The essays to be written in school hours in the presence of the teachers. The teachers were to select the best essays, which would be submitted to His Lordship the Bishop of Nova Scotia and the Mayor of the city to judge of their merits and award the prizes.

The Eastern Chronicle publishes an account of a very ingenious burglary perpetrated in New Glasgow. The burglars succeeded in entering the office of Messrs. James Fraser & Sons and took therefrom a small safe. The safe weighed about 140 lbs., and was found the next day in a field not far away from the store. An unsuccessful attempt had been made to open it, but why it was left where it was is somewhat mysterious. It contained many valuable papers but no money.

Telephonic communications was opened, for the first time, last evening between Halifax and Yarmouth. Mr. A. E. Hoyt superintended the operation at the Yarmouth end of the line, and conducted, with others, a perfectly distinct conversation with parties in the Western Union Office in this city. It was an occasion of much interest and amusement.

ANOTHER COMMUNICATION from Mr. Geo. Sewell, dated Moncton, N. B., June 22, 1878.

J. H. Robinson, Esq.—Dear Sir—I wrote you in May last informing you of the wonderful cure your "Phosphorized Emulsion of Cod Liver Oil with Lactophosphate of Lime" had made in my case, and, at the same time promising to write from time to time to let you know how I was getting along. I am much better in every way; am stronger; can walk a good long distance without getting tired. Sleep well and eat a hearty meal. In fact I am a new man in every respect, and those who saw me three months ago and see me now, can hardly believe that I am the same person.

The above are facts, and believing that ingratitude is one of the unpardonable sins, I feel it a duty to tell you of what, under a kind Providence, your preparation has done for me. Wishing you every success, &c., &c.

PAUSE, PONDER AND PERUSE!!—The invention of that Superior and Complete Sewing Machine (The Family Sewing Machine), marks one of the most important eras in the history of machinery, and when we consider its great usefulness and extremely low price (\$25), it is very difficult to conceive of any invention for domestic use of more or even equal importance to families. It has great capacity for work; beautiful, smooth, and quiet movement, rapid execution, certainty and delightful ease of operation, that at once commends it above all others. The working parts are all steel, strong and durable and will last a life time; the bobbins hold 100 yards of thread; the stitch is the finest of all the stitches made, neat and regular, and can be regulated in a moment to sew stitches from an inch in length on coarse material down to the finest, so infinitesimal as to be hardly discernable with the naked eye, and with a rapidity rendering it impossible to count them as fast as made; it has more attachments than any other, and it does to perfection all kinds of heavy, coarse, plain, fine, or fancy needle-work with ease, and far less labor than required on other machines. It needs no commendation, the rapid sales, increasing demand, and voluntary encomiums from the press, and the thousands of families who use them, amply testify to their undoubted worth as a standard and reliable household necessity, extending its popularity each day. Machines sent anywhere to be examined before any money is paid. AGENTS WANTED by the Company. Address them for information. FAMILY SEWING MACHINE CO., 735 BROADWAY, NEW YORK. Oct. 22.

At Annapolis Royal on Sunday morning last after service in the Methodist Meeting house, the officiating minister and some others discovered the building to be on fire. An alarm was given and through the exertions of the firemen and others the fire was extinguished without doing very great damage.

MESSRS. T. GRAHAM & SON,—

DEAR SIRS,—It gives me great pleasure to inform you of my perfect cure of CATARRH, from which I have suffered in its most severe form for 12 years without being able to find a remedy for it, and I had long thought that nothing could cure me, but thanks to Providence and the use of your valuable preparation, CATARRHINE, I have been completely cured of that distressing and, I might say disgusting complaint, and I only used one box. I can confidently recommend it to any suffering from that complaint. Price 25 cents a box. Yours truly, C. F. F. SCHOPPE.
