SAVE THE NATION!

For it is sadly too true that thousands of children are STARVED TO DEATH every year by improper or insufficient food. Remember,

RIDGE'S FOOD FOR INFANTS AND INVALIDS.

Is all and a great deal more than we have claimed for it. It is simply a HIGHLY NUTRITIOUS and easily assimilated FOOD, grateful to the most delicate and irritable stomach, and especially adapted for the INFANT and GROWING CHILD.

Invalids, Nursing Mothers, and those suffering from INDIGESTION will find on trial that RIDGE'S FOOD FOR INFANTS AND INVALIDS, is all they can desire.

Constant users will find our No. 4 size (always the most economical size to buy) now much larger than formerly, thus materially lessening the expense.

THE HOUSEHOLD

COCOANUT DROPS.—One pound grated cocoanut, only the white part, one pound white sugar, whites of six eggs beaten to froth; have enough whites to wet the whole stiff; drop on buttered tins, the size of a cent. Bake immediately.

APRUNE PUDDING.—Two quarts of dry bread crumbs, one large tablespoonful of butter, one small teacup of sugar one egg, one tablespoonful of ground cinnamon. Mix and pour over these one quart boiling milk.

EXTEMPORÉ SHADE FOR READING LAMP.—An additional shade can sometimes be used with comfort, and is made in a moment, as follows: Take a half sheet of letter paper, or any somewhat similar piece of stiff paper; turn down about an inch and a half of one side of it, and emphasize the turn by a scrape with thumb-nail or paper-cutter.

A dish equal to the best steak, and cheap enough for any man, is prepared from a shank of beef with some meat on it. Have the bone well broken; wash carefully to remove bits of bone; cover with cold water; watch when the boiling begins, and take off the scum that rises.

SWEET OMELET.—Mix the yolks of two eggs, a teaspoonful of sugar, and some essence of vanilla in a small bowl. Add a small pinch of salt to the whites of the eggs, and whip till stiff.

TO REMOVE INK STAINS.—Take of muriate of tin, 2 parts; water, 4 parts. To be applied with a soft brush, after which the paper must be passed through cold water.

Popcorn balls may be easily made at home after the following recipe: For one peck of nicely popped corn, melt one pound of sugar, add half a teacup gum arabic (dissolved), boil until sticky.

AGRICULTURE.

RAISING FLOWERS FROM SEED.—In raising plants from seeds in boxes in the kitchen window it will be sufficient just to cover the seeds with sand and press it down gently upon them.

Verbenas raised from seeds will blossom much fuller than those raised from cuttings. A paper of seed of the rarest varieties will cost not over twenty five cents, and I have seen fifty of the handsomest varieties of verbenas in beautiful bloom that was procured from seeds.

Transplanted singly into "thumb pots," they will soon grow into fine, stocky plants; and as soon as all danger of frost has passed they can be put into the border, where they will bloom

all summer, and afford plenty of seed for another year. In many parts of the country they sow themselves as thickly as the portulacca, and if the beds are left untouched until the seedlings are large enough to be taken up plenty of plants are found.

Asters, mignonette, sweet alyssum, candytuft, coreopsis, chrysanthemums, feverfew, etc., etc., will also sow themselves in the garden beds if they are left undisturbed until late in the season; and a large supply of flowers can be obtained without any cost and only the labour of transplanting.

The percentage of Sugar obtained from Messrs. E. & S. Smith's Sugar Beets, grown at Windsor, is equal to two tons of Sugar per acre, and this may be increased considerably by improved cultivation.

If our Halifax Sugar Refinery can supplement its regular supplies of West India Sugars by the Beet Pulp from our own farms, it may be enabled to compete successfully with the Quebec Factories in supplying the toiling millions of this Dominion with a cheap grade of Sugar.

VARIETIES.

N. York Hopeful to papa, who had been absent—"Papa, I was run over yesterday." Papa—"What! You were not hurt? How did it happen?" Young H.—"Oh, I was run over by the elevated railroad." (Papa wonders if his heir won't some day be President.)

Mr. Tennyson has been writing two sets of juvenile verses for an American magazine, something after the same order as the oft-parodied stanzas which he contributed to Good Woods several years ago. The first verse of his new poem runs:—

Minnie and Winnie Slept in a shell. Sleep, little ladies! And they slept well.

This has brought to the fore many rival bards, with what result the following, from a promising poem that lies before us, may serve to show:—

Johnny and Billy Slept in a bed, When not kicked out By their brother Fred.

An impertinent busy-body importuned a young lady with the question, "What shall I say to people who ask me if you are going to be married?" "Say the truth," the girl promptly replied. "Yes, and what is the truth?" continued the questioner eagerly. "That you know nothing about it!" was the conclusive answer.

Little Bessie S., five years old, having been rather sharply reproved by her mother for some misconduct, after a moment's pause says: "I should fink, mamma, from the way you act toward me, you was my step-mover."

A German paper contains an obituary in which occurs the following: "Our dear son Gustav lost his life by falling from the spire of a Lutheran church. Only those who know the height of the steeple can measure the depth of our grief."

Lady Examiner: Tell me what is an average? Child: A thing to lay eggs on. Mother says our hens lays six eggs a week on an average.

Before marriage, a girl frequently calls her intended "her treasure; but when he becomes her husband she looks upon him as her "treasurer."

The following is a genuine notice on an Irish church door: "This is to give notice that no person is to be buried in this churchyard but those living in the parish. Those who wish to be buried are desired to apply to me. Ephraim Grub.

Pedagogue: "What is the meaning of the Latin verb ignosco?" Tall Student (after all the others have failed to give the correct definition): "I don't know." Pedagogue: "Right. Go up to the head."

THE MANHATTAN FEED, A NUTRITIOUS CONDIMENT FOR HORSES, CATTLE, MILCH COWS, SHEEP, PIGS AND POULTRY.

The OBJECT of this FEED is to prevent disease, to put and maintain animals in a healthy condition, and to economize feed. All the ingredients composing this FEED are certain health-giving Herbs, Seeds and Roots, which cannot be obtained by animals that are stall-fed.

DIRECTIONS FOR FEEDING.

HORSES.—At each time of feeding mix half pint of the Feed with the usual quantity of corn or oats. In a short time your horse will be in a perfect condition.

BULLOCKS.—Mix same as for Cows. CALVES AND LAMBS.—at each time of feeding mix half pint of the Feed with the usual quantity of milk or oatmeal for every four animals.

COWS.—At each time of feeding mix at the rate of six pints for every dozen cows, with their usual feed, and in two weeks you will be surprised at the large increase of milk and butter.

POULTRY.—Mix half a pint of the Feed in a peck of their usual food. A measure holding exact amount of one feed is enclosed in every bag.

PRICES.

Bags containing 100 Feeds (25 lbs.), \$2.00. Bags containing 200 (50 lbs.) \$4.00. Bags containing 400 Feeds (100 lbs.), \$8.00. For Poultry, a specially prepared Feed, put up in 2 1/2 lbs. boxes, 25 cents.
