A hippotamus which escaped from menagerie at Rochester, N.Y., a few nights ago, was subsequently found standing in the water some miles off, fast asleep.

Some years ago a resident of Hartford, Conn., bought and set out thirty young apple trees. On one of them he neglected to remove the wooden label which was attached to one of the limbs by a copper wire. Two years later he found that the copper wire was entirely imbedded and out of sight, in the bark of the tree, and that year the limb was so heavily loaded with apples that he was

TESTIMONIAL FROM MAJOR GOOL PAYMASTER TO HER MAJESTY FORCES.

HALIFAX, N. S., 9th June, 1879. DEAR SIR:

My cow having been under the effe of lead poisoning, has been successful treated by Mr. Byrne, Veterinary Surgeo and having become much emaciated from its effects, I was induced to try yo "Nutritious Condiment." The result have been most satisfactory. After usin the Condiment for a short time, she h not only regained her usual tone, bu instead of only a few quarts of milk dai she is now yielding fourteen and t quality is much richer, and we had plenty of cream for butter, and oth purposes. I do believe the Condime to be everything that is claimed for and can recommend it with confiden to others. You are quite at liberty to publish foregoing Yours very truly, J, K. GOOLD. "When I was a boy," said a very prosy, long-winded orator to his friend, "I used to talk in my sleep." "And now," said his friend, " you sleep in your talk." But somehow that didn't seem to be just exactly the point the orator was going to make.

John Wilkes was once forced to listen to a garrulous story-teller whose prolixity wearied him. A friend excused the lack of pith and power by saying, "He is in his dotage." "Dotage, sir ! he is past dotage, he has got to anecdotage !"

A little boy once called out to his father, who had mounted his horse for a journey, " Good-by, papa; I love you thirty miles long." A little sister quickly added-" Good-by, dear papa ; you will never ride to the end of my love.' Drink cayenne pepper tea for a cold.

while using, as ordinarily.

In England a heavy fine is imposed on any persons who sell bread having alum in it. In a recent case there were found 36 grains to a 4 lb loaf and the baker was fined £5 and costs.

PREPARED VEAL .- Chop 3 pounds of yeal steak with two slices of salt pork, a handful of sage, a little salt and pepper, chop fine, add three or four pulverized crackers, and two eggs, mix all well together, and form into a loaf. Bake in a two quart pan two hours. Add a little water when in the pan, and sprinkle a handful of rolled cracker over

the loaf. This to be sliced off and eaten cold. It is nice for tea, and excellent to take to picnics or excursions for sandwiches. Please try it ; I think you will say it is nice.
