was conveyed to the vestibule of the Church and Dr. Lawson sent for, but before he arrived she expired. Heart disease is supposed to have been the cause. Deceased is a sister of Mr. George MacLean, of the Merchants' Bank.

Auraline is a great healer.

A serious robbery of letters was discovered on Saturday last. A young man named William Egan, formerly in the employ of Black Brothers & Co., but who had been dismissed for some "irregularities," having obtained a red ticket went to the Post office and asked for Registered Letters for Messrs. Black Bros. One was given him which he got, but what it contained is not yet ascertained. He then obtained one in the same way belonging to Messrs. Bauld & Gibson, containing \$60.68 and a draft for \$59. On Friday last he secured a third letter with \$200 and signed the receipt "C. F. Lindsay." On enquiry it was found he had left for Fredericton, N. B. By a clever move on the part of the Detective he was arrested at Brookfield and brought back to the city. On being asked for the money he handed over \$200. On being searched \$20 more was found on him. He was examined on Monday and committed for trial in the Supreme Court.

The annual meeting of the subscribers of the Halifax Institution for the Blind took place in the School on Morris Street, on Saturday afternoon. A number of the leading gentlemen of the city were present. Mr. J. S. MacLean, in the chair. Bishop Binney moved the adoption of the reports, referring at length to the marked success of the Institution. The motion was seconded by the Rev. A bad fire occurred early on Friday morning, in the Acadian Hotel. It was discovered by a servant girl being awakened by the smoke in her room. She soon gave the alarm and the inmates were aroused and removed. Several streams of water were shortly playing on the flames which were thus confined to the Hotel and the fire was put out by 4 o'clock. It was a marvel that the whole block was not burned down.

Pause, Ponder and Peruse!!-The invention of that Superior and Complete Sewing Machine (The Family Sewing Machine), marks one of the most important eras in the history of machinery, and when we consider its great usefulness and extremely low price (\$25), it is very difficult to conceive of any invention for domestic use of more or even equal importance to families. It has great capacity for work; beautiful, smooth, and quiet movement, rapid executiou, certainty and delightful ease of operation, that at once commends it above all others. The working parts are all steel, strong and durable and will last a life time; the bobbins hold 100 yards of thread; the stitch is the finest of all the stitches made, neat and regular, and can be regulated in a moment to sew stitches from an inch in length on coarse material down to the finest, so infinitesimal as to be hardly discernable with the naked eye, and with a rapidity rendering it impossible to count them as fast as made; it has more attachments than any other, and it does to perfection all kinds of heavy, coarse, plain, fine, or fancy needle-work with ease, and far less labor than required on other machines. It needs no commendation, the rapid sales, increasing demand, and voluntary encomiums ing its popularity each day. Machines sent anywhere to be examined before any money is paid.
