

Sudden Death.

Mr. THOMAS ANSLEY MARSHALL of Harmony, Aylesford, went to the woods to chop on Wednesday afternoon, February 25th. Near night his wife discovered him leaning against a fence, on the opposite side about sixteen rods from his house. On going to him she found him speechless, and apparently unconscious. From examination it appeared that he had felled a tree; which lodged against another, and broke it down; and one of these had struck his head and fractured his skull. He seemed to have lain some time, and then arisen and gone toward home till a fence stopped him. Though he never spoke, yet he lingered till the morning of the 27th Feb. 1880, when he expired, at the age of 48 years; leaving a deeply sorrowing widow, seven children, an aged father, and numerous other relatives.

The mourners, however, while deeply grieved by this sudden bereavement, may well be consoled by the cheering hope that, though absent from the body, he is present with the Lord. He had been a regular member of a Baptist Church for about six years; was an obliging neighbor, a kind husband and father, and a consistent Christian. Brother and sister Marshall had been called to part with a dear child, Caroline, aged seven years, on the 25th day of December last. As she with a number of others in the settlement, died of diphtheria, it was not deemed prudent to have any public religious service at the time of her burial. Her parents therefore requested that for the benefit of the family and others, particular reference should be made to this visitation of Providence in a sermon to be preached at Greenwood on Lord's day, Feb. 29. It is a remarkable circumstance, that at that very time and place the funeral of the father was attended, and a discourse delivered by the writer, to a large and solemn assembly, from the words of David, (1 Sam. xx. 3.) "There is but a step between me and death."—Communicated by Rev. C. Tupper.

We learn from the Witness that large quantities of printing—lithographic and letterpress—are constantly being smuggled into Canada from England and elsewhere. It generally comes packed in with goods, and, with few exceptions, always escapes the eyes of the Customs official. We trust that the officers of this department will exercise more vigilance in future, both in the interests of the Dominion treasury and the printing fraternity of this country.

The maple sugar season generally sets in about the 20th of March, but like everything else this year, it appears to be ahead of time, and new sugar has already made its appearance in the market.—Witness.

Mayflower Division S. of T., on Wednesday night through the P. G. W. P., Ald. Murray on behalf of the members of the Division, presented Mr. Wm. Foster, the present G. W. A., with a very handsome National Division. He was elected to the office of G. W. Associate, which entitles him to a seat in the National Division. The recipient replied with a few words expressive of his thanks for the kind feelings the Division held towards him and for their handsome present.

PAUSE, PONDER AND PERUSE!!—The invention of that Superior and Complete Sewing Machine (The Family Sewing Machine), marks one of the most important eras in the history of machinery, and when we consider its great usefulness and extremely low price (\$25), it is very difficult to conceive of any invention for domestic use of more or even equal importance to families. It has great capacity for work; beautiful, smooth, and quiet movement, rapid execution, certainty and delightful ease of operation, that at once commends it above all others. The working parts are all steel, strong and durable and will last a life time; the bobbins hold 100 yards of thread; the stitch is the finest of all the stitches made, neat and regular, and can be regulated in a moment to sew stitches from an inch in length on coarse material down to the finest, so infinitesimal as to be hardly discernible with the naked eye, and with a rapidity rendering it impossible to count them as fast as made; it has more attachments than any other, and it does to perfection all kinds of heavy, coarse, plain, fine, or fancy needle-work with ease, and far less labor than required on other machines. It needs no commendation, the rapid sales, increasing demand, and voluntary encomiums from the press, and the thousands of families who use them, amply testify to their undoubted worth as a standard and reliable household necessity, extending its popularity each day. Machines sent anywhere to be examined before any money is paid. AGENTS WANTED by the Company. Address them for information. FAMILY SEWING MACHINE CO., 755 BROADWAY, NEW YORK. Oct. 22.

CONSUMPTION CAN BE CURED

IS A FACT ATTESTED BY THE HIGHEST MEDICAL AUTHORITIES IN THE WORLD.

A careful observation of the laws of health, and the systematic and persistent use of SCOTT'S EMULSION OF COD LIVER OIL with HYPOPHOSPHITES OF LIME and SODA will accomplish this result. This preparation has all the virtues of these two most valuable specifics, in a form "perfectly palatable," and acceptable to the most delicate stomach, and we make the unqualified statement that SCOTT'S EMULSION is being used with better results, and endorsed and prescribed by more physicians for Consumption—and the diseases leading to it, such as Chronic Coughs, Bronchitis, Scrophula, Anemia, General Debility and the Wasting Disorders of children, than any other remedy known to medical science. The rapidity with which patients improve on this food medicine diet, is truly marvellous.

SEE WHAT PHYSICIANS AND THE PEOPLE SAY ABOUT IT.

Messrs. Scott & Bowne: 66 West Thirty-sixth Street, N. Y., Sept. 2, 1876. Gents—I have frequently prescribed Scott's Emulsion of Cod Liver Oil with Hypophosphites during the past year, and regard it as a valuable preparation in scrophulous and consumptive cases, palatable and efficacious. C. C. LOCKWOOD, M. D.

Messrs. Scott & Bowne—Gentlemen.—Within the last two months I have fairly tried Scott's Emulsion of Cod Liver Oil with Hypophosphites, and I candidly declare that it is the finest preparation of the kind that has ever been brought to my notice; in affections of the lungs and other wasting diseases, we can consider it our most reliable agent, in a perfectly elegant and agreeable form. Very truly, J. SIMONARD, M. D., New Orleans, La. December 10th, 1878.

Messrs. Scott & Bowne—Gentlemen:—In September 1877, my health began to fail and my physician pronounced it spinal trouble; under his care I got some relief from pain, but my general health did not improve, and early in the winter, I began to raise blood and rapidly grew worse. In May last I was taken with a violent bleeding which brought me to my bed and my life was despaired of for many weeks; violent symptoms appeared, night and morning coughs, night sweats, short breath, and a return of the spinal trouble. My physician stopped the bleeding and then ordered Cod Liver Oil and Lime; and I used various preparations, but they did me no good. I had lost all hope of life, and was an object of pity to all my friends. Last September I purchased a bottle of your Emulsion and before it was all taken I was better. I then bought a dozen bottles and have taken all with the following results: Cough subsiding, night sweats stopped, appetite returned, pains in spine disappeared, strength returning, and my weight increased from 118 to 140 pounds in sixteen weeks. I have taken no other medicine since commencing with your Emulsion and shall continue its use until I am perfectly well. I frequently meet some friend on the street who asks, what cured you and I answer, Scott's Emulsion of Cod Liver Oil, &c. I have a friend who has not spoke aloud for 15 months and he is getting better. I gave him a bottle, and he bought two more, then got a dozen and says it is food and medicine for him. He was given up to die a year ago; but he is improving now wonderfully. My recovery is exciting the surprise of many people, and I shall do all I can to make known your valuable medicine. Very truly yours, H. F. SLOCUM, Lowell, Mass. January 29th, 1879. For Sale by all Druggists at \$1.00 per bottle. SCOTT & BOWNE, Manufacturing Chemists, NEW YORK and BELLVILLE, Ont. Nov. 19.
